**Council Recommends the Old Site**

**For the Proposed Hygienic Institute**

**Offer of Huron College Was Not**

**Entertained By the**

**Council.**

At the council meeting last night it was decided to recommend to the Government that a site on the grounds of Victoria Hospital be offered to the Government as a site for the hygienic institute.

His Lordship Bishop Williams, on behalf of the Huron College board of directors, offered a site on the college grounds, but the council decided it had no power to offer that site to the Government, and if the offer is to be made, it must be made direct to the Government by the college.

**Reasons Why.**

Bishop Williams, in his communication to the council, gave several reasons why the Huron College site should be chosen. It was one of the best locations in the city. It was far removed from the dust and noise of trains and thoroughfares, and yet within a block of the street railway line. As an integral part of the university, it was advisable to keep the institute near the other two departments of the university—the arts and theological departments. He also pointed out that there was plenty of room for many such institutions such as the hygienic institute on the college grounds, and they would probably be erected sometime in the future. His Lordship declared that there was no necessary connection between the hospital and the institute. The material to be used in the institute could be placed in sealed tubes, as is usually the case, and just as easily carried several blocks as a few yards. It was the intention to build up a civic university, and it would be advisable to group such buildings as are required grouped, as is done in Toronto and Kingston.

**Ald. Beattie Opposes It.**

Ald. Beattie opposed the offer, and declared that it should not be countenanced by the council. The offer had made been made direct to the Government, and the council had nothing to do with it. The council had only one site to offer, that on the hospital grounds. He thought that the placing of the institute near the Western University would frustrate the very object for which the university was taken over. It was the intention to make the institute purely un denominational, and if the institute were located there, it would have a tendency to destroy the feeling that it was un denominational. The Western University could manage the institute as well near Victoria Hospital as in the north end. In the north end it would be surrounded by Church of England institutions, as it was understood that Bishopstowe would be turned into a college for the Church of England shortly. If the Government chose the university site all well and good. The city, however, had only one site to offer, and that should be given to the Government.

**Ald. Greenlees Favors It.**

Ald. Greenlees thought the offer of the bishop should be accepted. He did not think that the fact that the hygienic institute would be surrounded by Church of England institutions of his part he was not afraid. He thought that the example followed by Toronto and Kingston in this matter could be safely followed here. In these cities Special hospital committee.

**Salaries Increased Total Nearly \$2,000**

**City Council in Very Generous Mood**

**Mayor's Expense Account Given**

**a Boost—City Hall Officials**

**Remembered.**

The council was in a most generous mood last night and voted increases in salary to nearly all the city officials. The increases varied, but in all cases were quite substantial. They totaled \$1,940.

The greatest increase was in the salary of the mayor. This has for some years been \$1,200, but it was raised last night to \$2,000.

When the latter question came up, Ald. Greenlees said he thought that the expenses of the mayor's office should be increased. The present salary was inadequate. The office required a very great deal of attention, and was becoming every year more expensive to the occupant. He would move that the salary be \$1,500.

Ald. Moorhead seconded this motion. He was in favor of the increase as he was of the opinion that \$1,200 was not enough to meet the expenses of the mayor's office. There were constant drains upon him, and he should be given a larger salary.

**Increase To \$2,000.**

Ald. Parsons declared that he was in favor of an increase, but the amount suggested was much too small. He would move in amendment, that the expenses of the office be increased to \$2,000. He pointed out that Ottawa paid its mayor \$3,000, Hamilton paid \$2,000, Stratford paid \$1,000, and he kept out of the position because of

**Increase Carried.**

The increase to \$2,000 was carried on the following division: Yeas—Ald. Beattie, Ferguson, Parsons, Greenlees, Armstrong, Booth, Saunders and Gerry. Nays—Ald. Stewart, Moorhead and Rose.

**Amusing Incident.**

A rather amusing incident occurred when the increase to Weigh Clerk Dean came up. Ald. Beattie, in moving the report, moved that the salary be the same as last year. Ald. Saunders thought that as Mr. Dean had not carried a black asphalt pavement on Carling street, between Richmond and Talbot streets, No. 2.

The amendment was put and was lost.

Ald. Saunders then moved that Mr. Dean be increased \$75. This motion carried, although the council had voted down an increase but a minute before.

**The Other Increases.**

The increases were as follows:

A. E. Carrothers, clerk part time, \$75 to \$100.

E. Kirkpatrick, assistant city engineer, \$1,200 to \$1,300.

Miss M. Lawrence, stenographer, \$400 to \$450.

Stephen Grant, assessment commissioner, \$1,750 to \$1,800.

S. Baker, city clerk, \$1,750 to \$1,800.
