It is expected that the new Legislature will be called together early in March, the nothing definite done yet.

GAMEY INTERVIEWS PREMIER ROOMS FOR ALL THE MINISTERS

Late Appointments Made by the Ross Administration Will Likely Be Cancelled by the New Government.

By-elections to fill the vacancies in the legislature caused by the acceptance of office by the ministers holding portfolios will be held on Feb. 28, nominating day, tomorrow afternoon. This was the first official act of the new cabinet. A cabinet council will be held today, when it is expected that the day for the meeting of the new legislature will be fixed. The subject has not yet been discussed by the cabinet, but the opinion prevails that the members should get on with their duties early in March, as soon after the by-elections as possible. No one expects that the program of registration for the first session will embrace many important measures. The new ministers will have time to formulate any measure involving radical changes in the laws.

New Minister Gathered Early yesterday morning the staffs of the various departments gathered to prepare for the reception of their new chiefs. The ministers arrived about 10 and several of them embraced the cabinet members. The members of the cabinet were in the morning in the Beauty room and another choice basket of assorted cut flowers, which were placed on his desk.

There was a full meeting of the new cabinet, which broke up before 1 o'clock. Hon. J. S. Hendrie, who was delayed by his train, but reached the council chamber before adjournment.

Year the meeting the premier received the press in his own room, which is that formerly occupied by Hon. J. M. Maclean. The cabinet members were in the afternoon was devoted to the reception of visitors, of whom there were a great many, most of them coming from the tender their congratulations. One of the late callers was R. H. Gamay, who was delayed by his train, but reached the council chamber before adjournment.

It was announced that all the ministers are to have offices in the parliament buildings. Rooms are now being put out for the three ministers without portfolio, in the west end, as well as one for Hon. D. B. Cameron, who will be in charge of the department of agriculture. Dr. Fynn will spend his forenoon among his department clerks at the Normal School and the rooms in the parliament buildings. Hon. H. H. Hendrie, Hon. Adam Beck and Hon. W. A. Mackenzie have their homes yesterday afternoon, and will not be present at today's cabinet meeting.

Mr. St. John, who on the opening of the legislature will be elected speaker, met representatives of all the new members.

WORLD'S FOREIGN TRADE WANTED CONCERNS INTERESTS OF CANADA

W. F. Maclean Speaks in Favor of an Export Duty on Wheat—Holding It Will Benefit Farmers of the West.

OTTAWA, Feb. 9.—(Special).—U. S. Attorney-General Moody's far-reaching decision on the question of drawbacks was brought to the attention of the house today by W. F. Maclean. The drawback decision is in effect that raw and partially manufactured materials of every sort and description are now at the disposal of American manufacturers engaged in the export trade.

Mr. Maclean re-echoed the opinion of Le Comptroller of Montreal, that Mr. Moody's decision means an economic revolution. The essence of the decision is contained in this extract from the decision: "In my opinion, where it is proposed to export a product manufactured in the United States from a combination of domestic material which has paid duty, and the custom officials can identify the foreign material as such, by the evidence of books of account or otherwise, the quantity of the drawback of the foreign material actually exported is entitled to the drawback of 25 per cent. of the duties paid upon the imported material thus ascertained."

Concerns Canada Closely. Mr. Maclean said, concerned Canada closely. It had for its object the capture of the foreign trade of the world, and it was aimed directly at Canada. The decision would enable the American miller to import Canada's hard wheat, or more than 25 per cent. of the wheat that is exported to the United States, and get a drawback equal to 25 per cent. of the duty paid on the wheat.

Mr. Maclean said that the decision would enable the American miller to import Canada's hard wheat, or more than 25 per cent. of the wheat that is exported to the United States, and get a drawback equal to 25 per cent. of the duty paid on the wheat.
