

News of York County and All the Suburbs of Toronto

TELEPHONE RATES HIGH, 'TIS SAID

Earlscourt Residents May Take Matter to Dominion Railway Board.

FLAG PRESENTATION

Dr. Forbes Godfrey Gave Large Jack to British Imperial Association.

Thomas Malby, secretary of the clubhouse on Harvey avenue, Earlscourt, informed The World that the date for the dance which has been decided to be held on Feb. 13 at 8 p.m. Master of ceremonies, A. Harvey.

The Architectural Iron and Bronze Works, Limited, have recently laid off a large number of employees, and those retained in the firm have had to submit to a reduction in wages. Quite a number of these men live in the Earlscourt and Fairbank districts. Optimism is the feeling among the large majority of the residents of the district.

The Bell Telephone Company's rates in the county is a sore question with the people. The store keepers and residents who require the installation are loud in condemnation of the prices quoted by the company. Those who have had to submit to a reduction in wages are also loud in their protest. The Bell Telephone Company's rates in the county is a sore question with the people. The store keepers and residents who require the installation are loud in condemnation of the prices quoted by the company. Those who have had to submit to a reduction in wages are also loud in their protest.

The annual meeting of the members of the Deer Park Church was held last evening. A number of important matters relative to church affairs were going to be discussed. A meeting of the executive committee of the North Earlscourt and Fairbank Ratepayers' Association was held last evening at the residence of Chas. P. Lacey, at H. Hill, W. Badams, Thos. Malby, secretary, and others were present. A letter from Mr. Dinckel, re the club house, was read and discussed. This with other matters of importance, will be brought before the next general meeting of ratepayers to be held on Friday, Jan. 23, in the public school, Fairbank. Members are requested in large numbers.

A flag presented. Dr. Forbes Godfrey presented a large Union Jack to the British Imperial Association last evening at their annual social, which was held in Little's Hall, corner Ascot and Earlscourt avenues.

Yesterday's executive meeting of the Earlscourt District Voters' Association was postponed owing to the absence of President Holmes. The fixed date for the meetings of the North Earlscourt and Fairbank ratepayers are the third and fifth Fridays in each month and the place of meetings is the new Fairbank public school, Vaughan road.

The Toronto Electric Light Company informed the secretary of the North Earlscourt and Fairbank Ratepayers' Association that about a year ago they took up the question of the payment of electric light accounts of their district into the bank with several of the city banks, but were unable to make any suitable arrangement with them. This means that the people in this far removed section have to go to the Toronto Electric Light offices in the city to pay their bills, paying care and losing time in the bargain.

W. A. Clarke, clerk and assessment commissioner, York Township, sent the following letter to the secretary of the North Earlscourt and Fairbank District Ratepayers' Association, recently with reference to the payment of the taxes of the residents of the district into a bank in Earlscourt:

"I beg to state in reply to your letter asking if steps cannot be taken by the council of the Township of York to provide for the payment of township taxes and rates at some bank in the district of Earlscourt, that in the year 1907 provision was made by the council and it is incorporated in the lease that the township hold of the offices and council chamber in this building as part of the consideration that the bank be authorized by the council of the municipality, passed in pursuance of the statute in their behalf, to receive free of charge all township taxes and rates levied by the council during the term of the lease. The necessary bylaw was subsequently passed.

"The lease does not expire until Nov. 1917, with an option of renewal on the terms and conditions therein, for a further period of five years. There can therefore be no change in the present arrangement until after the expiration of the lease above mentioned, which I may add is considered a very favorable one for the township."

A meeting of the women of the Central Methodist Church, Ascot avenue, will be held this afternoon at 2 o'clock. It is expected the Rev. Archer Wallace will preside.

NEW TORONTO.

The installation of the street lighting system has been completed. A total of 1,500 lights were installed and a large number of private houses were connected.

THE REAL POINT IN ANNEXATION.

The World published three or four articles on this page dealing with the actual facts that confront the people in the suburbs in regard to annexation. We pointed out who Reeves Syme and his colleagues in the township council must do if they undertake to secure municipal improvements for the suburbs about the city: water, sewers, fire, police and health protection, schools, streets and pavements, not to mention a single fare street car service.

