THE CITY IN BRIEF.

Dr. Fulton has returned from the North Masonic excursion from Shelburne vester

Goldwin Smith will shortly make a trip John Paine died unexpectedly at the jail

vesterday morning. The joint committee on Vorkville annex-ation meets this afternoon at the city hal'. Alex. Gillis, now in jail has been ad judged a lunatic. He will be sent to the asylum.

Mr. Bayley, bandmaster Q.O R., has been appointed organist of the Erskine Presbyterian church. 'The Master plasterers' association met yes-terday, when they decided to visit Chicago about the 12th of August.

William Johnston was arrested on York s'reet last night for beating his wife.
was taken to police headquarters.

The woman Annie Laroux, confined in jail for a week past, was yesterday sent to the hospital. Her husband has been com-municated with.

A prominent citizen who returned from Montreal last night says it is pretty certain that Rev. J. P. Dumoulin will accept the call to St. James cathedral.

William Robinson, a young farmer from Bruce county, celebrated his visit to Toronto yesterday by getting on a spree. He was taken to police headquarters in an A small steam yacht which was over at

the island yesterday during the Boyton ex-hibition, was disabled and had to be towed over to the city by the steamer Luella of Capt. Turner's line. William McLaughlin, believed to be one of the men connected with the robbery of carpenters' tools from Sexton's shop, Fro t street, some time ago, was arrested in Belleville and brought to Toronto yester-

annual picnic at Lorne park yesterday.

The scholars with their teachers and friends
to the number of several hundred went up
on the steamer Rapert. A most enjoyable

time was spent. Kingston Whig : A friend who has been visiting Toronto says Rev. Mr. Jolliffe has made a good start in the Queen City. Al-ready he has married five couples, attend-three funerals, and christened eight children. His record in Kingston, in regard to marriages especially, was a remarkable

Mrs. Fletcher, who lives at 198 Little Richmond street, while driving on Bathurst street yesterday fell from the wagon into the road. She alighted on her head. The stoctors think she received a sunstroke She is now lying at her home in a danger-

chief of police, afterwards taking the governorship of the jail. Reverses followed till his death in the hospital, without a frend or relative near him. He was once wrand master of the orange order.

Boyton at the Island. Capt. Boyton gave another of his wonder ful exhibitions at the Island yesterday

afternoon. Large crowds were present and the performance passed off without the slightest hitch. Hanlan was present and gave evidence of his skill but was not so lucky as the captain as he was repeatedly against the booms.

Sudden Death. William Smith, a carpenter from Peterboro, died suddenly at No. 8 Bond street
yesterday morning. He rose early and
went down stairs and shortly afterwards was

water lines which were scattered in great
profusion all over the surface of the pond.

Besides the common yellow water lilies,
were numbers of full blown double white
lilies, a bunch of which was presented to
Mayor McMurrich, superintendent of the found dead sitting in a chair. An application was sent to the mayor for a burial order, deceased having no friends in the members of the Sunday school seemed in body as the act made no provision for pay-

Liquor at the Fxhibition Grounds. William Ward and Mrs. Campbell were charged with having sold liquor without a license at their house on James street a second time, William Pinkham pleaded second time. William Pinkham pleaded not guilty to keeping liquor for sale without a license at the exhibition grounds on the 22nd. Both cases were adjourned till August 9. Mark Hutchin on admitted that he had a keg of lager at the exhibition grounds on the 22nd, and was fined \$20 and costs or fifteen days.

porter, was charged in the police court yesterday with having pointed a revolver at Richard White. He said he drew the revolver but did not point it. The complaito slap his face, when he (the defendant) drew the revolver for which he was arrested. The magistrate fined him \$30 and costs or thirty days and impounded the

A Narrow Escape Two young ladies while crossing the old White bridge, in returning from Rosedale to the city at 6 o'clock yesterday evening had a narrow escape from being shot.
Some young ruffians who had congregated
near the bridge entered into some dispute when one of the disputants either with his opponent fired a shot which missed him but came nearly striking one of the young ladies, the bullet missing her face by less

