CLOSING STOCK LETTER.

By direct private wires to J. C. Mackintosh & Co.

New York, Sept. 11.—The London market this morning reflected a more cheerful sentiment abroad but failed to stimulate prices here during the forenoon which witnessed a period of demoralization as acute as any that has been seen during the recent decline in prices. The early recovery attracted further liquidation in substantial volume much of which was supposed to have originated abroad. Cable advices were conflicting and while none suggested that France and Germany would not be enabled to reach an ultimate agreement it was evident that the Moroccan controversy was still far from actual settlement and that further prolonged negotiations might be entailed. Here there was no further fresh news although it was rumored during the morning that a strike would be called on the Harriman roads within 24 hours. The market received little support until well into the afternoon when short covering caused a smart recovery from the low prices. There were no evidences of an increased investment demand and the face of the market seemed saved not by support from the big interests, but through a removal of pressure to sell when the weakness verged upon demoralization. Bearish sentiment was more rampant than it has been at any other stage of the decline. Room traders were predicting further heavy declines and were evidently backing their conviction with short sales. This condition usually means that a substantial recovery is in sight, but the action of the market of late has so frequently been contrary to precedent that the usual indications are distrusted. The foreign political situation and the domestic uncertainty seems serious enough to warrant caution in making fresh speculative commitments.

CLOSING COTTON LETTER.

By direct private wires to J. C. Mackintosh & Co.

New York, Sept. 11.—Today's cotton market was again affected largely by the tone of foreign political advices and weakness in stock market. The financial demoralization reached a crisis today and it was the opinion of well informed banking houses that while the war scare would soon blow over, German commerce and German credit had received a blow from which they would not soon recover and which in the nature of things would react upon the cotton industry throughout Europe.

With business in England also reactionary as a result of labor disturbances, there has been a pronounced curtailment in the spot demand at the south from foreign spinners. These factors for the time being have offset bullish crop advices. Considering the weight of these advices, the market has shown a steady resistance, largely because of the large short interest outstanding.

We continue to believe, however, that any advance for the immediate future will be at the expense of this short interest and that contracts may be sold on all sharp bulges.

SIR WILFRID LAURIER EXTOLS CANADA AS A LAND OF PROMISE, WHILE AT THE SAME TIME HE IS DOING HIS BEST TO MAKE IT A BREACH OF PROMISE.

THE DEMERARA ELECTRIC COMPANY, LIMITED
Capital Stock
The net earnings of the Company since 1905 have shown a steady progress, with but a slight exception, and for 1910, after allowing for Bond Interest and Sinking Fund payment, amounted to 7 per cent. on the Capital Stock.
Quarterly dividends of 1¼ per cent. equal to 5 per cent. yearly are being paid, and the surplus at the end of 1910 was nearly sufficient to pay dividends for four years at 5 per cent.

REACH LOWEST POINT OF YEAR

New York, Sept. 11.—After opening on a considerably higher level stocks fell to the lowest point of the year today and then recovered. Net changes were slight in most cases and the final rally was so spirited that many of the active issues closed with small gains, running up to a point in Reading and Southern Pacific. But the market was not freed from the nervousness and unsettlement of last week. During the morning's decline most of the representative issues were included in the list of low records, not only for the year but in several instances for a longer period. The range of prices for the day ran to more than three points in a number of cases.

Opening gains, ranging from 1 to 3 points were due to the earlier rise of prices in the London market. Traders took advantage of the rise to sell stocks. The selling had the appearance of being renewal of liquidation such as was the chief depressing factor for several weeks. The market was unable to resist the pressure and broke abruptly. The weakness was pronounced, during most of the morning and there seemed to be an utter lack of substantial support. Many weak bull accounts dating from the the recent brief upward movement were closed out. The recovery which was in progress most of the afternoon seemed to be chiefly the result of short covering.

The influence of the European markets was again a considerable factor. London, following the advances in Americans there bought moderately here at the opening, but as the market broke faced about and sold. There also was heavy direct selling by Berlin chiefly of Atchison, Union Pacific and Canadian Pacific. Total sales for foreign account were estimated at more than 30,000 shares.

Reports in regard to the difficulty between France and Germany were conflicting although more optimistic advices on this subject were received later in the day. Local bankers with international connections received reports intimating that both Paris and Berlin were engaged in the further curtailment of German credits. London's market was somewhat feverish by reason of the approaching fortnightly settlement, while Paris exhibited nervousness. Some relaxation of the tension in Berlin may have been suggested by the decline in discounts there. Home news included despatches from the west indicating brighter prospects for peace on the Illinois Central. The pressure against U. S. Steel was coincident with reports that operations at the corporation's mills are now smaller scale than at any time during August. It was also said that the company's foreign business had suffered a decided setback but this was denied in authoritative quarters. A cut in the dividend in the Texas Oil Company from 10 to 5 per cent. occasioned no surprise even in speculative circles. The prevailing quotation for this stock which is lightly held long ago discounted the change in rate. Bonds were heavy but rallied somewhat late in the day in sympathy with the improvement in stocks. Total sales par value, $2,205,000.