Following up these articles The World on Tuesday gave an interview with Mr. W. A. Clarke, the very experienced clerk of the Township of York, on this question. The Telegram, which is very much concerned with township affairs of late, did not copy the interview. We reprint it for the edification of The Telegram:

"There is only one ultimate destiny for the suburbs of Toronto, and that is annexation to the city," was the reply of W. A. Clarke, clerk of York Township, met The World yesterday when discussing the various problems now confronting the York Township Council.

Mr. Clarke went on further to explain that the township had not the power to give city conveniences except by a circuitous method. "We can and have laid sewers," he explained, "on the local improvement system. For the privilege of entering our sewage into the city system, we paid a yearly fee of two cents a linear foot fringe of township sewers. The city, however, are now asking the price of 20 cents, an exorbitant rate, and the question can only be settled by arbitration if our council has to carry out any further works of that character.

"We have no power either to establish sewage disposal plants or waterworks plants, and the council has not taken this phase of the question up," was Mr. Clarke's reply to the question to whether his municipality could not operate independent of the city.

"If the people of the settled portions of the township desire us to supply them with water, there is only one way in which it can be done. We will have to apply to the legislature to compel the city to supply the township with water, and for distribution to our ratepayers water mains will have to be laid and local improvements and charged against the various properties."

How can you make provision for fire protection in the suburbs? Mr. Clarke was asked. "As to that, the matter has never been considered. The statute by which the township is laid out fire districts and to make grants to fire brigades, but what is the use of this unless we can guarantee a water supply?" was Mr. Clarke's counter query.

"My 27 years' experience as township clerk has led me to believe that there is only one solution of the suburban difficulties, and that is annexation to the city. All you have to do to confirm this is to go over the history of the township and city during that period. However," Mr. Clarke concluded, "if the people want to stay in the township and still get city conveniences, the township will no doubt, do its best to get these for them."

We take it that it will cost the suburbs more to get these conveniences from the township than from the city. Parkdale, North Toronto, East Toronto, all know, because they tried it.

But in the meantime The World trusts that Reeve Syme will get his council together, fix a date for a conference with the city board of control as to water, sewerage, etc. and if a deal cannot be made, get experts at work on the job and see how the township will be able to give water and fire protection, sewerage and health protection, and streets, sidewalks, etc.

WEST TORONTO. A large meeting of the ratepayers of York township in an open session was held in the Baptist Church, St. John's Road, to discuss the possibility of obtaining a portion of the township, the section known as the "Cedarvale" in very clearly defined the meaning, and responsibility of the township, and also to discuss the possibility of a resolution being passed, to call a meeting of the future session on the subject of the water supply.

A very enjoyable time was spent last night by the members of Lodge Columbian, No. 338, S.O.E.B.E., at the second annual social and banquet which was held in Shea's Hall. Refreshments were served and prizes awarded to the winners.

CEADARVALE.

This lodge is increasing rapidly and it is their intention to form a juvenile lodge in the near future. There are about a hundred young men waiting to be initiated.

BRAMPTON.

The officers of Tonic Lodge, No. 229, F. and A. M., were installed last night by Worshipful Bro. Dr. J. G. Roberts, as follows: P.M., W. J. Lorne; M.W., G. W. McCullough; S.W., Chas. Allan; J.W., L. R. Hainway; S.D., R. W. Lowry; J.D., S. Wilson; S.S., W. Wilkinson; J.S., A. B. Ferguson; I.G., Jas. Bowdler; Tyler, Rodney Madden; secretary, W. H. McFadden; treasurer, W. W. Woods. The lodge has decided to keep the reception room open every afternoon and evening for the accommodation of the members or any visiting brothers.

ROBERT BARKER FAVORITE TODAY

His Election as Third Deputy Reeve is Practically Conceded.

GREAT INTEREST SHOWN

Mr. Barker is Only Candidate From the East End.

As usual with a by-election, the contest in York Township today for the position of third deputy reeve, was of great interest as if the whole council had to be chosen.

So far as the candidates are concerned it really does not matter very much who is returned. Robert Barker, however, will most likely be elected, as he is the only candidate from the east end of the township, and he has had many years of experience in municipal affairs. Mr. Barker has also arrived at a stage in his career when he is not likely to be hampered by any revolutionary policy which would be detrimental to the township as a whole.

Speaking to The World last night, Mr. Barker said that he would be glad to be elected, and that he would be glad to see Mr. Barker today, and it would be nothing short of foolishness for any resident in the eastern districts to vote for a candidate from the west when every member of the council at present resides west of Yonge street.
