are bringing 6c. per lb., and not many offering; for choice steers 7c. per lb. is being paid; cured and inspected hides are ruling at 6½ to 6¾c. for small lots of cows. The demand for green hides in cows, steers and calfskins is active. Stocks are light and prices firm. Green calfskins sell at 6 to 8c., and cured at 8 to 9c. per lb. In sheepskins there are very few old now offering; lambskins and pelts are coming in freely; prices are considered high, 55c being paid for lambskins, and 35c for pelts. Tallow continues dull and unchanged.

HAY AND STRAW.—The new crop of hay is coming forward plentifully, and selling at \$9 to 11 per ton. Old hay is getting scarce, best timothy selling at \$13 to 15 per ton; straw sells at \$7 to 8 according to quality.

LEATHER.—For the past week trade has been very good, the principal feature being a very

attempting to palm off on the public the products of other makers, and representing them to be ours, to the injury and reputation of our goods, we have issued the following:

**CAUTION TO THE TRADE**

Merchants are respectfully advised that hereafter all gloves of our manufacture will be STAMPED or bear a SILK WOVEN label as below

active demand for buff and splits. Upper leather is selling at an advance of 2c. per pound. The demand for heavy harness and heavy Spanish continues without any abatement. Slaughter sole leather is selling better, and higher prices are anticipated, but no change can as yet be recorded. Altogether, the trade is extremely good, and in excellent shape

LUMBER.—The trade in lumber is very quiet, and of a much restricted volume. Transactions are merely of a sorting nature, i. e., for the purpose of replacing any depletions of stock that may be made by sales for immediate wants. There is no purchasing ahead. Prices all over are unaltered, and likely to remain unchanged for some time.

METALS AND HARDWARE.—In nearly all descriptions of hardware, trade particularly quiet, no special movement in any line. Pig iron has exhibited some slight activity in consequence of an advance in Scotland, which is likely to be well maintained. Other metals are meantime without further feature than we noted last week. Window glass is a trifle lower.

OILS, PAINTS, &c.—Prices of leads are unchanged; linseed oil and turpentine continue very firm.
