Toronto Sugar Market.

Chicago Gossip.

Marshall, Spader & Co, wired to J. G.
Beaty at the close.

The wheat market has displayed a much better tone; imbibing considerable of it from the strength in coarse grains. News has been of both sorts. There is no demand to speak of here, and Argentine shipments were estimated at 6.0000 bush by the company were settimated. \$20 00 to \$21 00 mand to speak of here, and Argentine shipments were estimated at 6,800,000 bush. Crop news on the other hand was rather less reassuring, the evidence of green bugs becoming more general. The market has been small speculatively, excepting at certain prices, when the interchange of business is on a large scale. We can simply repeat what we have said for some time, that we favor a scalping viewpoint. Fluctuations are wide enough, and the news mixed enough to permit of profitable trading on either side when extremes are accepted on which to base operations. Ennis & Stoppani wired to J. L. Mitchell at the close:

Wheat—Firmer cables and reports of the presence of the grain aphis over a larger extent of territory exerted a stimulating influence this morning, which continued thruout most of the session, and altho the price range was rather narrow the market held fairly well. We believe that wheat should be bought on all small recessions.

Corn and oats were strong, and corn Eggs, strictly new-laid, per dozen ... 0 25 0 30

Dressed hogs, cwt... 6 75 7 25

recessions.

Corn and oats were strong, and corn closed nearly 1½c over the opening figures. We doubt if very much of the short corn could be covered without advancing prices sharply.

Provisions were rather unsettled, the whole list being slightly lower early, due to selling by local traders. On the decline there was support from packers, which resulted in more than a full recovery. The list looks higher.

J. R. Heintz & Co. wired R. B. Holden: The milling demand continues first-class. The traders had better think twice before shorting the wheat market, as we are getting very near the crop scare period. We believe the market will work still higher. Purchases should be made on breaks. The short interest is large, and it's only a questien of time when they will be forced to cover.

WANTED. THE F. E. KARN CO., LIMITED

The fence that restrains the Wild Buffalo at Blk Island (Government) Park, near Ft. Saskatchewan, Alberta, is Lamb Fence. Twenty miles of Lamb Fence around this park, which contains over Four Hundred Wild Buffaloes, the only large herd of Buffaloes in the world.

If Lamb Fence will hold a Wild Buffalo, it surely will hold the most vicious domestic animal. Lamb Fence is a fence that will go over any hill or through any valley—a fence with a straight, hard steel upright and a knot that never slips—a fence with wires of even length—a fence made of high-grade steel wire—a fence that will continue to be its owner's pride.

OUR AGENTS ARE PROSPEROUS They have a line of fence that sells readily and gives entire satisfaction. They have a firm behind them that treats them right in every way.

WAVE THE

RED BANDANNA berfectly safe.

Every wire in the "Monarch" Stiff Stay Fence, whether lateral, stay or look, is of No. 9 High-Grade Hard Steel Wire. The "Monarch" lock is the same as one of the most popular locks in the U. S.—one that has been used for years and proven the most perfect yet devised for a stiff-stay fence. Each end hooks over the strand wire and prevents it from being spread or loosened.

Our booklet gives complete information about the superior "Monarch" lock. Write for it. And we have A WINNING AGENCY PROPOSITION to make you, if you have some time to spare.
