BUOYANT, VARIED DEALINGS MARK MARKET'S OPENING

Bethlehem Steel and Rail Equipments Showed Decided Advances on Monday's Trade.

New York, July 14.—The week on the stock exchange opened with a continuation of last week's buoyant and varied dealings, further heavy buying resulting from the large accumulation of orders over the recess. Again the movement appeared to be predicted on easy financial conditions and the numerous optimistic surveys and opinions from various sections of the country, these being tempered in a measure, however, by indications of further crop deterioration.

Last week's bank statement probably was an added factor with its increase of excess reserves. Full money held for most of the session at 6 to 6 1/2 per cent, but the rate for all industrials rose to ten per cent, just before the close, even 12 being paid for small loans.

Western and southwestern speculative interests were credited with the much of the new buying, which concentrated to an unwarranted extent in equipments comprehending the steel and iron shares and motors and their specialties. Leaders of the movement, which lost little of its vigor despite extensive realizing for profits, included Crucible Steel at a net gain of 17 points, and Baldwin Locomotive and State Motors, each gaining ten points, with the latter at a new maximum. Bethlehem Steel, American Car, American Locomotive, Central Leather, leading Coppers and Allied Metals and several of the motor subsidiaries participated in the movement at 2 to 6 point gains, but rails were relatively backward and shipbuilding failed to retain their early gains. Sales amounted to 1,850,000 shares.

Greater weakness was displayed by sterling exchange. Francs also yielded and the general trend of foreign remittances was favorable to this country.

BRINGING UP FATHER.

THE MARKETS AT A GLANCE

Continued strength marks the grocery markets throughout the Dominion, and while price changes are few during the past week, the tendency is generally upward. Sugar supplies are being heavily drawn upon, but a shortage during the busy season is not likely. Prices for the most part are firm, with advances prevailing where changes are noted.

Toronto.

Trade in general grocery lines is very active on the Toronto market, prices holding at very strong levels, and in many cases the tendency is upward rather than downward. Wholesalers, however, state that they now saw business so good as it is just now. The movement in all staple goods is very heavy. There does not seem to be any shortage of sugar this summer, although heavy demands are being made on supplies. Some of the refineries are behind in deliveries, but there is no shortage of raw sugar. Prices are very firm, but dealers do not look for any advance. Teas and coffees continue to show firmness. Coffee on spot are a cent per pound higher this week. Record figures have been reached in future trading, and the likelihood is that the market will get stronger instead of weaker. The possibility of new business from Germany and Austria is having a stimulating influence. Teas are very high at primary points, and new buying is being done. The new pack of pens is shown in prices this week. Supplies are very light among the dealers, and stocks are of rather poor quality. There is little hope of an early improvement.

All canned goods are selling well, salmon being in particularly heavy demand. Prices are firm. Canned vegetables and fruits are pretty well cleaned up. The new pack of pens should be available shortly, but prices have not as yet been named on them. Dried fruits are light in supply, and the demand is not quite so heavy as a few weeks ago. New fruits and vegetables are selling briskly, and are arriving in plentiful quantities. Some berries are almost through and rasp-

berries are coming forward in fairly heavy shipments. In produce and provision lines, prices are firm to stronger. Hams and bacon are steady, while fresh meats are holding at firm figures. Cooked meats show advances of from two to three cents per pound. There continues a very heavy demand for the same. Butter is firm, and eggs are slightly higher.

Winnipeg.

The culmination of the strike has not brought the expected downward tendency in prices into line with Eastern and United States markets. Instead, the tendency seems to be over upward. Fruit jars and lantern globes have advanced this week. Hot weather has resulted in a sharp advance in lemons. Oranges are up \$1.50 per case. Canned goods are almost impossible to obtain at first hand and dried fruits are being rapidly cleaned up. Coffee has reached the highest point in its history. Cereals have a strong upward tendency. Cereals have advanced, though flour and feeds are steady.

Montreal.

Prices steadily show a decided tendency to increase and this week is no exception in its quota of revised, higher quotations. Cotton rope, bed cord and twines are advanced 5c. per pound. More varieties of rope are changed, and this means increase. Carnation milk has been advanced in price. Hops, rosin, raw crystal sugar are all up in price. In the grain market there has been a manifest increase and the undertone at this writing is particularly strong. Among the items that show a great deal of firmness is rice is prominent and there are likely to be increases still in this market. Nuts are firm and such dried goods as are available. Canned goods are steadily held. Maple sugar and syrup are firming in price. Cream of tartar is very scarce and high. The flour market is dull and millers are reporting little business. New honey has arrived on the market. Declines are made for extracts, vegetables and fruits are ruling with an easier tone, but are still higher.

Will You Be a Partner In Canada's Leading Industry?

Did you ever know before that the Pulp and Paper Industry is the largest in Canada? Did you know that more capital is invested in this line of enterprise than in any other in the Dominion? Are you surprised to know that in 19 years, Canada's exports of Pulp and Paper have increased from \$120,000 to \$100,000,000? And, back of all this tremendous business increase is the certainty that the industry is only beginning. The world will soon be looking to Canada for its Pulp and Paper.

With the immense forests of pulpwood, which is one of Canada's richest endowments, specially abundant in Nova Scotia, New Brunswick and other parts of the Maritime Provinces, every assurance is given that this industry is not only permanent but will wonderfully increase in volume and in profits.

Clarke Bros. Limited

This Company has been doing a prosperous business for over 40 years. They own 40,000 acres of timber and pulpwood land, and, in addition, have available at low cost 10,000,000 cords of wood.
