

THE SEASON'S GREETINGS

To all our many Customers and Friends in the Trade we wish

A HAPPY AND PROSPEROUS NEW YEAR

THE BARBER & ELLIS COMPANY, Ltd.

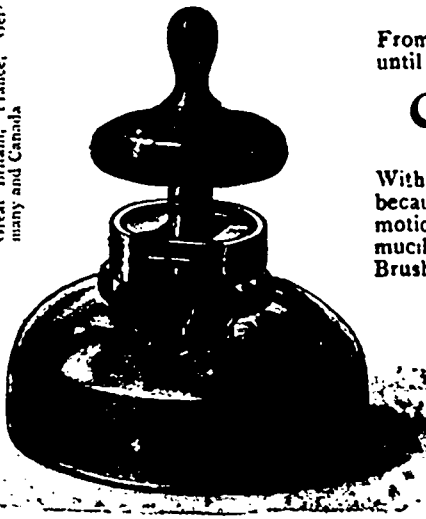

Manufacturing Stationers

43, 45, 47, 49 Bay Street

Toronto

Beats Everything as a Seller.

Patented in the United States, Great Britain, France, Germany and Canada

From the beginning of time business men have cried in vain for a practical Mucilage Bottle. Not until now, however, has the perfect one been produced. It is

Clarke's Automatic Brush Wiper Bottle

"THE ACME OF OFFICE CONVENIENCES."

With it there will be no more sticking of brushes to necks of bottles. No more smearing of paper because of too much mucilage. No more unsightly gummed-up bottles to disfigure desks. One motion, that of simply withdrawing the brush from the bottle, wipes the brush of all its surplus mucilage. The brush can be left standing in the bottle for weeks without fear of it sticking. Brushes last longer and always are in better condition than with the ordinary bottle.

A BOTTLE WHICH IS ALWAYS READY WHEN WANTED.

The New York World says: "It does its work simply and perfectly, and will prove a blessed boon to busy business men."

The bottle, in addition to being the best thing of the kind ever invented, also makes a HANDSOME ADDITION TO THE DESK, the metal parts being heavily nickled, the brushes neatly enameled, and the bottle of clear white glass.

Good margin for the trade. Order from your wholesale stationer.

CLARKE MANUFACTURING CO., GLENS FALLS, N. Y.

New York Office-61 Beekman St.

ROLL PAPER CUTTERS

Sizes from 4 to 60 inches wide.

E. B. EDDY'S are the simplest machines of their kind. They cannot get out of order, and to the retailer are steady economizers of paper. . . . Made to fasten to the counter, underneath if necessary, to save space.
