Liquidator Will Enter Action To Recover \$50,000 For Which The Former Manager, W. R. Travers, Was Bonded.

Toronto, June 6.—The Farmers Bank of Canada, through its liquidator, G. D. Clarkson, has instructed its solicitors, Bickell, Bain and Strath, to issue a writ for \$50,000 against the United States Fidelity and Guarantee Company, of New York. The purpose is to recover the amount for which W. R. Travers, former general manager, was bonded in the company against any default for which he might be responsible. The curator's contention is that Travers was bonded for \$25,000 in 1909 and for the same amount in 1910, the creditors are entitled to collect the full \$50,000 on the ground that the general manager violated his trust during both years. The company on the other hand, holds that under any circumstances it can be held liable for the amount of one year's bond only, \$25,000. That amount, however, was not forwarded to the curator pending the settlement of the disputed point. Now the company will be pressed for double the sum through the medium of a Canadian court and the courts of New York state.

GARLAND IN GREAT DANGER

Several Constables After The Same Prisoner Created Considerable Excitement In Elgin, Alberta Co., Yesterday.

Special to The Standard. Elgin, June 6.—Excitement was caused at Elgin Corner today over several arrests made by constables in the parish of Elgin, Chas. W. Garland being the party for whom the warrant was held. Some two weeks ago Garland was arrested and committed to jail for \$100 and \$15 costs before the police magistrate in the Parish of Hopewell. After lying in jail for several days, the magistrate ordered his release, but before this was done, a warrant was sworn out by O. A. Reid of the Reid McIntyre Co., charging Garland with theft and this warrant was lodged into the hands of the high sheriff of the county.

John Garland, father of the defendant, came down to Hopewell Cape about a week ago and deposited the fine with the jailor and demanded the release of Chas. W. Garland, his son. High Sheriff Carter produced the warrant which charged theft against Garland and placed the same in the hands of John Garland, who is his deputy, allowing Garland to have his own son on arrest, and instead of bringing the accused before the magistrate, who issued the warrant in the parish where the witnesses and informant live Deputy Garland took the prisoner home to Elgin, a distance of forty miles and before R. P. Colpitt, a justice of the peace at Elgin. The hearing of the matter was set down for next week today before Justice Colpitt, but the Police Magistrate of Hopewell finding that the warrant had not been returned issued a duplicate warrant and placed the same in the hands of Constable Geo. A. Babcock and special constable Jos. G. Steeves, who arrested Garland at Elgin today. Another constable who held capias for Garland for \$3.40 tried to prevent the officers from executing the warrant. He was assisted in this by Deputy Sheriff Garland, father of the accused, but their attempt failed. The prisoner was brought to Albert tonight and will be taken before the magistrate in the morning. Great interest was taken in this matter today.

SENATE WILL CONSIDER TODAY ON RECIPROcity

The Canadian Agreement Now Being Privately Considered By Finance Committee Of United States Senate.

Washington, June 6.—Executive consideration of the Canadian reciprocity bill was begun today by the senate finance committee although no vote was made to reach a vote on it before tomorrow, the date fixed last week by the committee as the time when the bill and proposed amendments thereto will be voted on. Secretary of State Knox, who was asked to appear before the committee today to explain whether the Root amendment to the paper section of the bill was in accord with the agreement, was unable to be present at the morning session of the committee, but is expected will appear later in the day.

A decided majority of Democrats are favorable to reciprocity, but until comparatively recently many of them, disposed toward political advantages, made the condition that the reciprocity bill be passed with consideration except in connection with the pet Democrat measure. They have abandoned that attitude and announced before the committee that they will oppose all amendments of whatever nature. They have even gone to the extent of rejecting overtures from the progressives, who are coupled with a promise on the part of the latter to tack the free list onto the reciprocity bill. "We want a vote on the free list," they say, "and shall insist on it. It must be separate from reciprocity."

Advocates of the bill are confident of success, but the vote will be postponed for several weeks, with intense struggle and strong resistance in the meantime. No one predicts a vote earlier than July 15 and some extend the time by a month. "And with reciprocity disposed of," declared Senator Stone, today, "I should say that we ought to stay here until we merge this session into the next regular session and that session into the second regular if we don't get a vote on the free list."

PLANTS ARE CLOSED UP

Strike Has Affected About Three Quarters Of The Industries In The Canadian Pacific Coast Metropolis.

Vancouver, June 6.—The strike continues to be a very aggravating factor of the city's industrial life. Masters and men both claim to have made progress, but about three-quarters of the city's industries are at a standstill. It is said that great pressure is being brought to bear on street car men to quit their positions and thus tie up the city's transportation facilities. The masters have made representations to Ottawa, and if the strike is not settled today, the masters will urge the government to enforce the Lemieux act. The men are indifferent to this aspect of the case, claiming not to have struck in the legal sense but to have quit as individuals. While there was much noise among the crowds of idle men last night, no outbreaks of a serious character were reported. Wherever houses are being erected intimidation tactics are used. The strikers now have the public expecting any surprise and more serious hostilities are anticipated. Both sides are very defiant and indications point to a long struggle.

Heroism Of Wife And Children Of French Lighthouse Keeper To Be Recognized By The Government Of France.

Paris, June 6.—The attention of the French government has been called to a dramatic incident demonstrating the devotion to duty of the family in charge of Kerouan Lighthouse on the southeast point of Belle Ile-en-Mer, a wind swept spot on the Brittany coast. Matelot, the keeper of the light, while cleaning the revolving lamp was stricken with illness. He continued his work until he was carried by his wife in a dying condition to his bed. The woman was unable to abandon her post or her four young children to seek help. As dusk came on she mounted the tower to light the lamp and returned just in time to hear her husband's dying words. One of the children discovered that the light was not turning, and the woman realizing the danger of disaster to mariners, who might mistake Kerouan for other fatal lights worked vainly for an hour to repair the mechanism. Finally she set the two oldest children, aged 7 and 10, to work, and throughout the night, with a fierce storm raging they turned the heavy lamp with their puny strength.