How Judge Mackenzie was Threatened. During the progress of the Ontario and Quebec railway suits yesterday morning Judge Mackenzie narrated an incident which happened to him at Kingston years ago. He was going home in the morning, ago. He was going home in the morning, and while walking up what appeared to be a road he was challenged by two men with guns in their hands, who threatened to kill him if he did not stand. He did so, and then it was discovered who the intiuder was. Explanations followed, and it transpired that the men were guarding their land in fear that it might be taken posses-

sion of by the railway company. Distribution of Prizes. The prizes won at the Trades demonstration games held on Saturday last were distributed at the Montreal house last night. by the games committee. The affair was | Queeen Victoria, informal. John Armstrong, president of York st. wharf, July 27, 1882. John Armstrong, president of

the Trades and Labor council, was present The committee are arranging for another contest to come off shortly under the auspices of the Trades council. There are still a large number of prizes in their hands, including twelve silver cups and a silver trowel given by Mr. Lennox. The trowel is for the winners of the tu-of-war between the brighlesses and stonersons. the bricklayers and stonemasons.

New Stee! Smelting Works. steel association of Ontario have bought the old steel works at Niagara and are about to put up one furnace or perhaps

Another of those delightful union pictors at Sunnyside will be held on the civic oliday.

They will employ 200 men. They have made a contract with a Toronto firm for \$100,000 worth of steel horse shoes. A New Jersey firm have offered to take all the steel they can produce at a rate sufficient. cient to pay the association one hundred per cent profit. They will work the Madec Canadian ore which will be shipped by water from Belleville. The coal will be carried to Niagara by rail which is the nearest point to the Pennsylvania coal regions. T. T. Green thr mechanical manager of the association has purchased all the uccessary machinery to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property to complete the weeks for carried to the property machinery to complete the works for car-

The Magistrates' Court.

John Wilney, charged with drunkenness by his mother, was fined \$50 and costs or six nonths. John Kane who had been up the day before was charged with being drunk and the magistrate fined him \$10 and costs or 30 days. James McKenny and wife, vagrants, were sent down for 10 days. William Cooney was charged with assaulting Norton Langstaff but as the latter was unable to appear the case was adjourned till to-morrow. Charles Spice, Charles Curtin and Thomas Fahey, three boys, were up for entering a Grand Trunk bonded car. They said they entered the car but did not touch said they entered the car but did not touch anything. Curtin and Spice were discharged and Fahey was fined \$5 and costs or five days. Richard Dug was fined \$25 and costs or 30 days for selling liquor without a license at his store on Yonge street. Robert Johnston, William Fogarty and Thomas Swain were each fined \$2 for assaulting Sam Lee, a Chinaman on Lombard street, and Lee was fined the same amount for assaulting Johnston. Alex. Giles was committed as a lunative.

Picnic of the West Presbyterian Sunday School—An Afternoon Among the Lilies in Grenndier Pond

With many of our city Sunday schools the custom of holding excursions to distant points is very common. But much more enovment in a short time can be had by holding a picnic in one of the many groves our city possesses. In excursions whose destination is some distance from town there are several disadvantages, especially ous condition.

The moonlight excursion of the Mechanics institute announced for last night was on account of the weather postpooed till this evening. The committee has rescinded the privilege each ticket-holder had of bringing more than one lady as the number who presented themselves last night was largely in excess of the number which the steamer Chicora is allowed to carry.

if there are many small children, and Sunday school excursions should be got up to suit the wants of the younger classes, who always look forward to their picnic as one of the events of the year. With these points in mind, the managers of West Presbyterian church decided upon holding their picnic this year at High park. When the regular G. W. R. suburban train left the Yonge street station yesterday it had only one coach, but at Tecumseh street station, near which the most of the West Presbytarian congregation live six coaches. if there are many small children, and Sunaway and the sun shone brightly. From the station to the park is about a mile's the station to the park is about a mile's journey, but this was soon traversed by the children, who were all in great glee. At the park the party broke up into several bodies. Some took to the swings, which are five in number and which were kept continually swaying the whole afternoon. Others engaged their time in walking along the banks of the Grenadier pond, which lies all along the base of the hill on which the park is situated. Along these banks the park is situated. Along these banks are numerous species of wild flower, the daisy and blue bell predominating. Boats are placed in the Grenadier pond for hire and all afteroon the temporary wharf could be seen crowded with people anxious to have a row on the placid water and to pluck the water lilies which were scattered in great

The emigration to America from Germany this year has decreased 10,000, as compared with the same period last year. The remaains of the late U. S. Minister Marsh will be interred in the Protestant cemetery at Rome.

