The Canadian Pacific On Trial.

It has been so repeatedly said by certain recreant journals here and politicians of unworthy purpose that the Americans could at a blow prostrate the Canadian Pacific Railway—not only could, but in loyalty to their own lines, in common justice to their own lines which are under the interstate town lines which are under the interstate own lines are under the interstate own lines which are the interstate own lines which are under the interstate own lines reasonably be expected to strike the blow—
this has so often been said without much dispute that people regard such a catastrophe as sooner or later inevitable. It has been liweit upon as a beautiful instance of American magnanimity that they have so far rerained from crushing the Canadian road which lies like a puff-ball at their very feet. The forbearance of the United States Government is all the more marked when we which lies like a puff-ball at their very feet.
The forbearance of the United States Government is all the more marked when we know that the American transcontinental limes have vigorously complained in high places that the Canadian Pacific has continuously been making more and more destructive encroachments upon their traffic, and should be prevented from carrying American freight between points that can be served, even if at higher rates, by American railroads. To all of which the Government has turned a deaf ear, and why? Because the American people are more essentially shippers than handlers, and the government for bearance is not forbearance at all, but forbearance is not forbearance at all, but forbearance is not forbearance at all, but forbearance in the habit of pleading dian advocates—are in the labit of pleading dian advocates—are in th

dian advocates—are in the habit of pleading that they, as private companies, should not be subjected to uneven competition with a road built by the Canadian Government. The Washington Post in an able editorial on the question of "Canadian Railway Competition" refers to this point. It says that the total amount granted by the Dominion to the C.P.R. was \$57,000,000, while the United States granted \$447,000,000 to the United States granted \$447,000, since that they are falling behind in the race by this, among other facts, that the C.P.R. receives \$30,000 from the British Government for mall carriage. But the total postal receipts are but \$456,591, whereas the Vanderbill system receives \$3,409,483, the Pennsylvania \$2,262,001, the Union Pacific \$443,688 and \$1,000,000 from the British Government for mall carriage. The Globe's recent editorial on the crops was really too lurid to be allowed to fade away thus. It held up to the mental eye a map of all the Provinces and bedaubed them in turn with the colors of woe, drouth and famine. The editor is inimitable. But unequalled portrayer of despair that he is, unequalled artist of ruin and decay, his hand trembled when he came to the Northwest.

Superior of Bloor-street west. The matter was sent on to the City Solicitor, owing to certain legal snags to be considered.

This expression, heard so frequently, is used only by those consumers, who at cigar stores, hotels and restaurants, simply say: "Give me a cigar." Those smokers who ask for an "El Padre," "Madre e Hijo," "La fora," "Cadena," "La Flora," "Cable" or "Mungo," and insist upon having the brand they ask for do not have occasion to use the expression: "It is difficult to obtain a good cigar."

It is policy for the consumer to insist upon canada Life Building having reliable brands.

There are some dealers who decry our brands, more especially the "La Cadena" and "La Flora" (the Cream of the Havana Crop), solely on account of their desire to push the sale of inferior goods and private brands that pay a larger profit. If the same attention is given to the purchase of cigars as to wearing apparel, the complaints that are frequently heard would soon cease to exist.

We Manufacture Only the Highest Grades of Cigars.

We are not cheap cigar manufacturers. We aim to give the best of quality consistent with prices charged and do not pretend to offer the public gold dollars for ninety cents.
