

## Suffered Greatly With Her Heart.

Became So Weak At Times  
Could Hardly Walk.

Many people may be unaware of having anything wrong with their heart or physical breakdown, you should not wait until you case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. D. McGilvery, Bathurst, N.B., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my heart and became so weak at times I could hardly walk. A friend of mine advised me to try your Pills, which I did, and soon found great relief. They are the best medicine I have ever taken for heart trouble."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Canada Becomes Ford Stronghold

Factory at Walkerville Forced to  
Quadruple in Size and Output.

Dominion Now World Power in Auto-  
mobile Manufacture.

Vast Addition Ready to Start Work on  
7,500 Cars for Next Year.

Canada has leaped to the front ranks of the countries that lead the world in automobile production. Only three others take precedence and a year from this time that number may be cut down to two—perhaps even to one. This statement could not have been made a few weeks ago, but since the great Canadian Ford factory at Walkerville has been quadrupled in capacity, it is literally true. Canada is now in a position to produce 15,000 automobiles annually, more than half of them Ford. England produces 25,000; France 40,000; Germany 15,000; and Italy 5,000. Thus only England and France of all foreign countries exceed Canada's record. This is the statement which Mr. Pugsley, of Messrs. J. A. Pugsley and Co., made to a representative of The Standard, continuing Mr. Pugsley said:

It is an undertaking of hours to pass through the entire plant, the vastness of three square acres of floor space, filled in every part with the latest and finest of modern machinery. Small wonder that experts who have passed through and examined everything with the practical eye declare this the finest machine shop in Canada, and one of the best equipped in the world. Detroit, itself, has only three establishments that can be compared with this one, which is putting out 7,500 cars for the present season. There are four parts to the Ford factory. The workshops proper, four stories high, are 75,000 feet in dimension; old plant, 90x75 and 80x105, three stories; the office building, 40x120, two stories high; and the heat treating plant, one story high, is 35x135 feet. In these three buildings all the secrets of the Ford success lie open to inspection, for says Mr. Pugsley, "there are no closed secrets in the Ford success."

"Vanadium steel is no secret, for any manufacturer may use it, if he is willing to pay the double price it brings in the market. Neither is heat treating a secret. It is a necessary step in the making of any highest grade steel. Nor is there any secret in the special Ford engine built into the motor, or any of the other special features of the car. It is an open book where anyone may read. But the pages tell the story of the greatest manufacturing success ever achieved."

The Ford employees almost 5,000 men in a village in its factories, covers all told 50 acres of land with its buildings, and affords employment, in dealers, agents, makers of accessories and allied industries, to 40,000 people. Do you wonder I am enthusiastic? Few know of the difficulties encountered by Mr. McGilvery, in connection with getting sufficient capital to start even the Canadian company. Notwithstanding that at the time the Canadian company was started the Detroit company had already paid handsome dividends, yet the people in Canada could not be induced to put their money into the Canadian plant, as they seemed to feel that the automobile industry was not on a permanent basis and the demand would soon stop, the same as it had in the bicycle business. For this reason it took some three or four months to complete the organization in Canada, which, at that time only required about \$125,000; but there are a great many people who had opportunities at that time who have since regretted that they did not go into the business."

## BOSTON MARATHON TODAY

Special to The Standard.  
Boston, April 18.—The local United States forecast said this evening that the rain is about over, and that tomorrow morning will be cloudy and slightly cooler, and that when the field of Marathon starters are given the signal at high noon it will probably be clear and bright overhead. This news conveyed to the training camps at Ashland brought a slight ray of cheer to the majority of the 135 long distance men who will start in this classic event, for the weather and the condition of the course have always been large factors in determining the victors of the American Marathons.

There are a few "mud larks" who would like to run under conditions such as prevailed today, but they are much in the minority. There is much interest in Victor Williams, the entry from St. John, N.S., who is known here of his ability, but some how or other he seems to be regarded with considerable respect by the wise ones who are making forecasts. He is perhaps one of the more prominently mentioned of the so-called "dark horses."

Trying to pick a winner is this year a particularly uncertain job. It has been a great many years since a field of so many evenly matched star long distance men have been named for a Marathon race. Really it is a toss up as to who will survive the gruelling run and finish a winner. From out of the 135 starters the chances of winning seem to lie within about some twenty men. It might be added that Edward Fabre, of Montreal, who finished third last year is being strongly touted, and on form is perhaps the logical choice.

The race will start promptly at twelve o'clock. Last year's time, the record for the course, was 2:21:35.4, and was made by Clarence H. Demar of this city. [Note.—That Victor Williams is a dark horse is a certainty, and he is quite unknown in St. John as he is in Boston. A number of athletes in this city have been asked about him, and they fail to know him. A. W. Covey, the well known runner, and for years the provincial representative of the M. P. A. A. A. was sent last night by The Standard and says he has made enquiry at the different local associations and has far failed to find any person who knows Williams. Mr. Covey does not believe that Williams is from this city.]

