AN INQUEST ORDERED.

The Sudden Death of an Old Weman a he Hospital to be Investi-

Coroner Johnson has issued a warrant for an inquest upon the body of Mrs. Cooper, an aged woman, who died in St. Michael's Hospital at 3,30 Saturday morning. The woman was brought to the Hospital Friday from 37 Duchess-street, occupied by Martin Broderick and his wife. Broderick said that ten days previously the woman had fallen from a step-ladder, while cleaning windows in York County, and she had been at his place without medical attendance since. Her shoulder was dislocated and she was very weak when she was admitted to the Hospital.

A special feature in connection with the engagement of "Fabio Romani" at the Totonto Opera House this week will be the first appearance here of the American dangeuse, Miss Grace Hunter, the inventor of the well-known stereopticon dance, of which The Washington Post recently said: "The stage is perfectly dark until, at a given signal, a ray of light shoots from the body of the house, disclosing Miss Hunter in a clinging dress, containing nearly 150 yards of cloth, at the very edge of the Mootlights. Then standing in the one spot her arms begin to move, and with them the draperies until the lady herself is hidden behind them. Then in an instant a the draperies until the lady herself is he den behind them. Then in an instant loathsome green snake appears on the mo lng draperies and, taking motion from the and there in the light. Bunches of flowers and there in the light. Bunches of flowers and heads of the Presidents, with even a waving flag, are shown, followed by a starry ky, on which the words "good night" are written. Miss Hunter had the lantern bildes made herself. She spent a year in perfecting the dance and even now. four strong bakers', \$5.75. ars after its debut, she is still working improvements. It is the hardest kind work and requires great strength and idurance in the arms and chest muscles."

The Spanish Government announces in a decree gazetted yesterday, that Spain will respect neutral flags covering the enemy's merchandise. She will, therefore, not search neutral steamships for American Oats—Choice heavy white quoted at 33½

property.

In view of the numerous enquiries addressed to us by intending passengers and patrons, we desire to state for your information that the steamships of the North German Lloyd, flying the German flag and belonging to the German Empire, are neutral vessels, and will therefore in no way be interfered with or detained by Spain during the present conflict between that country and the United States.

Our steamships will continue to run on all of their services between New York and Bremen, and New York and the Mediterranean as heretofore, according to schedule.

The continued ease in the money market despite the U.S. Government's war preparations and the street belief that the American squadron in the Pacific will gain a victory at the Philippine Islands led to a further strengthening of securities on Waltstreet to-day. Sugar led the way with an extreme gain of 3 points and closed 1% over Friday's final figures. American To-bacco advanced sharply and then relapsed to yesterday's close. New York Central, Manhattan, Baitimore & Ohio, St. Paui and other stocks improved fractionally.

For a Saturday a fair amount of trading was done on both Canadian Exchanges and the prices of securities varied without any concerted action, indicating that the market is partially at least relieved from the control of war influences. On the Toronto Board Bank of Montreal declined 2 points bid, C.P.R. %, General Electric preferred 2 and Toronto Rallway %, while Bank of Commerce stock rose 1 point bid, Montreal Gas 1½ and Commerce at Cable %. At Montreal real C.P.R. dropped 1 point bid and Cable, R. & O. and Montreal Rallway fractionally, Montreal Gas at the same time rising 1% points.

In trying to dispose of their holdings.

There was a large and attractive trade in corn and oats during the forepart of the week. Elevator people reported farmers as selling very sparingly. Foreign markets were exceedingly strong, and the export demand was excellent. The advance which followed, however, brought out considerable cash corn. Export demand fell off, the short interest became pretty eliminated and the market during the past two days has shown a much easier feeling.

two days has shown a much easier feeling.

Oats, on the other hand, had considerable advance yesterday, and to-day the light contract stocks and reported good foreign and domestic demand caused a scare among shorts, and created good buying for long account. It is also reported that the Government is buying all cash oats obtainable in St. Louis,

Provisions, have been active, with an increased speculative trade. Shipments of meats and lard have been liberal, which, however, has been somewhat offset by the large receipts of hogs, but the strength in grain has been an influential factor in hog products, causing good buying, especially on the weak spots. The report that foreign stocks of lard have been greatly reduced has caused a good speculative demand for lard.

Henry A. King & Co., 12 King-street east, received the following despatch today from New York:

The stock market showed a slight hesitation at the opening, but soon developed a strong tone and advanced all through the list. Sugar was the speculative leader, scoring a medium gain of 3 per cent. from last night, American Tobacco rose 1½ per cent., but afterwards it receded smartly. In the railroad list the strong features were Union Pacific pref. St. Paul, B.Q., Manitoba and New York Central. The stimulative features were the revival of confidence in monetary ease, and the prospect of naval victories for the Philippine-American fleet, There were some concessions in the last half hour, due to realizations by room traders. The market closed generally strong, Government bonds were firm.
