Loss on Railways
Nine Hundred Million

May 24.—The United
States gross loss in op-
erations of railroads during
the year 1919, according
to the report of the
administration direct-

total \$87,513,000 was
excess of revenues and
expenses of the railroads.
The loss was due to the
fact that the railroads
were not able to collect
the full amount of freight
and passenger fares, and
to the fact that the rail-
roads were not able to
collect the full amount of
freight and passenger
taxes.

TREND IS HIGHER
IN GRAIN PRICESReports of Planting Delays in
Important Areas Have
Bullish Influence.

Chicago, May 24.—Reports of plant-
ing delays throughout important sections
of the corn belt have had a bullish in-
fluence on the corn market. The close
was nervous, 1/2 to 3/4 cents net higher
with July 1920 to 1921 3-8, and Septem-
ber 1920 to 1921 3-8. Oats unchanged
except for a few cents up, and provis-
ions varying from 35 cents down to
47 cents up.

Upward swings in the corn market
with shorts covering freely began
almost immediately after the opening
and with the liquidation in the space
continued until just before the close.
Buying attracted the most interest
simultaneously with general notice
of the fact that the planting season
had been a hindrance
to getting the new crop into the
ground and that the success of plant-
ing would in a large measure depend
on the amount of dry weather in the
next ten days. The fact that receipts
today were not heavy, tended also to
stimulate demand, especially for the
May delivery. Indeed, talk of new
export business in wheat and railway
congestion attracted attention. At the
last, however, longs started to unload
and found support lacking.

In oats as well as in corn, there was
extensive covering by shorts.
Paucity of offerings was also a fea-
ture.

Provisions buying made provisions
average higher, despite weakness of
hog values.