RAILWAY NOTES.

The conductors on the Midland look quite well in their new uniforms. The receiver of the Jersey Central rail-road pronounces the New York Herald's statement regarding an alleged large deficit as grossly inaccurate.

Ald. Lauzen, ticket agent for the Q., M. & O. R. at Ottawa, has been dismissed without any reason being assigned, by the Pacific I. R. company. This is due, it is said, to political pressure. The executive committee of the trunk lines has decided that the gross rate upon cattle should be increased in August to sixty cents per hundred pounds on the basis of Chicago to New York.

DR. WILD'S OLD CHURCH furned Into a Theatre-Does the Prophe

Preach Vital Religion. For the second time within a year or two he singular spectacle is witnessed in Brooklyn of a church being turned into a theatre, and it is significant that in both instances the decay of the church was caused by a lack of genuine religion. Look at the fate of the Elm Place Congregational church. Its last pastor was the Rev. Dr. Wild, who devoted his chief attention to pleasing curiosity-seekers by preaching about the lost tribes of Israel, the pyramids of Egypt—everything, in fact, but the gospel. A fire everything, in fact, but the gospel. A fire which burned out the interior of the building, but left the walls standing in good condition, drove the congregation to humbler quarters, and it was unable to repair the edifice. Dr. Wild went to Toronto and the building in Elm place has become a theatre. Now the same thing is occurring in the case of the Lee avenue. Entire in the case of the Lee avenue Baptist church. Its last pastor, the Rev. J. Hyatt Smith, was for a while exceedingly popular as a man of wit and of great per magn tism. But he gradually drifted away from the essentials of christian truth and gave more and more of his attention to a very eccentric participation in politics. Finally, when his church had dwindled

From the Evangelical Chi We are rejoiced to learn that the appointment of the Rev. Canon Du Moulin, M. A., to the rectory of St. James' church, in this city, has been announced, and has been cordially endorsed by the representatives of the church. The appointment, we understand, will be quite popular with the members of the congregation. We congratulate all parties concerned at so happy a termination of a matter which at one time seemed to involve such serious consequences to the cathedral congregation.

Afraid of Canadian Competition.

From the Buffalo Telegran The Canadian government, thoroughly appreciating the situation, and unembarrassed by any such record as that which has damned American congresses, is quietly performing a work which seriously threatens not only Buffalo but every American city on the lakes. Of this work the improvement of the Welland canal is the beginning. If the Americans do nothing this will be sufficient for their purposethe diversion of a large part of the traffic of the great lakes to Canadian seaports. If this is met or the american seaports. this is met on the part of th States by improvements to terminal harbors and to the rivers between Lakes Huron and Erie, the Canadians threaten to shorten their route by a canal from Georgian Bay to their route by a canal from Georgian Bay to Lake Ontario. These projects indicate that the people this side of the line must be up and doing, unless they are prepared and willing to submit to enormous loss of trade. The facts must be looked squarely in the face. It will do no good to dodge their immediate consideration. The people of New York must improve the Eric canal and make it free.

BOSTON and RETURN

S23.

YARMOUTH, N.S. & RETURN

A Good Word for Moses Ontes.

We notice that a number of conservative papers have followed the lead of the Mail in making personal attacks upon a certain member of the Globe staff who rejoices under the non de plume of Mores Oates. In this we believe the Mail and our other contemporaries are decidedly and emphati-eally wrong, and are guilty of that which does not pertain to respectable journalism. As far as the Maif can go in attacking the pelicy of the Globe and of its political opponents as enunciated by that paper, we will follow and support it, but we draw the line at universifiable attacks upon arrivate inline at unjustifiable attacks upon private in-dividuals. J. Gordon Mowat is employed by the Globe printing company is true, but he is as much a gentleman as any employe of the Mail, is more over an honest and con-scientious reformer, and as such is entitled to his opinions.

