NEW YORK, August 21.-The Herald's Vactoria, B.C., special says that Captain Algar, of the Allic Algar, just arrived here from Deep Bay, reports as follows : - On Jaly 30 we were boarded by Cutter Russ in Bebr ing sea, fifty miles from St. Paul. The lieutenant searched us, but, sithough we had skins aboard, found none. He told us that on July 29 he had seized the s hooner Path flader, of this port, put a prize crew aboard her and sent her to Sliks, taking out S00 skins. He also told us that he had seized the schooner Minnie, also of Victoria, Captain Jacobs, the owner, aboard, with S50 skins. He also put a crew aboard her and sent her to Sitka. He also told us that he had overhauled the schooners Ariel and Thereev, and althoug he found skins aboard them had let them go out of the sea without molestation. He did not give his reason for

this." Intense excitement prevails in this city. Both schooners are well known here and their catch is a very valuable one. The Algar had three hundred skins when boarded. It now appears that on the trip down Captain Aigar sighted first the Minnie and then the Pathfinder, each with one man as a prize crew aboard. Both signalled their intention of not going to Sitks at sil, but of coming on to Viotoria, so that within twenty-four hours we may expect to see them in the barber. The Blind See and Lame Walk.

ISHPEMINO, Mich., August 22.—Dr. B. D. Harrison and Dr. Wm. Richardson, leading physicians of Sault Ste. Marie, and Dr. J. L. Fryer, of the Kansas Oity Medical school, have been experimenting with the Brown-Sequard elixir. Pancrobilin was added to the elixir for the first time to render assimilation easier. Tests were made on Solomon Hay, aged 91, and Thomas Moffat, aged 76. The improvement in Moffatt's lameness was marked. He was stone blind, but, after a hypodermic injection, claimed he could distinguish light and darkness. Solomon was blind of one eye and nearly to in the other. He had walked with crutches with difficulby for years. Fifteen minutes after the in-jection of thirty drops of the elixir he wa'ked to the window without crutches and said he could see objects at some distance. Both men are now as well as immediately after the injec-

Gen. Batchellor, when action of the captain of the Rush in placing but one man aboard the selzed vessels, said "The Rush had only enough men to navigate her and could not afford to spare more than one man for each vessel, or he would pronably have done so. When the Black Diamond was seized," he

went on to may, "her capialn refused to allow his crow to be placed under parole to go to Sitka. It is likely that the captains of the two seized vessels-the Minnie and the Pathfinder-followed his example, so they broke no agreement.

he said, in conclusion, "and in the meantime will await the official report of these seizuros from the captain of the Rush." Acting Secretary Wharton, of the State

Department, also received his first intimation of seizures from a United Press reporter. He declined to express any opinion however. "It will be time enough for such an expres-sion," he said, "when the last seizures come

before the Department formally."

Awful Scene at a Fire.

TECUMSEH, Oat., August 21.-About 12.15 yesterday morning fire broke out in Rector Robinet's house, this village. Robinet was awakened by the smoke, and groping to the kitchen he opened the door. A sheet of smoke and flame blew into his face and drove him backward. He then went to the rescue of his family. By this time a crowd had gathered, and were horrlied to see Robinet open one of the windows in the second storey and throw his three children, one by one, out. Fortunately there were persons there to catch the children and they escaped in-

jury. Some of the crowd rushed into the building and dragged out Mrs. Robinet, who was unconscious. Mrs. Robinet's father in-law was latally hurt. The flames next seized upon a wine house and carriage shop adjoining. The cry went up that there was a keg of powder in the former. As soon as this was announced the wine house blew up, southering the bricks and debris in all directions. The people devoted their attention to saving other buildings. The property loss will be about \$8,000. Robinet says he does not know what started the fire and that he was orazy when he threw the little children from the
