**TAX REFORM IN NEW BRUNSWICK**

Report From This Province, at Convention in Toronto, Shows The Progress Made

Following is the New Brunswick report to the fourth annual convention of the Tax Reform League of Eastern Canada, held in Toronto on September 2.

In December A. B. Farmer, secretary of the league, a most successful lecturing tour of a week, speaking to large and interested audiences in Halifax, Middleton, Springhill, New Glasgow and Pictou, N. S., and in St. John, Newcastle and Moncton, N. B.

In February, Rev. W. C. Keirstead, Ph. D., professor of philosophy and economics in the University of New Brunswick, spoke before the Canadian Club in Moncton advocating lower taxes on improvements and personally than on land, and demanding a system under which the community can lay its hands upon the unearned increment of land. The same question has been discussed at subsequent meetings of the club and at the meetings of Moncton Tax Reform Association.

Later in February the motion of J. L. White, M. P. F., at a meeting of the Grand Falls Board of Trade, "That it was the opinion of that board that the interests of the town would be advanced if the present system of taxation were changed by taxing the land and dispensing with all taxes on the improvements thereon," caused a general discussion of the matter of taxation, and called out forcible addresses by the mover and others, but was withdrawn to be re-introduced at some further meeting. Grand Falls did not ask tax reform of the legislature this year.

Newcastle asked this year and was granted an act by which its poll tax is fixed at \$5 flat instead of having, as formerly, to be reckoned under the general assessment act which calls for the raising of one-sixth of the revenue by poll tax and which made Newcastle's poll tax last year \$6.75. Campbellton's poll tax by special act is \$3.50, and that of St. John is lower still. Moncton's this year is \$3.25.

No other legislation of any importance in tax reform was obtained from the New Brunswick assembly this year. Campbellton, which asked in 1912 for the right to exempt improvements upon a majority vote of the people, and Moncton, which asked, the same year, for permission to gradually exempt improvements, both requests being refused, will probably make similar demands at the coming session.

In Newcastle council last winter a motion to ask for legislation authorizing gradual exemption of improvements should the people be willing, was defeated by a vote of five to three.

St. John, which has direct legislation within wide limits under a commission form of government which seems to be

working successfully, appears to be thinking seriously of installing the Somers system of valuation and going a considerable length in the direction of abolishing all taxes but those on land, more nearly the law is carried out in full and the larger the income the more it escapes.

At the meeting of the Maritime Board of Trade in Newcastle, on the 20th instant, the following motion (similar to that adopted by the Union of New Brunswick Municipalities at its convention in Newcastle, in 1911, but not followed up by the executive, nor considered at the 1912 convention) received much support and evoked a general and vigorous discussion in which not one of the speakers advocated the retention of our present system of taxation.

"Be it resolved, That this Maritime Board of Trade assembled in convention in the Town of Newcastle, request the governments and legislatures of the maritime provinces to pass at their next sessions bills providing that any county, city or town in their respective provinces shall, upon a majority vote of its qualified ratepayers voting, have the power to reduce or abolish, within its jurisdiction, taxes on polls, improvements, personal property and income, or any one or more of these, and raise its revenue by means of a land tax with or without a poll tax and with or without a system of business licenses; also that copies of this resolution be sent to the provincial premier and opposition leaders."

After being thoroughly discussed, the matter was adjourned, and finally the following amendment, moved by Hon. Donald Morrison of Newcastle, and Smith I. Walker, M. D., of Truro, was adopted:—

"I followed his instructions and found the dentist was right. Pebecco Tooth Paste does purify and refresh the mouth—Pebecco Tooth Paste does stop 'Acid-Mouth.'"

"Naturally, wife and children tried it. Like it? They too have 'got' the Pebecco habit."

Lyman Bros. & Co. Limited, Toronto, Ont.

**PEBECO TOOTH PASTE**

The Regular Luncheon at The Brown Betty is very attractive, menus are changed every day and are daintily served amidst the most pleasing surroundings.

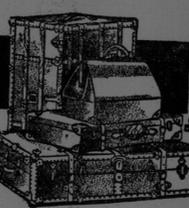

Luncheon 12 to 2 p. m. Afternoon Tea, 3 to 6 p. m. Delicious 50c. Dinners 6 to 7.30 p. m.