Mr. Phipps' Articles.

Brother Phipps keeps on writing to The World, but we are sorry he uses too many swear words to be wholesome reading. We began to think lately that he was a pretty good sort of a fellow, but if he keeps on with his wicked swear words we will base to show the swear words we will have to show the swear words we will say to show the say of the same states of the swear words. Christy's Fine Satin Finish Hats, have to change our opinion on the matter

The Golden Rule. The Golden Kille.

I ask not for myself a right
Which I to others would deny;
With all mankind I'd share the light,
Nor would I rule by force of might,
But on the Golden Rule rely.

All men have their paternity
In common with their fellow-men;
Equality, fraternity,
Should rule the heart and guide the pen.

And when this hallowed rule prevail, Then tyrants, kings and crowns shall-fail, And man and woman equal born, Shall stand erect that ziorious morn, And recognize the right of each To liberty of thought and speech.

Going Abroad for Talent

The fact that the Biptists have a theolo gical hall and literary institute, where students are prepared for the ministry has excited the remark that it is strange the Jarvis street church should send to the United States for a pastor. Evidently the church does not believe in home manu-

Cures all diseases of the blood, liver an kidneys, female complaints, nervous and general debility, and builds up the entire system when broken down by disease.

—An exceedingly bad a tack of rheumatism efflicting Mr. J. Levett, 67 Market street, Lynn, Mass., was cured by St. Jacob's Oil. He had the disease in his right arm and shoulder, which became perfectly helpless after being affected a few hours. His pain was so great that he could not rest in comfort or attend to business with any degree of satisfaction. After enduring this sort of thing for some time, he purchased a bottle of the Great German Remedy and begae to apply it. He did not mince matters at all, but just used the Oil for all it was worth. After pursuing this made of treatment for three days the pain was banished and his father was in a per-fectly healthy condition. He has never since felt any rheumatic pain and trusts he never will.

CORPORATION NOTICE.

TENDERS FOR HIRE CF HORSES.

Tenders address d to the undersigned will be received at the office of the City Clerk up to noon on Monday, August 7711 next, for the line of about thirty horses by the day, for street watering and other purposes. Conditions and all information can be obtained at the office of the Coumissioner of Works and Health, City Hall.

All tenders must be accompanied by a cash deposit or a marked cheque, equal to 2½ per cent. of the amount of the contract. The lowest or any tender not necessarily accepted.

A New Treatment

FOR THE RAPID-AND PERMANENT

CURE OF

CATARRH

Which is not a patent medicine or advertising doctors' humbug, but an honest remedy, discovered by an English Physician of forty years standing, and which absolutely cures this hitherto incurable disease in from one to three treatments, no matter whether standing one year, or forty years.

To be had only of

A. H. DIXON & SON,

TORONTO, CANADA. 307 KING STREET WEST 0

WHAT IS CATARRH ?

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, texcemea, from retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back part of the mouth, causing ulceration of the throat; up the custachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

A great variety of symptoms are present in this affection, which are modified by the specific poison which gives rise to it, to wit:—tubercle, syphilis, mercury, suppressed function of the skin and toxcemea generally, but they consist chiefly of languor, lassitude, debiilly, mal-assimilation, derangement of secretions, great depression of the nervous system, with or without fever; aching; a bruised or beat feeling all over; shivering; confused feelings in the head; cerebral disturbance.

The want of proper respiratory function of the skin and the local pressure of the parasite give rise to coryza, tonsilitis, sneezing, a sense of fullness; stuffing of the passages, soreness in swallowing, irritative cough, tightness of chest, dry or moist rales, hemorrhages.

There may be a discharge quite heavy if the parasite causes great nervous irritation, which promotes secretion. It may be dry if the multiplication and duplication of the parasite is active. The increased pung an odor of ozona is never present until the spores or roots of the germ penetrate to the cartiages of the nose, then the parasitical formation makes rapid inroads into the healthy structure of the nose.