## BASEBALL IN THE BIG LEAGUES

### American League.

At St. Louis.—001002013.—7 10 3  
Chicago . . . 00200100—12 15 7  
Nelson, Hamilton, Spencer and Kri-  
ckel, Walsh and Sullivan, Rubin.  
At Detroit.—  
Detroit-Cleveland opening game  
postponed.  
At Washington.—  
New York-Washington game postponed.  
At Boston.—  
Boston-New York opening game  
postponed.

### American League Standing.

New York	3	3	.500
Brooklyn	2	3	.400
Pittsburgh	2	4	.333
Chicago	1	4	.200

### International League.

The International League was scheduled to open yesterday and the games were postponed on account of rain.

## Mitts of The Mighty

When a pitcher sees these hands curled around a bat in this manner he says a brief prayer and hopes the ball isn't hit out of the lot. The hands are Napoleon Lajoie's. He is Cleveland's second baseman and a great natural batsman.

## LEADING BATTERS BIG MEN, FEW SMALL PLAYERS HIT FOR 300

The biggest hitting in baseball has been done by the biggest men. To put it differently and perhaps more lucidly, big men have figured much more prominently in hard hitting than little men. There have been little men who were as good batters as the big ones, but there haven't been nearly as many of them.

It is not necessarily follow that big men are naturally better with the cudgel than small twirlers of the pestle, for knack and keenness of the eye are not regulated by avoidance. The fact is that big to medium-sized men greatly outnumber little men in baseball, and probably therein lies the reason why the big men have contributed more good hitters. It's principally a question of numbers.

It isn't in the yearly records that this condition makes itself manifest, but in the record showing big league players who have batted 300 or better for five years or more from 1876 to 1911 inclusive. To get in this list, it is necessary to be in the list of proof of sustained ability to hit the ball. A good test, one requiring a man to bat 300 for five years, one requiring more than passing ability, a real test of durability and one which may really strong batters have failed to survive.

In considering the batters in this list referred to they are divided into big, medium and small sizes, but it is always easy to tell in which one of the three a man should be placed. It is easy enough, though, to classify the little men.

The prevees stand out clearly enough, little giants of the ash; but in several instances it is hard to distinguish between big and medium. The two classes sometimes overlap, yet this but calls more attention to the fact that size has gone hand in hand with heavy stick work more than the lack of it.

The five years or more .300 per cent. batters are as follows:

**Big.**  
Anson, Connor, Brothers, Brown-  
ing, Ewing, Orr, Stover, Reilly, Tom  
Burns (Brooklyn), Glascock, Thomp-  
son, O'Neil, Larkin, Ryan, McKeen,  
Tucker, Clements, Beckley, Pat Dono-  
van, Stevens, Joyce, Delehanty, Joe  
Keiley, Mike Kelly, Hines, Jim White,  
and others.

## BASEBALL DELEGATES MEET HERE

Baseball representatives from Houl-  
ton, Woodstock, Fredericton and St.  
Stephen will meet at the Dufferin  
Hotel on Monday night next for the  
purpose of discussing the advisability  
of forming a Maine and New Brun-  
swick league. It looks as if a league  
is a sure thing and outside teams on-  
ly wish to play on a percentage basis.  
The Marathon manager, Joe Page,  
has started signing on his men and  
last night Wm. Riley was the first  
man to sign.

In getting Riley, the local manage-  
ment are procuring the services of  
one of the best fielders that St. John  
has ever turned out.

## WITH THE BOWLING LEAGUES

There was a double header in the City league on Black's alleys last night between the Insurance and Y. M. C. A. team. In the first game the Y. M. C. A. took three points and the Insurance one. In the second game the Insurance team won three points and the Y. M. C. A. one. The scores were as follows:

Insurance.			
Machum	76	102	77
Gregory	59	71	77
Morse	77	96	84
Cosman	74	81	82
Gilmour	78	84	81
394 434 401 1229			

Y. M. C. A.			
Eatey	89	86	80
Bent	84	91	94
Jack	74	75	87
Jackson	105	76	90
Scott	110	83	78
462 416 429 1307			

Insurance.			
Machum	74	95	84
Gregory	82	86	88
Morse	85	103	86
Jackson	64	89	83
Gilmour	70	79	82
375 452 422 1249			

Y. M. C. A.			
Eatey	85	87	83
Bent	87	83	83
Jack	89	82	82
Jackson	82	80	79
Scott	78	83	82
399 412 419 1230			

The game tonight in the Commercial league will be T. McAVITY and Sons vs. Waterbury and Rising.

