Ing the necessity of recognizing protection in Canada, Hon. Mr. Tarte on the floor of the House was delivering a characteristic speech in favor of protecting Canadian interests by the establishment of a protective airf and by improving our transportation facilities. Mr. Tarte's unfriendly criticism of The Globe shows that the difference to The Globe shows that the difference to The Globe as never originated any perior. For five months in the year The Globe has never originated any perior. For five months in the year of the C.P.R. Nothing Mr. Tarte ever said has more nearly hit the mark than this reference to The Globe has never originated any perior. For five months in the year of the Grand Black Chapter as a first as to what is coming in the present day had alternated the transportation of the counter referendum will be capable and corrupted legislation on trecognized by the constitution, however desirable, is unconstitution, however desirable, is unconstitution, however desirable, is unconstitutional, seems about as incontrovertible a proposition as can well be framed. Nor does that which is styled a referendum is not only constitutional, but final. It is a legislative act of the people as the supreme power, not afterwards reversible or alterable by any other: authority. But the result of the policy of the construction of the counter of the color of the constitution, however desirable, is unconstitutional, seems and Port Arthur is absolutely necessary, as well as the substitution of the distance of the decision of the floating transmit in a doorway from the claim of the close of the decision of the desirable in the result of the present day had abrogated the duties of the subject was one of utmost importance, and since politicisns of the present day had abrogated the duties of the present day

Editor Woeld: Canada has no nicked for the opposition find the first point of the opposition not excepted. Altho a French-Canadian by birth, he is a French-Canadian by birth, he is a fixed at times. The trouble believes in applying to this country, the same methods that have made the United States successful. If he had more influence in the cabinet, there is no doubt that we would see a great change in the fiscal policy of this country. The pertinent question is, whether he will much longer submit to be kept down by the free trade heavyweights that handleap his freed down. Hon. Mr. Tarte, no doubt, has often speculated on finding a means for carrying his views into effect. He often bottoms for carrying his views into effect. He often bottoms and why it will help you soften several down. Hon. Mr. Tarte, no doubt, has often speculated on finding a means for carrying his views into effect. He often bottoms and why it will help you soften speculated on finding a means for carrying his views into effect. He often bottoms and why it will help you soften speculated on finding a means for carrying his views into effect. He often bottoms and who was a state of sir. The Toronto World "The Woman Who Dared" deny her dealer the privilege of substituting some other Tea in place of her order for

Mr. Tarte had his way we believe that Canada would have a protective tariff just as effective for this country as is the Dingley tariff for the United States.

The Globe is the representative of the Cartwright idea, and, although that it has improvement is good to the Cartwright idea, and, although the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the representative of the Cartwright idea, and, although the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the representative of the Cartwright idea, and, although the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the reliable to the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the reliable to the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the reliable to the french River route to North Bay, his theory being that if the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the reliable to the french River route to North Bay, his theory being the officials who believe the annual output under \$5,000,000 must have a very large stock of credulity. The number of tons actually smelted and not have a protective tariff to the C.P.R. has a waterway from Port Arthur to North Bay it will be in a position to afford the reliable to the following the officials who believe the annual output under \$5,000,000 must have a very large stock of credulity. The number of tons actually smelted and output the officials who believe the annual output under \$5,000,000 must have a very large stock of credulity.

the change in the tariii. This we reversely additionally that the additional that it had some share in the improvement of business, and, industry. But two things are "assolutely certain, namely, that the higher tariff did not insure prosperity, and that the lower tariff is compatible with great prosperity, and that the lower tariff is compatible with great prosperity. This is really all that it is necessary to establish. Those who propose to increase taxation and to insure prosperity to the present system. It is not wise to make radical changes merely on the chance of improvement, especially when those changes are in the direction of increased taxation and restriction. Taxation and restriction. Taxation and restriction are not benefits, but, at best, necessary evils, which governments ought to strive to minimize."

While the editor of The Globe, speaking for Sir Wilfrid Laurier and Sir Richard Cartwright, was deploring the necessity of recognizing protection in Canada, Hon. Mr. Tarte on the floor of the House was delivering.

The chief arguments of the returns, and the wonder is that our officials are not in any sent whould have at North Bay. With three which where all would have at North Bay. With three wholl have at North Bay. With three wholl have at North Bay. With three wholl have at North Bay. With three industry between the gradient of the purposes of the monopolists, they the purposes of the nonopolists, they be used to the purpose of the purposes of the purpose of the purpose

policy to benefit this country, and Eastern Canada is entirely separated Mr. Tarte was almost literally true from the west, except by one set of when he said that The Globe had never rails passing thru hundreds of miles our newspapers, The Globe is the most boon to Canada if the season of naviticular, however, in which The Globe tice this was suggested in the debate

who had remained in South Africa since the early part of the war. Buker, Warren and others had disappeared from the scene. But Methuen, with his variegated career behind him, was still at the front, and was doing much to atone for the great blunders of which he was guilty before Lord Roberts appeared upon the scene. Now Methuen disappears, as a Boer prisoner, in a British disaster which, if not the greatest in numbers and effect, will probably prove the most exasperating of all in this tedious war. In some respects it is a pity. Lord Methuen comes of a family distinguished in many gene: ations for

DIFFERENCES IN THE CABINET.

One of the most interesting features in Federal politics at the present time the cabinet to the tariff question. Within the conserved which would make is the differences that exist in the cabinet on the tariff question. Within the cabinet there are two distinct parties, one led by Sir Wilfrid Laurier and Sir Richard Cartwright, and the impossible or improbable, and that such a combination is not impossible or improbable, and that improve the cash or the tartification of the tartificati

The Globe is the representative of the Cartwright idea, and, altho it has to admit occasionally that protection has done some good to Canada, it always makes such admissions in a grudging spirit. It proceeds on the theory that protection is a necessary evil, and has no inherent virtue in titself. Its latest whine over protection appeared only yesterday, in the following terms:

"It may be argued that the undoubted prosperity of the last five years has been due to other causes besides the change in the tarint. This we freely admit. We say the present of pusiness and industry. But itself, its latest when the proposed port that it had some share in the improvement of pusiness and industry. But its latest whine over protection and that it had some share in the improvement of pusiness and industry. But its latest within and that it had some share in the improvement of pusiness and industry. But its latest within the protection is a necessary extent of the grand Trunk from Midland to motive, and the returns published do not harmont the the first on the nath is quite apart from the the returns published do not harmont the returns published do not harmont the next this is quite apart from the the returns published do not harmont the returns published do not harmont the not any stream of conservation and the returns published do not harmont the next this is quite apart from the the returns published do not harmont the returns published do not harmont the returns published do not harmont to any great extent.
