When I heard of any girl suffering as I did I tell them how Lydia E. Pinkham's Vegetable Compound helped me.

BEULAH MARTIN, 29 Bowers St., Nashua, N. H.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, therefore is a perfectly safe remedy to give your daughter, who suffers from such painful periods as did Miss Martin.

The reason so many girls write Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice, is because from their 40 years experience they have a store of knowledge which is invariably helpful.

## A Well Known Trade Mark and What is Back of It.

MOST Canadians will instantly recognize our trade mark as standing for certain standards of quality in shoes. But what is back of it? Why should it be so generally accepted as a sufficient guarantee of good value? Let us see—

In the first place, there is back of it by far the largest shoe manufacturing organization in Canada, who assures far beyond those of any other, and greater buying power in the material markets. But that is not all. Important as those things are, they are not the most important. For back of the trade mark there is something else which we could not escape if we would: an obligation to keep faith with the public.

The manufacturer of unbranded goods assumes no responsibility for them after they leave his factory. The manufacturer of trade marked goods assumes an obligation which lasts clear through to the last day of their use. The trade mark puts him

under bonds, as it were, to maintain the quality of his product, or lose his reputation. And the higher his reputation becomes, the heavier his responsibility grows. *Noblesse oblige.*

That is what is back of the A.H.M. trade mark. That is why we ask you to look for the manufacturer's trade mark on the shoes you buy.

We have prepared a booklet entitled "How to Buy Shoes." May we send you a copy with our compliments? Please address our head office at Montreal.

# Canadian Candy and Chocolate

IN recent years, it has been demonstrated to the world that in most lines of manufacture the Canadian product is equal to, and in many, superior to foreign-made goods.

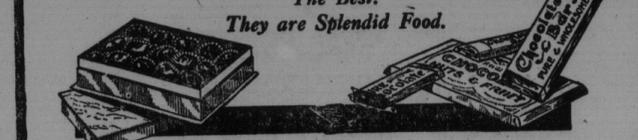

In the manufacture of candy and chocolate, Canada is at the top. The Pure Food Laws guarantee a wholesome product, while skill in manufacture has produced a quality and deliciousness unequalled in any country.

Within the last few months a tremendous demand for Canadian candy and chocolate has grown up in England and Europe. The large supplies sent to our men overseas during the war gave to many Europeans their first opportunity of appreciating the high qualities which the Canadian product possesses. European merchants and candy lovers are now clamoring for Canadian candies.

There may be some Canadians who do not realize that the most wholesome and delicious candy and chocolate are made here at home—but this is true.

You can eat Canadian-made candy and chocolate with assurance of their high quality and wholesomeness.
