With a "Y and E" Automatic Reel

you simply press a lever with your little finger, instead of winding a crank like fury. The reel takes in every bit of slack, no matter how quickly your fish may turn. The result is

YOU LAND YOUR FISH

where, with an ordinary crank reel you'd never get him in the world! These are the only reels which give you a chance to play your fish—to get all the sport there is in it. No reels are more finely constructed. There's no "lost motion;" they will stand all sorts of "rough and ready" use.

It's "all off" with any other reel when a "Y and E" gets into the game.