**WILL NOT AFFECT THE PRICE OF CIGARETTES**

Growing Area For Turkish Tobacco Not Injured by Balkan War

London, Sept. 4.—Cigarette smokers will learn with joy that the price of Turkish cigarettes will not be materially increased on account of the recent war in the Balkans. Tobacco experts say that the tobacco crops are practically intact this year, as the fighting area was not located in the growing area and the ravages of troops on tobacco warehouses were few save in the case of Serbia, where the Bulgarians burned several warehouses, some of which belonged to Americans, but the total loss was only a thousand pounds of tobacco. The wholesale price of Turkish tobacco has increased because owing to the fact of so many men being required for service in the army a sufficient number of laborers to tend the crops could not be obtained. This shortage of labor will probably extend to the coming year. A further increase in the wholesale price of tobacco is anticipated.

**MORNING LOCALS**

J. C. Armer, manager of the Canadian Manufacturers' Association, was in the city yesterday on a tour of the maritime provinces, which he has undertaken with a view to writing up the industrial features of the provinces in connection with the convention of the Canadian Manufacturers' Association which will be held in Halifax from the 16th to the 18th inst.

Among the students who left yesterday for St. Joseph's University were Arthur P. Allen, Chas. McHugh, J. Fitzpatrick, A. Coughlan, S. Oram, Chas. Carroll, F. McGuire, Wilfred Mallet, J. McQuire, Harry McArdle, Leonard McGuire, Frederick McGuire, S. Money, Roy McDonald, G. Brown, J. O'Neill, H. McGuire and G. McSherry. Several American students, accompanied by Rev. Fathers McDougall and Boylan, passed through the city during the afternoon on their way to the university.

That the province of New Brunswick is attracting settlers and intending settlers from places as far distant as South Africa and Bunnah is evident from the frequent letters received at the provincial immigration offices from distant parts of the empire. In yesterday's mail Mr. Gilchrist received two letters from the Transvaal and one from Rangoon asking for particulars about farming in this province.

About three hundred members of the Canadian Manufacturers' Association, which is to meet in Halifax from September 16 to 18, will spend a day in St. John on their return home. They will come from Digby by the St. George Friday, 19th inst., and will remain overnight. The next day they will go to Fredericton by the Victoria which has been chartered for the trip and from there will return by special train to Montreal.

At a meeting of the Trades and Labor Council last evening it was decided to support, not only morally but also financially, the millworkers who have now been thirteen weeks on strike for better conditions. J. E. Tighe, business agent of the Longshoremen's Union said last night that the seamen intended to refuse to handle lumber from any mill operated by non-union labor, and at the unioned unions had been urged to refrain from handling lumber sawed by non-union labor well.

In connection with selecting a site for the tuberculosis hospital the St. John hospital commissioners have visited Dr. Simon F. Cox of the Massachusetts Tuberculosis Institution at Mattepan to come here to look over the situation and offer advice.

**MORNING NEWS OVER THE WIRES**

Two delegates from Massachusetts have arrived in Ottawa to study the workings of the Lemieux industrial disputes act. They will afterwards tour Canada to investigate the application of the act.

Lieutenant M. L. Love, signal corps, U. S. A. was killed yesterday when his aeroplane plunged 300 feet to the ground at an aviation school in California. Since 1908 aviation has caused the death of 338 persons.

Frederic H. Gough of Newcastle died in the Moncton hospital Sept. 2. He was forty-six years of age and was a son of Thomas Gough of Charlottetown. He is also survived by his wife, five sons and two daughters.

Sydney, N. S., Sept. 4.—David Ratchford, of Law Point, was instantly killed by a fall of rock at Dominion No. 1 colliery this morning.

Ottawa, Sept. 4.—The total immigration to Canada during the first four months of the current fiscal year, April to July, was \$20,966, made up of \$9,001 British, \$4,040 American and \$7,925 from all other countries.

**Eating With His Stomach**

That's what the man tries to do who bolts his food without thoroughly chewing it.

This is particularly true when he uses soft, starchy foods, which seldom get the necessary digestion by the saliva, as nature intended, because most people swallow such foods as quickly as possible.

This leads to weakened digestive organs, fermentation, imperfect nutrition, and sometimes appendicitis.

**Grape-Nuts**

FOOD

must be chewed, and for this, as well as other reasons, this food has saved many from chronic intestinal troubles and all the misery that means.

If there's one thing about Grape-Nuts of greater interest than its scientific food qualities, it is its remarkable practical adaptability to all weakened conditions of the digestive organs and its powers to build them up quickly.
