SHOULD NOT HELP THE STREET BEGGARS

(Montreal Mail) At the annual meeting of The Needle Work Guild of Canada, the address delivered by Mr. Smith, head of the Charity Organization of Montreal, was full of interest to all who are engaged in trying to better conditions in the city.

Mr. Smith pointed out that of the three classes of problems always before his organization, the "unattached man problem" is the most demanding than its usual attention this year, because of the open weather. This has allowed construction work to be uninterrupted, both on city and private contracts. Other cities are much worse off on account of the severe weather conditions.

He also made the statement that Montreal is one of the most congested cities on the continent. Living is also higher here than in the States or at least one receives more for his money there in decent comfort. The new municipal lodging house, ready for occupancy next month, will be one of the finest, if not the finest, on the continent. It will accommodate between 700 and 800 men, who will be given clean beds, clean baths, breakfast and a chance to work.

Mr. Smith was especially emphatic in his advice against giving money or help of any kind to street or house beggars. Without exception, these are professional frauds, giving fictitious addresses and absolutely refusing medical assistance and in more than one instance, receiving

charity from the organization at the very time they are begging.
