The Commercial certainly enjoys a very much larger circulation among the business community of the country between Lake Superior and the Pacific Coast, than any other paper in Canada, daily or weekly. By a thorough system of personal solicitation, carried out annually, this journal has been placed upon the desks of the great majority of business men in the vast district designated above, and including northwest Ontario, the provinces of Manitoba and British Columbia, and the territories of Assiniboia, Alberta and Saskatchewan. The Commercial also reaches the leading wholesale, commission, manufacturing and financial houses of Eastern Canada.

About 9 o'clock Tuesday evening Chisholm & McKenzie's general store and Dr. Carscallen's drug store at Morris were totally destroyed by fire. Cause unknown.

Jar. Penrose, of Winnipeg, has been appointed chief license inspector for the province. Formerly this office was combined with that of chief of the provincial police, and J. M. Clark filled both positions. He retains the latter.

A large number of representative business men were present, and there were many sincere expressions of regret for the removal of Mr. Housier from Winnipeg.

A large train from the east arrived at Winnipeg on Thursday. Besides the regular passengers over 200 English immigrants, who came on the steamer Vancouver to Halifax, were on board. There were 88 of these arrivals consigned to Manitoba points. The remainder of the party went through to the Territories and British Columbia.

Winnipeg dairymen have about perfected their organization, and the usual summer decline in the price of milk will likely be averted as a result. It is said about 60 dairymen will join the association. The names of parties who do not pay their milk bills will be given to all members of the association, so that the supply of such parties is likely to be cut off.

The friends of E. W. H. Van Allen, formerly of Winnipeg, will regret to learn that he is in very poor health. The Winnipeg Jobbers' Union has been discussing the question of the lack of cold storage here, and a committee was appointed to look into the matter, with the object of securing the erection of a cold storage warehouse. This is something which the city has long been in need of, and which is especially required at the present time, the soft weather this month having caused considerable loss to holders of frozen meats, fish, etc., there being no cold storage available.

A meeting of merchants and clerks was held in Winnipeg on Thursday evening, as a sort of demonstration in favor of early closing of stores. Committees were appointed to wait upon merchants in each line of trade, to get signatures to a petition in favor of closing at 6 o'clock in the evening, except on evenings preceding holidays. If the petitions are signed by the requisite number of dealers, the act of the Manitoba Legislature regarding the early closing of stores will be brought into effect.

The newly formed association of Winnipeg milk vendors have decided to fix the following as the prices for milk in the future:—"No dealer of the association shall sell milk for a smaller price than 6½¢ per quart (16 quarts for \$1) from the day of the date hereof until the first day of September next, nor for less price than 7 1/7¢ per quart (14 quarts for \$1) between the first days of the months of September and November next ensuing.
