No Heat Except Where Needed Dishes hot—food well cooked—kitchen cool. No underdone food—no overheated kitchen in summer. Everything hot when wanted. Heat under perfect control and concentrated. The blue flame is all heat—no smoke—no odor—no dirt. These are some of the advantages in using the New Perfection Oil Cook-stove

The Queen City Oil Company, Limited, Toronto. It has a Cabinet Top with shelf for keeping plates and food hot. Drop shelves for the coffee pot or saucepans, and nicked towel racks. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness.

ONTARIO MEDICAL COUNCIL Lot of Business Transacted—Enquiry Concerning Three Doctors. A committee of the Medical Faculty of the University of Toronto waited on the Ontario Medical Council yesterday to urge that the annual examinations should in future begin a month later than at present, as students can not properly complete their eight months' term before the beginning of the exams.

returning officer for district No. 8. Dr. Hart moved that the number of members be reduced to 24, viz., three territorial, three college and two homeopathic members. Dr. Vardon said it looked like an "election dodge." It will be discussed to-day. The next annual meeting will open July 25, 1911, at 2 p.m.; supplementary examinations will begin in Toronto September 6 next; the annual exam. to begin in Toronto, Kingston and London June 6, 1911—thus partially according to the request of the university.

IF YOU WANT HEALTH AND STRENGTH TRY NATURE'S REMEDY Don't Suffer Pains and Weakness While You Wait for the "Sure Cure" to Come Along. YOU CAN TRY MY BELT AND PAY IF IT CURES YOU.

Dr. McLaughlin's Electric Belt restores the vital powers to men and women. It makes strong, healthy men and women out of mental and physical wrecks. It is a positive and lasting cure for indigestion (Dyspepsia), Constipation, Headache, Drowsiness, Rheumatism, Neuralgia, Lumbago, Sciatica, Weakness of the Back, Weakness of the Nervous System, Sleeplessness (Insomnia). It overcomes the terrible results of early indiscretions. It restores the vitality that is lost. It corrects every sign of mental impairment and physical breakdown. Here I give you a few samples of the kind of letters I receive every day by the score from people who have found Health, Strength and Happiness through the use of my Belt.

PAY WHEN CURED Dr. M. O. McLaughlin 112 Yonge St., Toronto, Can. Name send me your Book, free 5-10-10 Please send me your Book, free 5-10-10

SECOND FOR KOLAPORE CUP Canadian Team Beaten by Britain by Only Two Points.

(Canadian Associated Press Cable.) BIRLEY CAMP, July 8.—The Mother Country won the Kolapore Cup to-day; Canada was second, after leading at the end of the second stage. The colonial prize of £80 goes to the Canadian team. The Canadians were leading when Mitchell for his last shot got an outer. Then Gray, with a bull, and Runciman, with an inner, secured the victory for the Mother Country by two points. The standings: 300 500 600 T.I. Canada 267 273 258 798 Australia 283 287 287 857 Mother Country 284 270 264 788 Guernsey 258 285 282 725 India 249 280 238 745 Malay 254 284 248 786 Singapore 248 294 235 742 South Africa 262 268 239 766 The scores made by the Canadians are as follows: 300 500 600 T.I. Crowe 84 35 31 100 Freeborne 35 34 33 102 Mohalg 34 35 33 102 Morris 34 34 33 101 Mitchell 35 35 33 105 Russell 35 35 33 105 Stock 33 34 33 105

DISMISSAL WAS PROPER Militiamen Falls in His Charge Against Postmaster Rogers.

Postmaster Rogers was yesterday acquitted by Magistrate Kingsford of a charge brought by Mcintosh, a discharged employe of the postoffice, of having dismissed him on an act detrimental to him and in violation of the Militia Act. Mcintosh, temporary employe during the summer season, and paid by the day, had enlisted as a sergeant in the York Rangers on May 20, to go to Niagara-Camp, had been refused permission to absent himself, and had gone anyway. The postmaster said the dismissal was for insubordination. "Section 10 of the Militia Act," says Magistrate Kingsford, "specifies the exemptions from service in the militia. In this case there was a voluntary enlistment. While it is unquestionably in the interest of the public policy to encourage volunteering in the militia, it is not in the public interest that other parts of the government service should be hampered by unnecessary volunteering. The plaintiff in this case volunteered without permission, and in spite of the fact that he had been engaged to fill a gap caused by the absence of a recruit. If he had been summoned for not doing his duty under Section 10 of the Militia Act, he would be liable to a lawful excuse. On the whole, apart from any question as to the personal liability of the defendant for carrying out the duties of the postoffice, as proved by the correspondence filed, I am of the opinion that the complaint is ill-founded and that the defendant is entitled to his costs. He acted with full knowledge of the consequences, and made his choice."

