First Aid to the Injured and Sick. By F. J. WARWICK, B.A., M.B. Cantab., Associate of King's College, London; Surgeon-Captain, Volunteer Medical Staff Corps, London Companies, etc.; and A. C. TUNSTALL, M.D., F.R.C.S. Ed., Surgeon-Captain Commanding the East London Volunteer Brigade Bearer Company; Surgeon to the French Hospital and to the Children's Home Hospital, etc. 16mo volume of 232 pages and nearly 200 illustrations. Philadelphia and London: W. B. Saunders & Co., 1901. Cloth, \$1.00 net. Toronto: J. A. Carveth & Co., Canadian Agents.

This volume of practical information is intended as an aid in rendering immediate temporary assistance to a person suffering from an accident or sudden illness until the arrival of a physician.

The authors, fully appreciating the urgency of the subject, have succeeded in producing an admirable work of practical emergency procedures, and they have couched it in such clear language that even those unfamiliar with the science may easily grasp the meaning intended.

It will be found a most useful book of ready aid, and of invaluable service, not alone to nurses, railway employees, etc., but also to the laity in general, as a book of indispensable first aids.

An American Text-Book of Pathology. Edited by LUDWIG HEKTOEN, M.D., Professor of Pathology, Rush Medical College, Chicago; and DAVID RIESMAN, M.D., Professor of Clinical Medicine, Philadelphia Polyclinic. Handsome imperial octavo of 1,245 pages, 443 illustrations, 66 of them in colors. Philadelphia and London: W. B. Saunders & Co., 1901. Cloth, \$7 50; sheep or half morocco, \$8.50 net. Toronto: J. A. Carveth & Co., Canadian Agents.

The importance of the part taken by the science of pathology in the recent wonderful advances in practical medicine is now generally recognized. It is universally conceded that he who would be a good diagnostician and therapist must understand disease—must know pathology. The present work is the most representative treatise on the subject that has appeared in English. It furnishes practitioners and students with a comprehensive text-book on the essential principles and facts in general pathology and pathologic anatomy, with especial emphasis on the relations of the latter to practical medicine. Each section is treated by a specialist who is thoroughly familiar with his particular subject, and can best frame the theories and conclusions in an authoritative form. The illustrations, which are nearly all original, and of which sixty-six are in colors, are unsurpassed in beauty by those in any similar work in the English language. In fact the pictorial feature of the work forms a complete atlas of pathologic anatomy and histo-
