

ALLIES WIN BIG BATTLES FIERCE FIGHTING THE RULE

Retreat of the Turks Cut Off By the Greeks and Bulgarians
Are Smashing Adrianople Forts With Big Guns
—Servians Take Novi-Bazar.

London, Oct. 24.—A succession of victories have been scored by the allies in the Balkan conflict, according to the dispatches which are being received here. Sofia, Belgrade and Athens all have reports of successes for their respective arms. Only Montenegro appears to be uncertain of the result of the fighting which is being waged. It is admitted that all the victories were won at frightful sacrifice of life.

The Servians send out official news that the town of Novi-Bazar, capital of the Sanjak, in which Austria takes a keen interest, has fallen into the hands of the Servian army, and that a second of their armies has taken, or is about to take, Komarno, Prishina, Kotechian, and Kratovo are other towns reported to have been taken. Greece has scored a great victory in the capture of the village of Servia, to the north of Olovo, in Thessalon, reported this (Thursday) morning. The success of the Greek army at Servia has caused general rejoicing in Greece. The pass is of a character which seemed to make its defence a matter of comparative ease. The Turks took up a strong position at the head of the pass, but were outflanked in the night, and were forced to retire on Servia, abandoning large quantities of stores. The losses are said to have been heavy on both sides.

Dispatches received this morning from Sofia bring the report that the city of Adrianople is being shelled by Bulgarian siege artillery, and that the inhabitants of the city are in panic. A famine is adding terror to the attack. Fighting is reported on all sides of Adrianople, upon which the Bulgarians have centred much of their strength. They are fighting with the idea that the taking of Adrianople will mean the opening to them of the way to Constantinople.

A MONTREAL VIEW OF EAST MIDDLESEX CONTEST

[From the Montreal Herald.]
The election of Mr. Neely would be an expression of approval of the three-fifths clause, as it is called, which saved all the bar-room votes in the riding. It is claimed that the license commissioners of the riding, officials of the Whitney Government, this year renewed a proportion of the licenses which those in sympathy with temperance principles desired to see cut off. The issue seems to be very clearly drawn. Mr. Neely has the support of the temperance and anti-liquor interests, and the abolition of the bar. On the other hand, Mr. Salter, elected, will go to the Legislature as a supporter of the policy of the Liberal leader in favor of the banishment of the bar. The result at the polls on Monday next will no doubt be interesting.

HOME RULE AMENDMENT WAS VOTED DOWN

Commons Refused to Accept
Law's Clause That Would
Fetter Free Action.

London, Oct. 23.—The House of Commons this evening resumed the debate on the amendment to the Irish home rule bill moved yesterday by Waldo, Astor, the Unionist member from Plymouth. The amendment sought to prohibit the Irish Parliament from making laws whereby any body may be deprived of life, liberty or property without due process of law or equal protection of the laws.

Premier Asquith, in opposing the amendment, said that the acceptance of it would be equivalent to acknowledging that in Ireland alone, of all the Empire, it was necessary to fetter the free action of the Legislature, imposing restrictions not imposed anywhere else. The Premier asserted that the amendment merely said that the Irish Parliament should not pass legislation which no civilized Parliament would think of passing.

Andrew Bonar Law, the Unionist leader, in replying to the Premier, scored a point, reminding Mr. Asquith that he voted for the insertion of the identical words of the amendment in the home rule bill of 1893.

Nothing definite is known at Stara Zagora of the losses, but they are spoken of in thousands. Some prisoners whom the correspondents have captured in the fighting have been captured by the vigor of the attack. They say also that the Turks are poorly fed and ill-disciplined.

The correspondents who are using Constantinople as a starting point for the front have had better luck than those who are trying to get news from the north. The dispatches received from the north from Constantinople say these correspondents started for the frontier last night.

Ingersoll, Oct. 24.—A fine of \$5 and costs was imposed by Magistrate Patterson yesterday in a case in which the defendant, John Ingersoll, was charged with selling lightweight bread in Ingersoll. The defendant's counsel, Mr. Wm. Meredith, of London, contended that the bread was not weighed, stating that the law permitted the selling of small loaves weighing 12 ounces, and the defendant's bread weighed 13 ounces. For the prosecution, Chief Fysh pointed out that the law demanded two weights, twelve ounces and twenty-four ounces, and under these circumstances the bread of the defendant was either under weight or over weight of six ounces or more.

An effort is being made by the police and a C. P. R. detective to hunt down the parties who broke into the C. P. R. station at Salford Sunday night. Different articles that were stored in a section of the station were strewn about the room, and evidence as to the calibre of the marauders was found in the form of a number of empty whiskey bottles. It is the belief that the station was made a rendezvous for the night of several parties who were carousing.

A local ad. about a case which will be tried in juvenile court, has been charged with stealing copper wire from the electric power and light commission. His case was called in the juvenile court yesterday and he was remanded for a week.

KNOX BOOSTS TAFT

Tells Why His Policies Should Be Acceptable to Americans.