**Catarrh is usually met in three stages, First—A simple parasitical development of the internal lining membrane of the nose, with or without a discharge. Second—Where the roots or spores or sporules of the anceba have penetrated to the bone or cartilages-ozona. Third—Where the parasite has spread and propagated by millions in the nose, posterior nares, up the custachian tubes, down the fauces, vocal cords and bronchi, causing excessive parasitical electration and destruction of tissue, the parasite usurping the normal structure.

The mode of propagation is by contagion, or infection, or both—hence its prevalence in families, districts, etc. The parasite develops itself rapidly, so much so that millions are elaborated in a short space of time. The effect of this formation upon the nervous system is to impair vital force, produce, ger eral nervous firitation, a depreciation of the vasomotor elaborated in a short space of time. The effect of this formation upon the nervous system is to impair vital force, produce ger eral nervous irritation, a depreciation of the vasomotor nervos. Cold in itself cannot produce Catarrh, it simply produces an irritation, a field for the propagation of the parasite. A large percentage of our population are affected with Catarrh, and its effects are not only ulceration and destruction, with pungent fetid odor, loss of the nasal bone, culceration of fauces and throat, destruction of the larynx with loss of voice, a usurpation of the bronchial mucus membrane, a filling up of the air vesteles with the germ a usurpation of the bronchial mucus memorane, a numg up of interact vessels with the germ parasite, but bronchial or pulmonary consumption and death. The vegetable parasite is the simplest living form known that lives upon organs; structureless, consisting of semi-fluid material; large or small in size, these masses can move in any direction and propagate indefinitely; these parasites may breed, feed and propagate upon the structure themselves. They increase very simply by spores or roots, and so long as a pedicle or root remains they will germinate. No intelligent person doubts that Catarrh and Ozeena is a parasite, since it is endersed by the most eminent scientists in the world, such as Tyndall, Hawkley and Beale.

Many attempts have been made to discover a cure for this distressing disease, by the use of inhalants and other ingenious devices (old exploded theories which no intelligent physician prescribes at the present day), but none of these treatments can do a particle of good until the angular are either destroyed as ventured from the much tissue.

This we are either destroyed or removed from the minus tissue.

This we are enabled to do in from one to three applications where the bone is not affected, but where the bone is affected a second of third extra treatment may be required. We state, in all confidence, to the public that we believe ourselves able to cure every case of Catarrh that is presented to us, whether standing one year or forty years. This is proved by the success that has attended our treatment thus far.

We have certificates of cures, many of them in cases of very long standing, that had

baffled all the preparations of the day, as well as the medical profession; and we have neve yet failed to give every satisfaction in a single case. Every attention is given to patients, and we spare no trouble in cases of very long standing.

The remedy and apparatus, which is so simple that a child can readily understand it, is furnished to the patient, and the treatment can be applied without loss of time or interference.

with occupation.

To those who are suffering from deafness caused by catarrh, we would say that the above treatment has been successful in restoring the hearing in a great number of cases, where the patient was almost entirely deaf. where the patient was almost entirely deaf.

Our experience for the past eighteen years demonstrates beyond a doubt that the greater majority of cases, no matter whether standing for one year or forty years, are permanently cured by one treatment—cures effected over a year ago being cures still. A very small percentage of cases require a second treatment, and a third is not necessary in more than two cases out of a hundred.

The most offensive odour, hoarseness, loss of voice, headaches, languor, weak eyes, etc.,

The most offensive odour, hoarseness, loss of voice, headaches, languor, weak eyes, etc., caused by Catarrh, are removed by one treatment.

Sufferers are particularly requested not to confound our remedy with patent medicines, quack, or advertising doctors' nostrums—it is neither—but an honest cure for Catarrh, as thousands who have been cured can testify.

We have been offered heavy inducements by numerous patent medicine dealers to allow them to sell our remedy to Druggists throughout the United States and Canada, as there is, an extensive enquiry for it from all parts of the country. But after giving their propositions our serious consideration we have come to the conclusion that we cannot do this, there being so many different stages of Catarrh, the remedy must be prepared expressly for the patient after receiving a description of the case in order to effect a cure. Old and young male and female, all require different treatment, and were we to place our remedy in the hands of the druggists we would be forced to prepare it all alike, in which case it would fail continually in effecting a cure, and the consequences would be that our remedy (invaluable when properly prescribed) would soon be classed among the patent medicine humbers now on the market.

