

NEWS AND NOTES.

Catarrah—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 200 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure; the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star.

Milk, either fresh or sour, butter-milk, skimmed milk, mixed with meal, or in any other form, is just the thing for fowls. It will be better to give waste milk to fowls than to pigs.

It seems to be pretty well understood that children must be sick at times, we would say to all anxious mothers that Nestle's Milk Food is an excellent preventative of cholera infantum, and all such complaints so common to children.

Our National Foods.

- BARAVENA MILK FOOD, DESICATED WHEAT, ROLLED OATS, PATENT BARLEY, PREPARED PEA FLOUR, PATENT GROATS, DESICATED BARLEY, DESICATED RYE, DESICATED CORN, WHOLE WHEAT MEAL, &c., &c.

There are no food preparations known to domestic economy that are so valuable in all particulars as "OUR NATIONAL FOODS." They are nutritious, easily digested, palatable, economical, and quickly prepared. They assist in building up a strong muscular development, as well as brain and nervous vitality. Persons of weak digestion or constipative habits derive the greatest benefit from their use; while the most active men find full satisfaction from a diet wholly or partly composed of these specially prepared cereals.
