FARMING AND LIVE STOCK EDITION

Crop News Mainly Favorable Wheat Market Weakens Again

Values at Chicago Depressed Fur her When Liquidation Invades the Market-Liverpool Cables Steady to Lower.

CHICAGO, April 3.-Wide spread rain and snow acted like magic to-day in sending down the price of Hay and Straw—

Timothy, No. 2, bush...... 6 76
Alfalfa, No. 1, bush...... 13 75
Alfalfa, No. 2, bush...... 12 25
Hay and Straw wheat. Crop prospects were believed

rally, but fresh selling on the part of several large speculators overturned the market worse than before. The market in the end showed only slight reaction from the bottom figures reached. The range for May extended from 84 3-8c to 84 1-2c to 85 1-2c, with

the close 3-4c to 84 1-2c to 85 1-2c, with the close 3-4c off at 84 5-8c.

In corn, the wheat slump offset the effect of wet weather, and light receipts. Trade was small with price changes irregular. May fluctuated between 46 1-2c and 47 1-8c to 47 1-4c, closing a shade down at 46 3-4c. Cash grain was firm on account of small offerings.

Oats were sustained by an idea that the corner in the cereal at Winnipeg had not been disrupted. High and low limits for May turned out to be 30 1-4c and 29 3-4c, with final sales 29 7-8c to 30c, a pet gain of a shade.

Receipts at Primary Centres.

Winnipeg Inspection.

Winnipeg receipts of wheat graded as follows: No. 1 northern, 37 cars; No. 2 northern, 121; No. 2 northern, 139; No. 4 northern, 13; No. 5 northern, 32; No. 6 northern, 19; rejected, 24; winter wheat, 4; oats to-day \$3. cars; balley, 7; flax, 4.

Chicago Gossip. Erickson Perkins &Co. had the fol-

Erickson Perkins &Co. had the following at the close:

Wheat-Market opened steady to a fraction easier and ruled weak during the early part of the session, with continued liquidation. Cove ing by local shorts caused a raily of ½c to ¾c from the low point, prices easing again after noon. The news from the southwest regarding the growing crop, was optinistic. We find no better inquiry locally for cash wheat. Our market will be closed tomorrow and there was undoubtedly considerable evening up of trades on that siderable evening up of trades on that account. The general conditions, underlying the whole wheat situation continue of a bearish nature, and with the contractions of the contraction of a bearish nature, and with the constantly improving reports regarding winter wheat and the absolute apathy in the cash market, it seems rather difficult to anticitate anything but lower prices.

Corp—The undertone of the market was firm most of the session, with temporary weakness early in sympathy with the weakness early in sympathy with the decline in wheat. To-day's receipts were light, owing to the storms of last week and the weather was still more or less broken, both of which facts undoubtedly contributed to the steadier tone. With clearing weather we look for larger receipts and, unless the cash demand improves liquidation will see that the process the cash demand improves liquidation will see that the process the cash demand improves liquidation will see that the process the cash demand improves liquidation will see that the process the cash demand improves liquidation will see that the cash demand improves liquidation will see that the cash demand improves proves, liquidation will carry prices low-

er.
Oats—There was free covering by shorts, which caused a rally of 1/2c from the low point and the tone of the market was firmer in sympathy with corn.

Sprinkling Montana Roads With Syrup A scheme for improving the roads of the State by sprinkling them with a syrup which is a refuse in the manufacture of granulated sugar from sugar beets will be submitted to the good roads convention and is being widely discussed in this section, writes the Billings (Mont.) correspondent of The

Los Angeles Times.

The idea of using refuse syrup pads grew out of an experiment made by one of the tennis c'ubs here. When he court was laid out the dust caused considerable annoyances, also the fect that with every rain the soil was picked up by the shoes of the tennis play-

ers.

In looking about for a cheap binder one member suggested refuse syrup. It answered the purpose admirably. When mixed with salt and poured over the ground to a depth of several inches the ground was rendered impervious to water and the dust was entirely e'iminated. It worked virtually as well without the sa't. It is believed that if the country

roads are properly graded, rolled and copiously sprinkled with this refuse syrup they could be kept in fair condition with two such treatments a year at a cost trifling when compared

Canadian Northern Gross Earnings. Week ending March 31, 1911, \$485,400; July 1 to date, \$10,942,900. Same period, 1910, \$326,990; July 1 to date, \$9,214,600. Increase, \$158,500; July 1 to date, \$1,728,300;

had never entered into consideration. It was the same at Albany a year ago. A lump had been taken off the Canadian tariff and there was nothing in return. If the Canadian ministers had had the information, he declared, they would never have made so stupid an

Martin Burrell said it would strike the country as extraordinary that the government refused to give statistical information on this question. He pointed out that seevn weeks had el-apsed since the fruit growers' delega-tion was in Ottawa. The proceedings had been ordered to be printed, and altho this would only take two three hours it had not been done. Hon. Charles Murphy said that opies were now in the distribution

Qualifications of Enumerators. W. J. Best saked if the government was aware that some of the men ap-pointed as census enumerators were out getting signatures in the county of Dufferin in favor of reciprocity.

Sir Wilfred Laurier replied that he did not think the enumerators had been appointed. In any case their duties did not begin until the first of June.

Col. Sam Hughes: "Perhaps they are only qualifying for the job."
Wm. Thorn (North Lanark) brought with Thorn (North Lanark) brought up the question of admission into Western Canada of negroes from the southern states. He stated that hundreds had already been admitted, and thousands would follow when they learned that they could secure free homesteads. He was of the opinion that these lands should be reserved for Canadians.

for Canadians.

Mr. Oliver said that his department was carrying into effect the law as t was framed by parliament. Under the existing laws negroes could not be prevented from coming into Canada, provided they were morally and phsyically fit and free from disease. The department, he said, had no choice but to continue to administer the cial).—To-night's meeting of the town council was singularly free from any

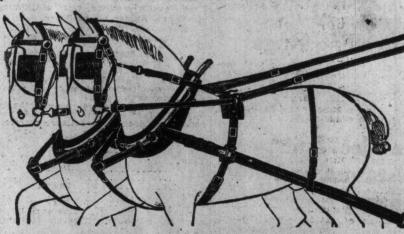

matter at a time. It was due to Canada that the United States should agree to authorize the bringing of new regulations into effect before Canada entered into any other arrangement with that country Brodeur's Explanation.

Hon. L. P. Brodeur pointed out that the delay was due altogether to the fact that the treaty making power in fact that the treaty making power in the United States was vested in the intermarriage of an hel ess of the Spenpresident and the senate.