LARGELY INCREASED TRAFFIC SAULT STE. MARIE, Ont., July 8.—The June report of lake commerce thru the canal is the most encouraging since the opening of the locks. The total tonnage of 4,408,728 passed thru the American canal, and 1,020 vessels, with a registered net tonnage of 1,530,758, passed thru the Canadian locks. The total tonnage carried thru both canals was 9,838,872 net tons, an increase over June of last year of 2,807,447 net tons.

FINES FOR NEXT OFFENDERS Squire Cohen, in afternoon police court yesterday, was fined \$22 for conviction of breach of the use of water by law. This week he has let offenders go with a warning. G. S. McConkey, 201, was fined \$22 on charge of breach of the smoke bylaw. E. R. Powell was fined \$5 for autoing on the wrong side of the street, because he was driving a Keeler-styled car, which was not a motor car.

ROYAL MUSKOKA HOTEL, July 8.—The final day's session of the Canadian Electric Society was held this morning. The attendance of delegates has now reached almost 200 and a large number are arranging to spend the week-end here. The new officers were installed. The new president is H. S. Coate, now manager of the Chatham Gas Company, with which he has been identified since 1884. T. S. Young, Toronto, was re-elected secretary-treasurer.

SENT FOR TRIAL Dr. B. E. Hawke, charged with procuring an abortion upon a young girl, was committed for trial yesterday. The evidence of Dr. Bray, who sent the girl to the General Hospital, and of Staff Inspector Kennedy of the moral department, was heard, and after an argument in which H. H. Dewar, K.C., for the defence, urged an immediate trial in police court, the case was sent on at the request of Acting Crown Attorney Armour, who urged the absence of Dr. Arthur Jukes Johnson as a reason for sending the case to the sessions. Bail was renewed at \$200.

Weyler Methods in Nicaragua WASHINGTON, July 8.—A repetition of the Weyler reconcentration system in Cuba that caused widespread criticism just before the opening of the war with Spain, has been inaugurated in Nicaragua by the government authorities, according to advices to the state department. Probably 5000 people in the vicinity of the City of Granada are ordered to concentrate at Granada.

Ran Into Track Slide. KEEWATIN, July 8.—About 4:30 this morning a westbound freight ran into a track slide at War Eagle, five miles west of here. The engineer and fireman jumped. No one was injured.

COBALT—No Outstanding Feature on Local Mining Markets

Cobalt Issues Hold Their Own In Face of Flat Speculation

Absorptive Power of Market Sufficient to Take Care of All Offerings—Only Fractional Changes Registered. World Once, Friday Evening, July 8. Speculation on the local mining exchanges dealing in Cobalt securities to-day was of a generally inactive character. Trading throughout the session was anything but lively, and with the exception of one or two special instances where fractional gains were made, there was no alteration in price values. What activity there was occurred in such issues as Beaver, Rochester and some of the other cheaper stocks. Beaver was traded in more largely than any other issue, but the stock was fully equal to the demand and the price did not undergo any change of moment. Rochester was fractionally firmer on account of a broker's lot of the shares sold as high as 16, but the general run of prices was about a point and a half below this figure.

ORE FROM SILVER ALLIANCE New Find Made on the Property—Ore Up to 1200 Ounces.

A sack of ore has been received at the head office of the Silver Alliance property in Montreal, from the new vein that was discovered on the surface about a month ago. The new find has been called the Martin vein, and the first shots that were put in it opened up rock that went 1200 ounces to the ton. Later shooting has cut into what appears to be much richer ore, but no assays have been made of it as yet. The vein has been stripped west for a distance of 20 feet, and the operations are being re-commenced in the first week in June in an area that was previously unexplored. The surface showings were so good that the entire body of the mine was at once put on the find in order to learn the truth about it at once. The Silver Alliance have a shaft 200 feet deep. Nothing of value was ever taken out of it except a rich pocket of about 30 feet from the surface.

SHIPMENT FROM WYANDOH The first shipment from the Wyandoh Limit, was despatched on Tuesday, being a car of 25,000 pounds of high grade, and the remainder low. This car was sent to the Thorold smelter.

RECORD FOR WEEK The following is a summary of the transactions on the Standard Stock Exchange for the four business days of the present week:

WOMAN AVIATOR INJURED Falls 150 Feet While Competing at Rheims Carnival.

RHEIMS, July 8.—Baroness de la Roche was badly injured to-day when trying in a Voisin biplane at the aviation meet. The machine went wrong and plunged straight down 150 feet, tangling the victim in the debris. She was internally injured and also sustained a fracture of the arm and leg. The biplane, going at a terrific speed, suddenly seemed to halt; it departed from the pilot's hands, then, while the driver could be seen to tug at levers, the machine fell, whirling and tossing.

PRIESTS FOUGHT BURGLARS Sprang to Defence of Church Treasures and Won Out.

