to eat. This is the first time for many days

he has swallowed anything but his food.

A slight increase in respiration is the only

adverse symptom reported at this hour.

The condition of the president at 10

o'clock continues as favorable as could be

expected. Within the past thirty hours

his improvement has given great encourage-

ment to the attending physicians. He

swallowed an adequate supply of liquid

food; the paroxysmal discharges of bile

and give promise of marked improvement;

and his mind perfectly clear. He has per-

haps a little more fever than was antici-

pated, and his respiration is somewhat ab-

normal. The general feeling is one of

hopefulness, but two or three days more

of improvement will be needed to inspire con-

fidence.

A BETTER DAY THAN WAS LOOKED FOR.

Bliss, in conversation with Rev. Mr.

Powers about 7 o'clock Saturday evening,

said the president had thus far, rather

better day than was anticipated in the

morning. He did not, however, see any

reason to believe that the absence of

the other symptoms of the disease would

be a permanent one. "If," he said, "the

president gets through to-morrow as well as

to-day, I think there may be some ground

for encouragement.

PARLIAMENT PROVOQUED.

A RELEASE FROM SEVERE AND

PROTRACTED LABORS.

Full Text of the Queen's Speech—Amicable

Relations with Foreign Powers—South Africa

and Afghanistan—The Irish Land Bill.

LONDON, Aug. 27.—The imperial parlia-

ment was prorogued to-day. Following is

the full text of the queen's speech.

My lords and gentlemen: The time has

arrived when I am at length enabled to re-

lease you from your unusually severe and

protracted labors.

My relations with all foreign powers con-

tinue to be amicable and cordial.

Progress has been made, since I last ad-

ressed you, in the territorial arrangement

in the Levant. A treaty has been con-

cluded with the sanction of all the great

powers, for the cession of Thessaly to the

Greek kingdom, and its peaceful execution

has begun.

Recent events in Tunis have led to com-

munications between my government and

the government of France. I have received

satisfactory assurance from that republic

to the rights secured to me by the treaty

with the bey, and as to the relations between

the regency and the neighboring Ottoman

territory of Tripoli.

A convention has been signed which se-

cures to Europeans in the Transvaal, sub-

ject to important conditions therein set

forth, complete internal self-government.

It awaits ratification by a representative

assembly of the people. I trust you will

be glad to see that the treaty will effec-

tually contribute to the stability and

MISSED HIS SHOT.

A Renfrew County Man's Narrow Escape

from Assassination—A Stern Chase.

OTTAWA, Aug. 27.—A few days ago while

Hugh Gallagher, of Brudenell, Renfrew

county, was engaged in doing some carpenter

work at his back door, he was startled by

the report of a gun and the dull thud of

a bullet striking the door jamb. He turned

quickly to see who had fired the shot,

and after a chase of about half an hour

hauled the would-be assassin. Lofloft

admitted firing the shot, and stated that

he did not intend to kill him, giving as a

reason for firing at him that Gallagher had

prevented him from passing through his

field a short time ago. Dr. Kender, the

acting magistrate of Rockingham, was al-

sent from home at the time, and a couple

of days were lost before Gallagher could

secure a warrant for Lofloft's arrest. Lofloft

is now in custody, and has been committed

to jail at Pembroke to stand his trial.

It is stated that insanity runs in Lofloft's

family.

A BAD TRAMP.

His Attempts to Outrage a Young Lady in

Renfrew County—Two Days ago a

tramp attempted a daring outrage upon

Miss Sykes, an intelligent and respectable

young woman of 18, daughter of Thomas

Sykes, residing in Renfrew county, near

Cobden. The young woman was returning

to her father's home from the village of

Cobden, when she saw a man accost her

and, without any warning, he seized her

by the arm and endeavored to drag her

into a field. She screamed and he

THREE G.T.B. MEN KILLED

BY A COLLISION NEAR MONTREAL

YESTERDAY.

What an Inhuman Telegraph Operator is Guilty

Of—Two Other Men Seriously Injured.

MONTREAL, Aug. 29, 3 a.m.—A serious

railway collision happened yesterday (Sun-

day) morning at Raynville, on the Grand

Trunk railway, about fifty miles from Mon-

real, between a special going west and an

east-bound freight train. They were

going at full speed, and a dense fog

prevailing, the drivers did not see their

danger until too late to slacken speed.

Hilop, 26 1/2 years, was taken out in a

critical state and subsequently

died. Ford and Cliff, the drivers,

were seriously injured, but thought not fatally

injured. A brakeman named Anderson

was also injured and taken to Lancaster,

where he is recovering from his wounds.

Nelson was instantly killed, his corpse

being taken out terribly mangled. The

cause of the accident was owing to the

operator at Lancaster not having signalled
