from Perfect Grapes these finer raisins.

Raisins—good raisins—are grapes dried in the sun. Nothing more.

They can be no better than the grapes from which they are made.

The grapes for Sun-Maid Raisins are grown in the finest vineyards in the world—in the beautiful San Joaquin Valley of California.

Only the tenderest and sweetest are selected for Sun-Maids. They are dried in the clean, mellow sunshine. Then they are so thoroughly cleaned and sterilized that they do not require washing before use.

In the red or blue package with the smiling Sun-Maid girl they bring you all of the goodness of the perfect raisins from which they are made.

Always look for the Sun-Maid girl upon the package. Throughout the world she is the sign of highest quality in raisins.

In all your cooking—wherever you use raisins use Sun-Maids. You will notice the difference—the finer, more delicate flavor. You can get this extra goodness only with Sun-Maid Raisins.

BREAD MAKER

Hydro Ranges Bake Best Bread

The fact that two St. John Bakeries advertise that they cook by electricity is evidence enough of the superior baking you get out of Hydro Ranges.

As one noted cook said—"Cooking on a Hydro Range is not cooking at all. It means being in another room altogether doing something else while the Hydro takes care of the cooking."

The cleanest cooking you ever had. The easiest and the surest. Never an accident. Nothing gets overdone or underdone. Cheaper than gas and coal by far.