## WOODSTOCK WILL HAVE BALL TEAM

Special to The Standard.  
Woodstock, April 18.—A large number of baseball fans met last night with Geo. E. Balmann in the chair and C. M. Augherton secretary. The outlook for a professional team here is very bright. Several of last season's players will likely be here this summer, including Urquhart, Black, Poley, Wessinger, Haquet and McMahon. Delegates from Woodstock will attend the meeting to form a league to be called by Joe Page and if the 60 and 40 per cent. rate receipts proposition goes through upon the report of the delegates the association will likely enter the league again. In the meantime the fans here are promoting a lottery on a piano and making arrangements for a ball match between local teams, and a horse race on May 24th when the lottery will be drawn. An excursion will be run to Grand Falls for the benefit of the ball team.

**Medium.**  
Latham, Terran, Gore, Dalrymple, Tom Daly, Griffith, Van Halgren, Hamilton, Childs, McGuire, Jennings, George Davis, Stenzel, Jack Doyle, Lowe, Brodie, Elmer, Smith, Solbach, Fred Clarke, Tenney, Fielder Jones, J. Collins, Chick Stahl, Mercer, Flick, Beaumont, Donlin, Cobb.

### Little.

Lave Cross, Duffy, Holliday, Bur-  
kett, McGraw, R. Thomas, Keeler.  
Anybody to look at McGraw now with his 185 pounds, might not think he was a wisp of a youth when he played, but he was. He didn't have so much muscle to put behind a drive, but he could step in, meet the ball squarely and send it mighty hard for a little man. Burkett and Cross were big little men, short but sturdy in build, as was Duffy. Thomas was not particularly short in stature, but below the medium and of slender build. Keeler was well built, but a midget as ball players go.

Of the mediums, Gore and Duffy and Daly might have been heavy enough to go into the big brigade, also McGuire. Billy Hamilton was broadly and solidly built, but short. Latham leaned more toward smallness than bigness.

Tienan was of goodly height but slim and snappy, and Dalrymple fairly ball, but spare in build. Griffin and Childs were of the rolypoly type and Van Halgren slender. Davis, Jennings, Tom Daly, Brodie, Selbach, Jimmy Collins, Nick and Beaumont were all muscularly made. Lowe rather slight and Clarke and Jones trim and medium. Donlin is of medium to tall stature.

Of the Gollaths, Anson, the noblest slinger of them all, a hard straight away hitter, was of big frame, big stature, powerful and solid. Others of general physical bigness of prominence, eye filling bulk were Roger Connor, Dan Brothers, Ted Larkin, Jake Beckley, George Lachance and Sam Crawford. Chance is a big fellow, but does not bulk quite as large as these. Sam Thompson, Pete Browning and Harry Stover were tall and rawboned types—big frames, but spare of flesh.

### BASEBALL NOTES.

**Bad Bill Suspended.**  
New York, April 18.—President Lynch of the National league today suspended Manager William Dahlen of Brooklyn for three days because he had protested last Saturday's game over a decision by one of the umpires.

### Davidson to Omaha.

Brooklyn, N. Y., April 18.—The Brooklyn club today released Outfielder Davidson to the Omaha club of the Western league.

### Old Player Dead.

Terre Haute, April 18.—"Ace" Stewart, once a member of the Chicago National league baseball club and a native of Terre Haute, died here today aged 43.

### Shiloh's Cure

quickly stops cough, cures cold, breaks the throat out, cures, etc. 25 cents

## WIGMORE FOR COMMISSIONER

Mr. Voters:

Do you want to use your ballot on Tuesday next so that you will be a real benefit to St. John or is it your intention to go to the polls blindly and vote to place four men in control of civic affairs who have never had experience in public life and of whose capability there is grave doubt?

Rupert W. Wigmore is in the field for election as commissioner and he has shown he can make good. He has certain plans for the improvement of the water service which make it most important that he should be returned at the head of the poll.

LET WIGMORE FINISH HIS WORK.

## THE MAN WHO WILL MAKE GOOD

## ELECTORS OF ST. JOHN

Ladies and Gentlemen:

I tender to you my sincere thanks for the generous support given me in the primary election, and trust that I may continue to merit your support in the final election of April 23rd.

H. R. McLellan

## CARD OF THANKS

I desire to thank the ladies and gentlemen electors of St. John for the generous measure of support tendered me in the preliminary contest, and to solicit from them their further support in the approaching final election.

JAMES H. FRINK

## THE NEW ZEALAND CHAMPS

New York, N. Y., April 18.—Details of the Victorian and New Zealand athletic championships are at hand and some of the performances are most noteworthy. In the Victorian games at Melbourne, W. Murray made a new world's record in the mile walk, lowering George Goulding's mark of 6m 28s to 6m 22.4s. The track was re-measured and officially pronounced correct. Russell Watson won the 880 in 1m 56.3-10s and J. D. Davis did the high hurdles in 17.5-5s, but the course was slightly downhill.

The New Zealand championships were contested under adverse conditions so that all records were only ordinary.
