Unlit Electric Lights a Great Source of Danger in the West, ople in the vicinity of Strachan-avenue, than-avenue bridge and Stafford-street clain that for the last five nights that complain that for the last five nights that part of the city has been in complete darkness. Yesterday a World reporter called there and found that the electric lamps at the above mentioned quarters were unlit. Several motormen who were on the spot claimed that this part of the city is especially dangerous, owing to the great speed required in ascending the up-grade from the subway. They also stated that owing to the want of proper lighting they were unable to distinguish the passengers waiting at the crossings or any who might be crossing the street anywhere between Stafford-street and the subway.

## U. S. WON BY 4 WICKETS.

The 2 to 1 That Didn't Come Off—The 41
Made in Half an Hour.

The international cricket match is over and Canala retires defeated. With 41 runs to make to win and five wickets standing the United States representatives started what proved an easy task about 11.30 yesterday morning. Dixon replaced Patterson, who was clean bowled just on time Tuesday. The Philadelphia captain's motion with his bat just as he was going out that evening mystifled many. But he did not aver that the successful Toronto trundler threw the ball as stated. Instead, he was emphasizing a statement just made to his partner. Thomson took his place yesterday, and with Ralston, the not out, faced the bowling of Laing and Gillespie. Laing had one ball of an over left and Thompson hit is for three, Gillespie's first ball from the grand stand end met the same reception. The two stayed together until 37 of the 41 were reached and there was only one extra. Then Laing clean bowled Thomson in an over which had given two fours. Dixon came next and played Laing's last ball. Terry had tried two overs and Gillespie returned. He bowled four for Ralston to play. Then the Germantown lad litted a short pitch high and away to the eastern track for four and the game was over. just at mid-day, with four stumps still standing. The 41 were made as

with his Tuesday's score, Raiston had 28, The total score was: Canada 87 and il 323. United States 177 and 147 for 6 total 324.

W. F. Walker, Q.C., of Hamilton, acting on behalf of Henry Griffith of Quebec, issued a writ yesterday morning against William Griffith & Co., wholesale boot and shoe dealers of that city, for \$22,211.83. The Grasping Street Railway Company.

Editor World: The papers have showered so much abuse on the Street Railway Company that I should like to tell you of a little occurrence. Mr. W. B. Hamilton had kindly given us 50 tickets for transportation of our children to the Exhibition. Our matron went to ask the balance from the Street Railway Company. Mr. Grace not only gave the tickets with kindness, but said if we needed at any time to give the children an outing he would send us some more. I think this little incident shows they are not the grasping monopoly that some would wish to prove they are.

The Proof of the Pudding is in the Eating. Visitors passing through the Main Building, northeast corner, will observe the grand exhibit of gas stoves given by the Toronto Gas Stove and Supply Co., 203 Yonge-street. These stoves are well worth the attention of all persons using gas. The late improvements made in gas fires and cooking ranges is simply marvelous. They are guaranteed safe, economical and free from smeil and smoke. They can be seen in full operation both baking or boiling, thus showing the utility and simplicity of cooking by gas. These stoves are Canadian manufactured and are made at their factory, 203 Yonge-street, Toronto. These are troperly constructed gas stoves. The outlay in purchasing is nothing and the Saving considerable. The Proof of the Pudding is in the Eating.