NEW YORK, July 8.—Three masked burglars, intent on cracking a safe and getting \$500 in cash and other valuables belonging to the church, were caught at work in the rectory of St. Leonard's Roman Catholic Church in Brooklyn to-day. The three priests bravely sprang to the defence of the church's treasures, and attacked the robbers. Thugs and churchmen battled for more than a quarter of an hour before the church was cleared of the intruders. The burglars fled. As a result of the encounter, Fathers König and Oppel are suffering from severe bruises on their heads and arms, and Father Sanders has a long knife cut in the hand, received from a flying bullet from the church. The doctors, after a careful examination, declared that the Baroness's skull was not fractured, and that she may live.

BARTLETT MINE PASSES TO A BIG SYNDICATE Control of Gowganda Property Secured by J. R. Carter and Associates.

J. R. Carter, as the head of a syndicate, has secured control of the Bartlett Mine in Gowganda. It is understood that Mr. Carter and his friends have secured about two and three-quarter millions of the four millions of the capital of this company. Mr. Carter and his friends inspected the Bartlett Mines a few weeks ago and under the instructions of capable engineers believe that the property can be made a very valuable mine. During the flotation of the company some 400,000 shares of the treasury stock was distributed and there still remains in the treasury nearly 800,000 shares which will be taken up by the large holders in the company at 25c a share. With this money it is the intention to start new operations on the mine, and to endeavor to make the property a revenue producing affair. The main shaft on the Bartlett has been sunk to about 150 feet, but the vein on which the shaft was sunk dipped away from the main shaft and the vein which still remains at the surface is 8 inches wide, of cobalt and smallite. Under the present arrangements the Bartlett shareholders will still maintain their interest in the property and if the mine makes good, as is anticipated by the new syndicate, a reasonable return can be expected to investors of this property.

STRIKES AT COBALT Little and Big Nip Both in Good Luck—Other News of the Camp.

COBALT, July 8.—(Special).—No. 9 vein of Little Nip has again been cut after crossing 65 feet from the bottom of mine on the 200 foot level in a southeasterly direction. St. E. Gordon, the manager, reports lead at this depth is 8 inches wide, of cobalt and smallite. The vein is 40 feet long, and is situated at a depth of 40 feet from the main shaft of the City of Cobalt mine. Surface development on the Nipissing resulted in the discovery of a low high lead of calcite which will probably run very high grade, several thousand ounces. It has been traced for 30 feet and winding westerly to the 12 workings on the shore of Peter Lake. Two cars are now being loaded at the Kerr Lake siding from the Harveys. The shipment is 40 tons high and 20 tons low grade. Most of the rock is coming from No. 1 shaft. The sensational high grading case of the Lucky Godfrey has come to nothing. Wm. Acker, ore sorter, and Capt. Rogers, who were arrested, have been released, but no positive evidence for prosecution was given.

HUDSON BAY CONCENTRATOR Company Will Erect 20-Stamp Mill With 80 Tons Capacity.

COBALT, July 8.—After much deliberation the Hudson Bay Mining Co. has decided to put up a concentrator on their property adjoining the Fretthewey and the Nipissing. It will probably be a 20-stamp mill and will have a capacity of about 80 tons per day. The matter has been carefully considered and the conclusion has been arrived at that with the ore already on hand and in sight it will be a saving proposition to put up a small mill instead of shipping the low grade ore and paying for heavy freight charges or even of transporting it to a customs mill. The Hudson's Bay will be the 14th mill in the camp and along the ridge west of the town there are now no less than four concentrators. The Buffalo first performed the possibility of this money making in the low grade ore, closely followed by the Conlages. The Fretthewey on opening their north end felt justified in also erecting a mill and the New Linstead company is now following suit.

WILL ENTER DESERT. Flanders Car Nearing End of Journey.

LAREDO, Texas, July 8.—The Flanders "20" "Under Three Flags" car swirled into town this afternoon on the crest of a dust storm, having made the 101 miles from Pearsall since eight o'clock this morning. The car is now quartered at the only garage in town and will probably remain here until the 101 miles from Pearsall since eight o'clock this morning. The car is now quartered at the only garage in town and will probably remain here until the 101 miles from Pearsall since eight o'clock this morning. The car is now quartered at the only garage in town and will probably remain here until the 101 miles from Pearsall since eight o'clock this morning.

COBALT'S 60 DAYS DELIVERY There is a great opportunity at the present low prices to buy Cobalts for delivery two months hence.

There is a great opportunity at the present low prices to buy Cobalts for delivery two months hence. A premium has to be paid on the cash prices, but two months give a latitude for a rally in the market and profits can be made by those who deal in this way. Purchasers on these contracts deposit 25 per cent of the cost of purchase in cash or listed shares. We buy either for future delivery or cash any of the Cobalt Stocks, and also deal in all unlisted securities.
