VETO OR BUDGET?

The new British Parliament assembled yesterday, but adjourned until Monday next, after the election of a Speaker and the swearing-in of members. There is nothing significant in this adjournment; it merely follows a dicitis. custom. Conjecture will be rife for at least another week. Perhaps the King's speech will furnish a clue to the course of procedure. Certainly the cabinet known for his absolute probity and highhas guarded the secret well.

The Radical press is not less em-Mr. Redmond himpractices had preceded him from another

Lords shall be dealt with before the budget is reintroduced, or any other legislation attempted. Even if Mr. Balfour has promised to aid in passing the budget, as reported, the Government could not accept the offer, and defer the question of the veto without alienating the Nationalists and Laborites, and risking a split in the Liberal ranks. The only condition upon which the budget could be given precedence without disrupting the progressive forces would be the assurance of the King's consent to create new peers to carry the veto bill if neces-

sary. More than once the very threat of a new creation has brought the House of Lords to its knees. It is a power scrupulously constitutional. Professor Dicey calls it "that further custom, which though of comparatively recent growth, forms an essential part of modern constitutional ethics, by which in case the peers should finally refuse to acquiesce in the decision of the lower House, the crown is expected to nullify the resistance of the Lords by the creation of new peerages." The King, whatever his per sonal inclinations, will probably be governed by the advice of his ministers in such a crisis. He knows that After so much beating of the war crown, because aristocracy and royalty the German-Canadian trade are interdependent. Dropsy Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Pemedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

L. TURLEY CURD, Wilmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Do you speak of finer things? Then marriage it is which affords ground for divorce, and divorce supplies our actesses with temperament for the emotional roles, while as for the staple of the drama, it is certain that many extreme psychological situations would fall pretty flat if there were no marriage to create scandal by being held too lightly.
