Pupils of Aberdeen School Buried Under Falling Bricks Five Severely Injured When Wind Blew Over a Chimney

TONS OF DEBRIS CRASHED THROUGH CEILING ONE LITTLE GIRL MAY DIE OF HEH

Bad Accident at School Located on the Hamilton Road Just East of William Street, When the Building Was Crowded With Scholars Poring Over Their Lessons.

PUPILS LEFT SCHOOL LIKE SOLDIERS

Fire Department and Police Were Soon on the Scene-Doctors Had Their Hands Full for Hours-Wonder Is That a Score of Children Were Not Killed by the Tons of Debris Which Filled the Room in Which the Scholars Sat.

Mamie Leburtis was perhaps fatally and four others, Jack Clark, Mabel McNeil, Ila Mottashed and Harry Weinstein, seriously injured at 11:30 o'clock this morning, when the wind toppled one of the chimneys of the Aberdeen School into the room known as Grade III., taught by Miss Munro. A score of others suffered minor injuries, and all had remarkable escapes from death.

Miss Munro was not hurt, although a huge piece of cement fell directly in front of her.

Principal McRoberts and the gallant boys in his form did heroic work in rescuing the children who were buried under the terrible weight of bricks and cement.

Mamie Leburtis was removed to Victoria Hospital, while the others were taken to their homes. The accident happened after the morning recess.

A THUNDERING CRASH.

The children were busy at their lessons. Miss Munro was at the blackboard when there was a

Miss Munro heard the ceiling crack, and she shouted, "Run for your lives, children." They made for the doorway with great speed, but the

tons of brick and debris caught several of them. Five children were buried under the weight of the broken

The rest of the children hurried out, and reached the

The awful crash alarmed the other rooms, and they filed out as if they were going through their fire drill.

NO CONFUSION AT FIRST.

No disorder, no confusion, no excitement, but steadily and regularly like little soldiers. Principal McRoberts sent in an alarm to the fire depart-

ment, and called the ambulance. Several neighbors heard the crash, and they rushed over.

The fire department were on their way from the Globe Casket Company and were soon on the scene. Then the work of rescue commenced.

THE WORK OF RESCUE.

Mamie Leburtis, a little colored girl, was taken out. She was unconscious and bleeding, and it was seen that she was

Mamie McNeil was taken out, and in a few moments the others were removed.

All were carried to other rooms.

The least seriously injured were removed to their homes which were nearby, the firemen carrying them or taking them in the chief's buggy.

Mamie Leburtis' injuries were such that she could not be taken home, and she was removed to the hospital in the city

The other youngsters ran into the school yard and watched the work of rescue.

PARENTS WERE TERRIFIED.

In a few moments there was confusion in the yard. The parents of the children in the school came running to see the

The terrific wind had made them nervous, and when it was noised about that an accident had occurred, they rushed in hundreds to the school.

Many affecting scenes were enacted. Mothers frantic with fear, screamed with joy when they saw their children

were alive and unhurt. Rigs were driving everywhere looking for physicians.

There was confusion everywhere. The firemen and the teachers looked after everything in the school house, and kept order and pacified the youngsters

Miss Munro was very nervous, and was almost in a state of collapse, but she never left the school until she felt certain that all the "kiddies" had been cared for. Then she went home

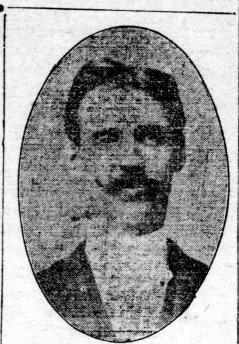

and was placed under a doctor's care. ONE OF THE PUPILS.

Emma Shergold, when seen by The Advertiser, said she was terribly frightened when she heard the noise and saw the bricks falling all about her. Before she could get out of her desk a brick fell on it, but she kept on going and managed to get out of the side door.

"What did you think had happened?" asked a reporter. "I thought it was a fire and that the walls were going to fall in," she said. "I was pretty badly scared."

toof like tissue-paper.

It tors a hole in it fifteen feet is incomprehensible.

MR. W. H. McROBERTS. Principal of the Aberdeen School.

The other rows were also badly

All in Danger. Practically every child in the room was in imminent danger. The ceiling did not collapse where Miss Munro was

The chimney that fell was a ten-foot one, of large size. There were several thousand bricks in it, and it was of a tremendous

It was nothing short of a miracle that saved many youngsters from death or serious injuries. Miss Munro's Story.

Miss Munro, when seen at her home, 388 Adelaide street, was very nervous, but was able to give an excellent account of the accident "The walls were shaking all morning with the violence of the wind," she said, "and more than once I wished that we were all safely out. At the time the chimney fell I was standing in front of my desk helping little Helen Ball do an arithmetic question.

The Building Shook. "Suddenly I felt the building shake more than ever, and a moment after there was a crash on the roof, and I knew the chimney had fallen. I shout-ed to the children, 'Run for your lives!' In an instant the room was full of flying bricks and dust. I could not see much for a minute, until the dust settled, but caught sight of many children rushing for both doors. "As soon as I could see I saw the

Clark sticking up through the bricks and wood from the broken roof and "There were still some children in the room, and I hurried them out, as there were pieces of the tin cornice thought they might blow in and hurt somebody. It only seemed a moment before Mr. McRoberts and the boys of his class were up, and they took in the

as they could to get the little ones Pathetic Cries.

situation at once and worked as hard

"Poor little children," she continued. "I will never forget their cries, and how they screamed. It makes me shudder now. But Mr. McRoberts and the out. We carried them as quickly as possible to Miss Magee's room down-

"Mamie Lyburtus was very badiy cut about the head, and when I opened her dress a little at the back I found she had a big cut below her neck. "Little Ida Mottashed was badly cut also. How any of the little ones came out alive from under all that pile of bricks, I cannot tell. It all happened so quickly they had no chance to get

The Injured. The names given by Miss Munro of the children and the order they sat in from the front were as follows: Ida Mottashed in the second from the front, Madeline Gleason third. Jack Clark fourth, Harry Weinstein fifth, Mabel Leburtus sixth and Mabel The last four were literally buried ucts. inder the bricks and falling wood.

Esther Kanter and Percy Roe, two other children who had seats in the same row, were absent. A Strong Pillar. Only the strong pillar over Miss Cooper's room, directly under Miss

Munro's room saved a still worse The tons of brick and debris broke he ceiling through in one or two places, but the heavy weight fell directly on the pillar. "There was a terrific crash," said

Miss Cooper. "The roar and rattle of the bricks were terrifying. The youngsters instinctively got up and Trureday—Strong northwesterly winds; a few showers or snow flurries, but part-ly fair and cooler.

TEMPERATURES. marched out in perfect order. The dust was stifling, but they paid no atten-tion to that, but walked out steadily. There was not a bit of confusion. Principal Pleased.

Principal McRoberts was highly pleased with the conduct of the youngters
"They marched out in perfect order," he stated to The Advertiser. "We heard the crash and knew that some-thing was wrong. I sent the children out and called the ambulance. It was a very bad accident. The youngsters

are very badly hurt, I am afraid, but

it is simply marvellous that it was no "It was remarkable that those injur-
