

## CHAPMAN'S

Preliminary  
Millinery  
Opening....Spring,  
1899.

We respectfully invite you to our Preliminary Millinery Opening, on Wednesday, March 22, and following days, when we will show some of the latest novelties in French, English and American Millinery.

Preparations in this department for the opening have been going on for some time with an energy and ability that promises to surpass all our previous efforts, and the display of trimmed goods on our opening days will be the largest and most attractive we have ever shown.

In cloak room you may inspect some novelties in Jackets, Capes, Tailor-Made Suits and Silk Blouse Waists.

TRAGEDY  
AT A RACELady Dropped Dead in the Grand  
StandFrom Excitement by Seeing Her  
Horse Win.Wales Beaten at Football by Scotland  
and Ireland—Turf Events and  
General Sporting News

## TURF.

**THE POLICE RESTRAINED.**  
San Francisco, Cal., March 21.—An injunction has been obtained on behalf of the Pacific Coast Jockey Club, which conducts the Ingleside race track. The injunction restrained Chief of Police Lees and the department from interfering with the business of the club at Ingleside, and also enjoined the police officials from entering the grounds without paying admission.

**DIED ON THE GRAND STAND.**  
Excitement caused by seeing her horse pass under the wire first caused a woman's sudden death in the grand stand during Friday afternoon at New Orleans. She was Mrs. Phillips, the wife of Alphonso Phillips, a well-known lawyer of that city. Mrs. Phillips was a constant visitor to the track, and was looked upon as being one of the heaviest bettors of the female contingent.

**AT OAKLAND.**  
San Francisco, March 21.—Results at Oakland Monday:  
First race, 7-16 mile, selling—Sweet

**Winter Fruits**  
are scarce. Fruit is not only delicious to the taste but necessary to the health. The salt extracted from the juices of pure fruits is the basis of

**Abbey's Effervescent Salt.**  
Its use promotes health. 60 cents a large bottle. Trial size 25 cents. Of all druggists.

**Treatment for Weak Men.**  
TRIAL WITHOUT EXPENSE.

THE famous Appliance and Remedies of the ERIE MEDICAL COMPANY now for the first time offered on trial without expense to any honest man. NOT A DOLLAR TO BE PAID IN ADVANCE. Cure Effects of Errors or Excesses in old or young. Manhood Fully Restored. How to Enlarge and Strengthen Weak, Undeveloped Portions of Body. Absolutely unfailing Home Treatments. No C. O. D. or other scheme. A plain offer by a firm of high standing.

New medical book with full account sent under plain letter seal. No charge.

ERIE MEDICAL CO., 64 Niagara St., Buffalo, N. Y.

eight-club National League and an American Association of the same size, the two to co-operate.

The curling season, as far as Detroit is concerned, ended Saturday night, Detroit and Windsor playing a tie for the first time in five years. This gives Windsor the championship and the Detroit curlers will have to pay for the supper.

**THE PROVINCE'S MINERAL OUTPUT**  
Yield for 1898 Represented a Million and a Half—Nickel the Leading Metal.

Toronto, March 21.—Mr. Archibald Blue, of the Bureau of Mines, has practically completed his table of returns in connection with Ontario's mineral production for 1898. Nickel is still her most extensively developed industry.

The copper and nickel mines of the Sudbury country gave employment to an average of 610 men during 1898, and the wages paid to them amounted to \$315,500, as against \$253,256 in 1897, and \$240,151 in 1896. All the ore produced was reduced to matte, and then exported to the United States to be refined. Eight million three hundred and seventy-three thousand five hundred and sixty pounds of refined copper were produced, valued at \$268,080, and the product of fine nickel was 5,567,690 pounds, valued at \$314,220. These valuations are based on the selling price of the matte, which is figured to be one-third of the market price of the refined metal. The total value of both metals produced in 1898 was \$782,300, and in 1897 was but \$559,710. In 1896 it stood at \$247,151.

The gold bullion produced in 1898 was 16,075 ounces, valued at \$271,906, but this does not include the product of the mine on the Seine River. In 1897 the gold product was 11,412 ounces; in 1896, 11,544 ounces; and in 1895 it was but 3,038 ounces. It is expected that the present year will show a much heavier increase, both relatively and positively, than the past four years.

The iron product during 1898 was as follows: Pig iron, 43,253 short tons, valued by the selling price at \$530,789. The industry employed 130 men and the total wages paid was \$61,476. During the present year the product will be increased by the recent establishment of the Deseronto smelter, and from which are included in the above figures.

**THE MONEY WENT**  
Executors of Estates Should Not Fail to Examine Securities.

Toronto, March 21.—Because they neglected to properly examine the securities of the late Crown Attorney Badgerow, who held the money in trust for their client, Charles Bellamy and Robert Risenborough, were ordered by Mr. Justice Street to pay \$5,000 to Mrs. Nancy Clark, of Perth.

At Clark's husband had invested \$5,000 for his wife in the hands of the late Mr. Badgerow, and she had received the interest regularly during her husband's lifetime. When he died the two gentlemen mentioned were appointed executors of the estate. It was found out later that the money had been swallowed up somehow or other in the Badgerow estate, and the widow, blaming the executors, sued them, with the result recorded.

