Vestern Union. ..... KENNETT HOPKINS & CO., of New York, sent the following despatch over their private wire to their Toronto office, No. 20 King

street east:—
New York, Dec. 28.—Liquidation has continued to-day most pronounced in L. N., H. P. and some other low priced stocks. The only effort that is being made to stop the decline by holders of securities is to make the short pay a premium for borrowing stocks, but if the market goes down one or two points a day, a premium of 1-16 or 1-3? is not a very heavy day, a premium of 1-16 or 1-32 is not a very heavy charge. The news of the day has not been of a character to materially affect prices. St. Paul net for December came about as expected by the street. For December the decrease will be materially larger, and so it will be on all the roads. There is absolutely nothing except the short interest to buy stocks on, and the short interest is now an in-and out one, warm hard to interest is now an in-and out one, very hard to catch, and harder to hold after it is caught. London houses have sold stocks to-day, and all accounts agree that the situation abroad is fully as bad as it is here. Total sales, 249,000.

Chicago. F. J. LEWIS & CO., 20 King street east, received the following despatch yesterday over their private wire from Kennett Hopkins &

Chicago, Ill., Dec. 28.-Wheat -There was a investment purchases. The Weather Bureau predicted much colder weather, and this had a stimulating effect. Receipts were lighter and exports liberal, with fair engagements for future shipments. Cables were weak. Baltic and other ports exported moderately last week. Speculative sentiment favors a further advance, but we can see little at present to sustain one. Corn and oats-The early marketing of a line of long stocks caused a sharp break, but the decline was recovered in sympathy with the rally in wheat. Corn declined early, but showed considerable strength later. Provisions firm but not active. Closing cables reported an improved feeling at Liverpool.
