At To-Day's Session the United States Refutes the Spanish Arguments.

Paris, Nov. 9 .- To-day's session of the peace commission began at 2:13 p.m. and ended at 3 p.m. When the meeting opened the Americans presented to their Spanish colleagues the answer of the United States to the claims submitted on Friday last on behalf of Spain. The document in which the American answer was set forth consisted of many sheets of type-written matter. The American presentation of today was a refutation of the Spanish allegation that because the words "possession," "ownership" or "cession" do not occur in the protocol clause touching upon the Philippine islands, the peace commissioners have not the right to discuss them here, and that even if they did so it must be in the light of the alleged fact of an exterior agreement that Spain's sover eignty should not be impaired.

Paris, Nov. 9 .- The Gaulois to-day says: "It is certain that the Spanish commissioners will maintain at to-day's conference the contention that all the clauses of the protocol must be as faithfully observed by the Americans as they have been by the Spanish regarding Cuba and Porto Rico. The Spanish commissioners hold that no discussion on the Philippines can be tolerated, and that the sovereignty of Spain over those islands will be maintained. The rumors relative to compensation are only simply an hypothesis at present. The attitude of Spain in the matter is quite simple, namely, before admitting the possibility of any agreement in regard to the archipelago, she expects that the United States will recognize that her rights in the Philippines are unassailable.