**PULP MILLS**  
Nova Scotia Crown Lands Leased to American Capitalists for This Purpose.

Halifax, March 21.—Attorney-General Longley has laid before the Nova Scotia legislature an agreement by which the Queen grants leases for 50 years of two immense tracts of crown lands in Victoria and Inverness counties, Cape Breton, comprising nearly 1,000 square miles, to three American capitalists—Edward L. Sanborn and Robert H. Blodgett, of Boston, and Daniel F. Emery, jun., of Portland, Me. The lands are leased for the purpose of converting the timber there into pulp and paper, and the lessees must have two such mills in operation within two years, and have expended at least \$10,000 in the operation of the business for every acre of land leased.

The lessees agree to pay the government of Nova Scotia \$3,000 per year and to do all their manufacturing within the Province of Nova Scotia.

One provision of the agreement prohibits the transfer of the lease to any person or corporation except the North American Paper and Pulp Company, Limited, without the consent of the attorney-general of Nova Scotia. The government reserves the customary mining rights over property granted, but agrees to sell the land, or any portion thereof, to the lessees for the purpose set forth, at 40 cents per acre, the prevailing price of crown lands in Nova Scotia.

If the terms of the agreement are fulfilled as regards the erection of pulp or paper mills and the same are operated through the stipulated period, the lessees may obtain a renewal of the grant for a further term of 30 years at \$6,000 per year.

**FOR SIXTY DOLLARS**  
A Man and His Four Children Were Hacked to Death.

Winnipeg, March 21.—The crime of which the Galician Guscak was found guilty was one of the most cold-blooded on record. Another Galician named Bojczko had \$60 in his pocket, and in his person which Guscak got to know of, and wished to secure. He and another man named Czuby went to Bojczko's hut one night armed with a revolver and an axe. They shot Bojczko, mutilated his body with the axe, then killed four children belonging to Bojczko, who were sleeping in the room. The children were killed with blows from the axe alone.

Their bodies were found a few days after, and an investigation commenced, with the aid of native interpreters and detectives. Suspicion fastened strongly on Czuby and Guscak, who were arrested. They then confessed, each seeking to implicate the other in the worst possible way. The punishment they would receive. They also implicated a third man, Pistenczak, against whom, however, the evidence was very slight. Guscak, while on his trial, attempted to repudiate his confession, but such a strong chain of evidence had been furnished by the remarks he had already made, many of which were otherwise verified, that his denial was useless. His accomplice will be placed on trial this week.

THE WEAK,  
THE DISEASED  
MADE STRONG AND HEALTHY  
THROUGH  
DR. RADWAY'S  
Sarsaparillian Resolvent.

Every drop of the Sarsaparillian Resolvent communicates through the blood, sweat, urine and other fluids and juices of the system the vigor of life; for it repairs the wastes of the body with new and sound material. Scrofula, consumption, syphilis, unclean or badly treated venereal, in its many forms (and see the illustrated book, "Radway on Venereal"), glandular diseases, ulcers in the throat, mouth, tumors, nodes in the glands and other parts of the system, sore eyes, strumous discharges from the ears, and the worst forms of skin diseases, eruptions, fever, sores, scald head, ring worm, salt rheum, erysipelas, acne, black spots in the flesh, tumors, cancerous growths, female complaints, and all weakening and painful discharges, night sweats, nocturnal losses and all wastes of the life principle are within the curative range of this Wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its capacity to cure them. If the patient, daily becoming reduced by wastes and decompositions that are continually progressing, succeeds in arresting these wastes, and repairs the same with the material made from healthy blood, and this Sarsaparillian will and does secure, a cure is certain for when once this remedy commences its work of purification and succeeds in diminishing the loss of wastes its repairs will be rapid, and every day the patient can feel himself growing better and stronger, the food digesting better, appetite improving and flesh and weight increasing.

**Scrofula From Birth.**  
Dr. Radway.—Dear Sir: It is with pleasure I take my pen in hand to inform you of the great cure effected by your medicine called Sarsaparillian Resolvent. I have a girl three years old last September who has suffered with scrofula ever since she was two years old. It fact, the doctor told us she was born with it. We had our best local doctors with her, and it seemed like a hope was gone, for they told us that our little girl could not live very long, our physician's medicine doing us good. In the meantime I received a copy of your medical publication, called "False and True," which you sent me. After seeing the accounts of so many cures effected by your treatments, I at once resorted to them, and by the time she had used one bottle she was most well. The ulcers that were making their appearance on her body are entirely gone, her lungs almost healed, or at least she has quit coughing. She has begun to eat, and I believe by the time she uses all of it she will be well. She had a very bad cough. I am yours with respect, S. M. BARKER, Flat Top, Mercer County, W. Va.

**"LIFE A BURDEN"**  
Dr. Radway.—Dear Sir: For a long time past I have been suffering in the most distressing manner from a long train of symptoms which have baffled the skill of all the medical men down here, and which I feared, if not arrested in their progress, would terminate in the total prostration of my strength. Loss of appetite and desire of stimulating and artificial means of sustenance at irregular times, want of sleep and consequent depression on arising in the morning rendered life quite a burden to me, until a friend induced me to try your medicine. So I got a bottle of Radway's Sarsaparillian and a box of Radway's Pills and took them according to directions. I soon found relief. I got three boxes and three bottles more, and I am in better health than ever before. I am a humble servant, ARTHUR D. WRIGHT, Unionville, Mich.

**HIGHEST ECONOMICAL THE BEST!**  
One bottle contains more of the active principle of medicine than any other preparation taken in teaspoonful doses, while others require five or six times as much. Sold by druggists. Price 35c.  
Send to DR. RADWAY & CO., 7 St. Helen street, Montreal, for Book of Advice.
