The Ideal in Home Life is to be Found in the Suburbs of a Great City Toronto is destined to be a great city-and has no greater pride to-day than that of her splendid homes-The most desirable of the new suburban home districts lie to the North, and an ideal location to-day for a home is to be found in BRIAR HILL PARK, a high-class property, situated on one of the highest elevations in the North Toronto district, richly endowed with natural beauties and right in the heart of the city's greatest and most permanent suburban expansion, and the most reasonably priced high-class and well restricted property on the market to-day. Lots Are Being Offered at \$15 a Foot and Upwards ROAD Transportation facilities completed and in contemplation will make BRIAR HILL PARK one of the most easy of access of any of the new homesite districts. Stop 19, Yonge Street (Metropolitan Line), is close to the property. It is expected that a ear line will be constructed on or near the continuation of the avenue which runs through the property. All city conveniences, such as gas, electric light, water, sewers, granolithic aidewalks and paved streets are available in the town, and the PARK is convenient to stores, churches, schools, colleges, bowling green and golf links, BRIAR HILL PARK is situated directly north of Upper Canada College, approximately a half mile north of the city limits, and about 4½ miles from King

Street. For homesite or investment purposes the PARK offers exceptional attractions. Make appointment by phone to be shown over the property, OR VISIT it to-day. The Trusts and Guarantee Company, Limited

harmless powder, to the food of the felines; the contents of the stomach became visible to the X-ray apparatus. By taking X-ray photographs in rapid succession, it became possible to secure a moving picture showing the exact motions the stomach goes thru when digesting a meal.

The old idea that the stomach is divided practically into two parts, one being used as a sort of reservoir and the proved by the pictures. The whole stomach works.

Soon after the food enters the stomach begins to churn and knead back and torth. This churning movement takes the form of regular waves, which succeed one
