**MISCELLANEOUS.**

In 1552 books on geometry and astronomy were destroyed in England as savoring of magic.

The capital letter "Q" will be found but twice in the Old Testament and three times in the new.

Until very recent times marriage among the Turcomans of Central Asia consisted of capturing a bride by main force.

So vast are the ruins of Pompeii that they cannot be excavated, at the ordinary rate of progress, before the middle of the next century.

A substitute for indiarubber is reported from England. It is composed of ten parts paraffine, one part bitumen and two parts indiarubber

It has been estimated that under favorable conditions a heavy clap of thunder can be heard a distance of 27 miles. Lightning is visible five times as far.

The wholesome effect of retribution is being lost in the delay of the trial of the assassin Prendergast. Miscreants of his kind should not be allowed time to pose as heroes.—Cincinnati Times-Star.

Not content with spookery, telepathy and magazine publishing, the ingenious and versatile Mr. Stead, of London, has been trying on a cure of his own for drunkards, and the English papers intimates that it "works" so far very well.

Electric welding, when properly conducted, is bound to be a great thing; but some of this work has been done on the rails of certain street railways in Boston so imperfectly that the pounding of the cars forces the joints open.

Keep the blood pure by taking Hood's Sarsaparilla. If you decide to buy Hood's Sarsaparilla, do not be persuaded to take any other.

Excavations in Palestine go to show that the hot-air blast furnace which has been credited to be the invention of Nelson in 1828, was used 1400 years before Christ.

**BEYOND DISPUTE.**

There is no better, safer or more pleasant cough remedy made than Hagyard's Pectoral Balsam. It cures hoarseness, sore throat, coughs, colds, bronchitis, and all throat and lung troubles.

If a man should register all his opinions upon love, politics, religion, learning, etc., beginning from his youth, and so go on to old age, what a bundle of inconsistencies and contradictions would appear at last.—Swift.

**FOR SEVERE COLDS.**

GENTLEMEN,—I had a severe cold, for which I took Dr. Wood's Norway Pine Syrup. I find it an excellent remedy, giving prompt relief and pleasant to take.

J. PAYNTER, Huntsville, Ont.

An underground electric railway, projected in Brussels, is to have motors separate from the cars, as this plan is more convenient for repairing the electrical gear. The cars will be arranged with centre aisles, after the manner of American roads.

**Handsome Features.**

Sometimes unsightly blotches, pimples or sallow opaque skin, destroys the attractiveness of handsome features. In all such cases Scott's Emulsion will build up the system and impart freshness and beauty.

A capstan operated by electricity has been proposed as a substitute for the switching engine in railway yards, and is already in use on some lines. The ease with which a stout hook and rope can be shifted from one track to another by a man suggests one of the beauties of the device.

**DEAFNESS CURED.**

GENTLEMEN,—For a number of years I suffered from deafness, and last winter I could scarcely hear at all. I applied Hagyard's Yellow Oil and I can hear as well as any one now. MRS. TUTTLE COOK, Weymouth, N. S.

A balloon in which S. A. Andre, chief engineer of the Swedish Patent Office, had made an ascension at Stockholm last month, was caught in a storm and carried out over the Baltic Sea to Finland. It sailed across in twelve hours and landed on a deserted island, whence a passing fisherman rescued M. Andre.

**CATARRH IN THE HEAD.**

Is undoubtedly a disease of the blood, and as such only a reliable blood purifier can effect a perfect and permanent cure. Hood's Sarsaparilla is the best blood purifier, and it has cured many very severe cases of catarrh. Catarrh oftentimes leads to consumption. Take Hood's Sarsaparilla before it is too late.

Hood's Pills do not purge, pain or gripe, but act promptly, easily and efficiently. 25c.

Minard's Liniment cures Colds, etc.

**A Bright Lad,**

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—T. D. M., Norcatur, Kans.

**AYER'S Sarsaparilla**  
 Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.  
**Cures others, will cure you**

A prominent up-town manicure who has devoted many years to the study of the subject, states as the result of his observations that the finger nails of the human species, grow more rapidly in children than in adults, and that the growth is slowest with the aged.—New York Herald.

**FOR BOILS AND SKIN DISEASES.**

DEAR SIRS,—I have been using B.B.B. for boils and skin diseases, and I find it very good as a cure. As a dyspepsia cure I have also found it unequalled.

MRS. SARAH HAMILTON, Montreal, Que.

Exact justice is commonly more merciful in the long run than pity; for it tends to foster in men those stronger qualities which make them good citizens.—Lowell.

A new refracting telescope has just been constructed for Dr. Janssen, the eminent French astronomer at Meudon. The object glass for visual use has a diameter of 32.3 inches, and the one for photography, 24.8. Both have the same focal length, 669 inches. The lenses, made by the Henry Brothers, are mounted in a square tube; the mountings are made by Gautier.

**"BOYS WHO OUGHT NOT TO GO TO COLLEGE"**

Is the significant title of an article by President Stanley Hall, of Clark University, to appear in *The Youth's Companion*. It is one of a valuable series of articles by wise writers, on "Getting Ready for Life's Work."

It cannot be said that Prince Windisch-Graetz, Minister of the Emperor Francis Joseph, bears a name unknown in Europe. It is the name of the man who in 1848 retook Vienna with a cruelty which is still remembered in Austria. The present bearer of the name is a great land owner, and the representative of the Austrian aristocracy which is the most aristocratic in the world. He will certainly furnish the interesting spectacle of a man carrying out a policy which does not fall in with the ideas of a majority of mankind in the present day.—European edition of the Herald.

The brusque and fussy impulse of these days of false impression would rate down all as worthless because one is unworthy. As if there were no notes in sunbeams! Or comets among stars! Or cataracts in peaceful rivers! Because one remedy professes to do what it never was adapted to do, are all remedies worthless? Because one doctor lets his patient die, are all humbugs? It requires a fine eye and a finer brain to discriminate—to draw the differential line.

"They say" that Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription have cured thousands.

"They say" for a weak system there's nothing better than the "Discovery," and that the "Favorite Prescription" is the hope of debilitated, feeble women who need a restorative tonic and bracing nerve. And here's the proof—

Try one or both. If they don't help you, tell the World's Dispensary Medical Association, of Buffalo, N. Y., and you get your money back again.