N.B.—As we wish to avoid the very appearance of quackery, we do not publish a long list of certificates of cures, such being the system employed by quacks and dealers in all hinds of nostrums, but prefer that the remedy shall stand upon its merits. At the same time hinds of nostrums, but prefer that the remedy shall stand upon Ps ments Q. At the same time we think that the public are entitled to references as to our reliability, and integrity before forwarding their money for the remedy, and we submit the following well known names of Toronto (Canada) business men:—Wm. Norris & Son, Wholesale Piano Dealers; E. H. Tallmadge & Co., Wholesale Druggists & Hunter & Co., Wholesale Picture Dealers; Taylo & Wilson, Cigar Manufacturers; Stuart W. Johnston, Retail Druggist. In writing to either of the above, a stamped directed envelope should be enclosed to

The following letters are samples of many received by us, and which go to show that,

TORONTO, Dec. 20, 1881. TORONTO, Dec. 27, 1881. Mr. A. H. Dixon: Mr. A. H. Dixon, No. 307 King St., West 2DEAR SIR,—As you asked me to write and report my condition after using your remedy for catarrh, I would say that I have had a very satisfactory experience with your treatment. As I informed you when I first called, mine was a very aggravated case of over ten year's duration, the discharge and odour being something frightful, so snuch so that I was obliged at times to isolate myself from society. I have placed my DEAR SIR, -I deem it my duty, in the interest of those who are suffering from catarrh, to state that I suffered from this dreadful disease in a very aggravated form for a period of fifteen years. I was under the treatment of (here comes the name of a prominent specialist and physician, which, for obvious reasons, is omitted) for a year, he having guaranteed me a cure, without deriving the slightest benefit. I have also tried other treatments with a similar result, and which had the effect of thoroughly disso that I was obliged at times to isolate myself from society. I have placed my self at different times under the treatment of five different eminent English physicians and specialists in the Old Country, and after a treatment of greater or less length couraging me. Finally, hearing that you had a cure for this disease, I called on you, and a cure for this disease, I called on you, and was treated by your method on the 7th of November. 1880, and in, ten days there after I was completely cured by one treatment, and I have had no return of the disease since that time, which is now over a year ago. Udging from the effects of your treatment the most of I am satisfied that they pronounced me incurable. I certainly never received a particle of benefit from any quarter until I tried your treatment, three weeks after commencing which, I was entirely rid of my catarrh, and an now a sound man. Your cure is a perfect boon treatment on myself, I am satisfied that yours is the only treatment for catarrh to sufferers from this chronic complaint and I do not think that you will ever mee a case that you cannot cure. I shall shortly call on you to make arrangements to send some of your remedy to a near friend in Scotland who is suffering similarly.

Yours very truly,

J. M. NICHOLSON. Winnipeg, Man, THOROLD, Nov. 1, 1881. A. H. Lixon, Esq., Varonto: SIR,-I have great pleasure in informing you that after one treatment of your catarriy, I am entirely recovered. I suffered from the disease for over three years, and during the last few months the catarrh was most aggravated. In fact, I scarcely had my handkerchief out of use for a moment. It is now six months since I was cured, and

there is no return of the complaint. I regard my recovery as a wonderful one. [Signed] FRANCIS BROWN,
Some time Superintendent of the Mail
building, Toronto,

which will effect a permanent cure.

I remain, yours truly,

WILSON McWHINNEY,

Waterford, Ont. TORONTO, April, 24, 1882. DEAR SIR.—We take pleasure in stating that our junior partner, who had for years been troubled with catarrh, was successfully cured by three treatments of yourfully cured by three treatments of yourremedy. The catarrh was much aggravated with continual dropping into the
throat, accompanied by loss of voice, hawking and spitting and blocking up of the
nostrils, all of which we are pleased to say
disappeared almost immediately after the
remedy, was applied. Your remedy is
certainly an invaluable one and we hope all who may be suffering from this disagreeable disease will vive it a trial as we are satisfied they will find it a complete success. Yours very truly.

WM. NORRIS & SON, OF Wholesale Pianos and Organs,
No. 8 Adelaide St., East.