[Canadian Press.]
Washington, Oct. 24.—Fresh from a conference with President Taft, Secretary of State Knox today issued a campaign statement setting forth his reasons why Mr. Taft should be retained in office as chief executive. The secretary said that the President's policy, laying especial stress on the "maximum and minimum" feature of the tariff program, and declared that "in the field of striving for world peace President Taft's name must be written very high." He referred especially to the arbitration treaties negotiated with Great Britain and France and to the Administration's interference to prevent war and bloodshed in Central America.

"These more idealistic phases of our diplomacy," said Secretary Knox, "should, I think, make especial appeal to the materialistic appeal to all our industries and producers of every sort who share in the prosperity of the country, is too evident further to dwell upon."

In extolling the foreign policy of the administration, Mr. Knox dwelt on the "very real relation" that he said existed between such a policy and the prosperity of the American wage earner.

In reply to the usual question as to whether he had anything to say respecting the jury's decision, Ellis said "No, nothing." The jury was three hours in reaching a verdict.

TURK TROOPS MAY CARRY PLAGUE INTO EUROPE

Cholera Is Sweeping Sections
of India and Asiatic
Turkey.

[Canadian Press.]

Washington, Oct. 24.—Cholera again is sweeping India, according to a report to the United States public health service. In August in the Province of Madras alone there were 21,300 cases, with 10,620 deaths, and in other parts of the empire an equally ominous mortality prevailed. While the scourge is not so severe as in previous years, it is exacting a heavy toll. Cholera is also said to be prevalent in Asiatic Turkey, and with Turkish troops being hurried into Southern Europe, because of the Balkan war, the officials fear the plague may spread through Europe.

WINDY CITY CREDITS SALE OF RAILWAY

Grand Trunk Executives in City
Examining "Cotton Belt"
Line.

Chicago, Oct. 23.—Great interest was created in railway circles here today by the announcement that E. J. Chamberlin, president of the Grand Trunk system, and Morley Donaldson, general manager of the Grand Trunk Pacific, were in the city and today inspecting the lines and properties of the Chicago and Great Western Railroad, formerly called the Maple Leaf route, which is now known as the Cotton Belt line.

The Canadian officials are accompanied by A. M. Felton, president of the Great Western, and are travelling in the Maple Leaf train. The story that the Grand Trunk is about to acquire the Great Western is given general credence here. The road is owned by British capital, and controlled through J. P. Morgan & Co.

SIX LIVES LOST BY EXPLOSION AT HAILEYBURY

Powder Factory Destroyed Following a Fire of Unknown
Origin.

TOWNS SHAKEN BY EXPLOSION

Victims Were Coupling a Hose
to Extinguish the Fire When
Greater Disaster Occurred.

Haileybury, Ont., Oct. 23.—Five dead and one fatally injured is the toll claimed by an explosion which destroyed the Energete explosives factory shortly before noon today. In addition to the dead and fatally injured there are several others more or less hurt, and the property damage will range into the thousands.

The Dead.
H. Long, superintendent, married, leaves widow, son and daughter.
Thomas Poppin, 35, leaves widow and three children.
Wilbert McLaughlin, 33, leaves a widow and one child.
Robert Young, 43, unmarried, home.

The Injured.
Mrs. Fred Ericson, fatally hurt by flying metal and debris.
Karl Gustafson, 40 years old, married, hurt on body.
Andrew Malin, 41, married, injured on the face.

Otto Manastogis, ear drums injured, suffering from shock.
The injured were taken to the Sisters of Providence Hospital, others who were slightly injured by flying bits of debris, shock and falling glass went to their homes. The explosion followed a fire which started in the grinding room of the powder-house. The details of its origin are not known and probably never will be, as those who knew remained to fight the fire and lost their lives.

Superintendent Long and the others who lost their lives were endeavoring to couple a hose at the time they met their death. They were several hundred yards away when the explosion occurred. Mrs. Ericson was the only one who was injured by being struck by debris. Her wounds were received from flying metal which hit the exterior of the building with which the explosion was connected. There was sufficient time to give warning regarding the fire, and all the girls who are employed in the factory made a hurried retreat, and were several hundred yards away when the explosion occurred. Mrs. Ericson was the only one who was injured by being struck by debris. Her wounds were received from flying metal which hit the exterior of the building with which the explosion was connected.

The factory was not entirely complete after the rebuilding following the fire of last summer, and two of the men who lost their lives—W. H. McLaughlin and Robert Young—were engaged on the contract, which was to be completed today.

Many towns shaken.
Haileybury, Collett, Lathford, New Liskeard and Thornloe, along the T. & N. O. Railway, were shaken by the explosion, and even Ville Marie, across the lake in Quebec, some twelve miles away, was disturbed. In Collett, as in the other towns, plate glass windows and windows in residences were broken by the score, and every one believed that one of the mine magazines had exploded.

Half an hour later came the report, however, that the Energete, or "Cheddite" factory, as it is generally known, because of the quantity of the product, had been destroyed. Doctors and firemen, as well as the local police and others, rushed to the scene and rendered any possible aid. The building was so scattered by the explosion that there was little difficulty in locating the bodies, and they were quickly removed to Thorpes, where they remained until this afternoon, when a jury was empanelled to view them, and the inquest was adjourned until tomorrow.