U. S. Bonds were unchanged on call.

BRITISH TIMBER MARKET REPORTS

The British timber market reports for the month of August are as follows:

Alfred Dobell & Co., Liverpool, Sept. 1st, 1911.—Canadian woods: Waney board and Square Pine—A fair quantity of Waney has arrived in Manchester on contract, and is going into consumption. Oak—Several small parcels have come forward, including two consignments which were yarded for shippers' account. Quotations are firm. Rock Elm—The import consisted of contract parcels, a portion of which has gone into consumption. Values unchanged. Birch—Loss from Quebec are fully stocked. Prices easier. Plank keep firm, and the consumption has been satisfactory. Pine Deals and Boards—The import was moderate, but owing to the curtailed consumption, stocks were increased. Prices unchanged. New Brunswick and Nova Scotia Spruce Deals—The import to Manchester and the Mersey figures 2,370 standards in excess of this month last year, the consumption being 1,300 standards less than for the same period; a consumption, which, having regard to the labor troubles is surprisingly good. Stocks are fully ample for requirements.

Smith and Tyrer, Liverpool. Notes on British trade for the month of August:

The month of August has witnessed a succession of strikes throughout the United Kingdom more severe, on the whole, while they lasted, than has been recorded, and which for a short period caused the practical suspension of commercial activity. The after effects are now being severely felt and it will be some weeks before things resume their normal course. The Wood Trade, on account of the less perishable nature of the shipments, has not suffered so greatly as some trades, but the dislocation of traffic and congestion of goods are causing considerable trouble and loss.

Pitch Pine has been hampered by the uncertainty of freights and the reluctance to buy while the troubles remained unsettled. Sawn Timber has strengthened in value through the firmness of shippers. Prime Lumber and lower qualities are weaker on account of unsold consignments. U. S. A. Hardwoods, are steady but quiet. Spruce Deals—The accumulation of stocks in steamers and on the quays, now receiving urgent attention, has caused a considerable weakening in values. This will probably be of only a temporary nature.

Birch—the demand for logs is improving and planks maintain their values. Pine Deals.—There is a little better feeling with regard to Lower Ports. Hemlock is without any enquiry.

A High Yield Bond With Ample Security
The cost of living has been increasing so rapidly that the average investor has been forced to try to secure a larger yield on his money and at the same time have a sound investment.
The 6 per cent. First Mortgage Sinking Fund Gold Bonds of the CANADIAN CEREAL & MILLING CO. LTD., represent such a class of investment, because the bonds form the first and only lien on all the real estate, buildings, equipment and water powers of the company.
We are offering a limited amount of them subject to prior sale at par and interest to yield the full 6 per cent. on the investment.
Full particulars regarding the company mailed on request.

WELL KNOWN CITIZEN DEAD.

Newcastle, Sept. 9.—The death of James Price occurred, after a seven months' illness, yesterday. Deceased was 92 years of age, and a native of P. E. Island. At about 14 years of age he removed to Tabusintac, N. B., and about 40 years ago settled in Newcastle, where he had since resided, and where, as in Tabusintac, he was well known.

Deceased married Miss Maria Robertson of Tabusintac, who died on January 12th, 1902, aged 76. Of deceased's seven children, six daughters and one son, the following survive: Hannah (Mrs. Nelson Strang), Brewer, Me.; Phoebe (Mrs. Andrew Mather), Newcastle; Henry, Newcastle, and Louise (Mrs. Peter Ahearn), Newcastle; 32 grandchildren and 28 great grand children survive. The surviving brothers and sisters are: Richard and Jacob, of Tabusintac; William of Hillsboro, N. B., and Jesse of Lakota, N. D.; Mary (Mrs. John Stephenson), Hillsboro, N. B.; and Jane (Mrs. John Robertson), Tabusintac. Funeral tomorrow afternoon.

LOWELLS WIN FROM CALAIS IN FAST GAME

Calais, Me., Sept. 11.—Border fans got a taste of what really fast ball is when the Lowell team, winners of the New England league series, lined up against Calais on the Calais fair grounds on Monday afternoon before a large crowd. The game started with a rush, Lowell securing seven runs in the first inning, and it was apparent to all that the Calais boys were outclassed by their opponents from the mill town of Massachusetts.

Up to the fifth inning it was 14 to 1 in favor of Lowell, but Wilder crossed the plate for Calais in the last half of the fifth and the crowd felt better. Johnson grounder doing the trick for Wilder. Lowell was blanked in the fifth and sixth innings, but secured another run in the seventh. Ryan pitched the first three innings, giving the visitors nine hits and 12 scores when O'Neill was substituted, and during his six innings the Lowell boys got five hits and four scores.

A summary of the game follows:

SHE IS AS WHITE AS A GHOST

Is it a matter of pride to be pale a lily—certainly not. What every woman wants is strength, color, vim. Buoyancy and health are the right of every woman, and these she need not lack if she only uses Ferrozone. It gives appetite, creates strength, enriches the blood, gives vigor to the nerves, color to the cheeks and brightness to the eyes. Ferrozone is at once convertible into health, beauty and strength. There is power in Ferrozone—try it and know what you have missed. 50c. at all dealers.

SWIMS ENGLISH CHANNEL

WILLIAM BURGESS

T. W. Burgess, a Yorkshire man, succeeded in swimming the English Channel. It took the plucky swimmer twenty-two hours to cover the dangerous span of water between Dover and Calais.

Numerous attempts have been made by Captain Matthew Webb swam the channel in forty-five minutes, but no one has succeeded until Burgess accomplished it.
