

## PLAGUE-STRIKEN PLYMOUTH!

DOES A SIMILAR DANGER THREATEN  
EVERYONE OF US?HOW PUBLIC ATTENTION IS DIRECTED TO  
PERSONAL PERILS.Rochester (N. Y.) Correspondence *Indiana-  
polis Sentinel*.

"Judge," said a young lawyer to a very successful senior, "tell me the secret of your uniform success at the bar."

"Ah, young man, that secret is a life study, but I will give it to you on condition that you pay all my bills during this session of court."

"Agreed, sir," said the junior.

"Evidence, indisputable evidence."

At the end of the month the judge reminded the young man of his promise.

"I recall no such promise."

"Ah, but you made it."

"Your evidence, please?"

And the judge, not having any witnesses, lost a case for once!

The man who can produce indisputable evidence wins in the law. I had an interview yesterday with the most successful of American advertisers, whose advertising is most successful because always backed by evidence.

"What styles of advertising do you use?" I asked H. H. Warner, Esq.

"Display, reading matter and paragraphs of testimonials."

"Have you many testimonials?"

In answer he showed me a large cabinet chock full. "We have enough to fill Boston, New York, Chicago, St. Louis and Philadelphia morning papers."

"Do you publish many of them?"

"Not a title. Wonderful as are those we do publish, we have thousands like them which we cannot use. 'Why not?' Let me tell you. 'Warner's safe cure' has probably been the most successful medicine for female disorders ever discovered. We have testimonials from ladies of the highest rank, but it would be indelicate to publish them. Likewise many statesmen, lawyers, clergymen, doctors of worldwide fame have been cured, but we can only refer to such persons in the most guarded terms, as we do in our reading articles."

"Are these reading articles successful?"

"When read they make such an impression that when the 'evil days' of ill health draw nigh they are remembered, and Warner's safe cure is used."

"No, sir, it is not necessary now, as at first, to do such constant and extensive advertising. A meritorious medicine sells itself after its merits are known. We present just evidence enough to disarm sceptics and to impress the merits of the remedies upon new consumers. We feel it to be our duty to do this. Hence, best to accomplish our mission of healing the sick, we have to use the reading-article style. People won't read plain testimonials."

"Yes, sir, thousands admit that had they not learned of Warner's safe cure through this clever style they would still be ailing and still impoverishing themselves in fees to unsuccessful 'practitioners.' It would do your soul good to read the letters of thanksgiving we get from mothers grateful for the perfect success which attends Warner's safe cure when used for children, and the surprised gratification with which men and women of older years and impaired vigour, testify to the youthful feelings restored to them by the same means."

"Are these good effects permanent?"

"Of all the cases of kidney, liver, urinary and female diseases we have cured, not two per cent. of them report a return of their disorders. Who else can show such a record?"

"What is the secret of Warner's safe cure permanently reaching so many serious disorders?"

"I will explain by an illustration. The little town of Plymouth, Pa., has been plague-stricken for several months because its water supply was carelessly poisoned. The kidneys and liver are the sources of physical well-being. If polluted by disease, all the blood becomes poisoned and every organ is affected and this great danger threatens every one who neglects to treat himself properly. I was nearly dead myself of extreme kidney disease, but what is now Warner's safe cure cured me, and I know it is the only remedy in the world that can cure such disorders, for I tried everything else in vain. Cured by it myself, I bought it and, from a sense of duty, presented it to the world. Only by restoring the kidneys and liver can disease leave the blood and the system."

A celebrated sanitarian physician once said to me: "The secret of the wonderful success of Warner's safe cure is that it is sovereign over all kidney, liver and urinary diseases, which primarily or secondarily make

up the majority of human ailments. Like all great discoveries it is remarkably simple."

The house of H. H. Warner & Co. stands deservedly high in Rochester, and it is certainly matter of congratulation that merit has been recognized all over the world, and that this success has been unqualifiedly deserved.

## BILIOUSNESS.

Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, irregular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregularity in its action or suspensions of its functions, the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bilious diarrhoea, a languid, weary feeling, and many other distressing symptoms. Biliousness may be properly termed an affection of the liver, and can be thoroughly cured by the grand regulator of the liver, and biliary organs, Burdock Blood Bitters. Act upon the stomach, bowels and liver, making healthy bile and pure blood, and open the culverts and sluiceways for the outlet of disease. Sold everywhere and guaranteed to cure.
