Gagetown

Gagetown, Dec. 12.—On Wednesday afternoon in the Temperance Hall, the Women's Aid of St. John's Church held a most successful sale, the proceeds of which will be in the vicinity of \$200, and will complete payment on the furnace in the rectory. This was the first sale which the Aid has held for some time, and a number of new features were introduced. At the White Elephant Table were various pieces of china, bric-a-brac, and other articles which had lost their charm for their owners, but looked good to some one else, also a fine selection of popular books which were soon picked up.

The Linen Table contained some beautiful and artistic pieces of work; at the Food Table was choice home-cooking. An interesting addition to the Novelty Table was a collection of Chinese charms, jewellery and embroidery sent from China by Miss Ruby Peters, which arrived on the morning of the sale; other odd and pretty articles were to be found at this table. The Baby Table was also most dainty and attractive, while the Apron Table proved its popularity by being sold out early in the afternoon. Afternoon tea was served at small tables prettily decorated with paper flowers. Much credit for the success of the affair is due to Mrs. J. A. Casswell, president of the Women's Aid, as well as to those in charge of the various tables, which included Mrs. William Weston, Mrs. R. Harvey Weston, Mrs. R. R. Reid, the Misses Dingee, Mrs. N. H. Cox, Mrs. John Law, Mrs. James Barnett, Mrs. John R. Dunn, Mrs. J. S. Sunderland, Mrs. Harry Fishes, Mrs. Geo. Hubbard, Mrs. G. P. Rigby, Mrs. Wm. C. Belyea, Miss Grace Gilbert, the Misses Dickie, Miss Laurie Law, Miss Pearl Peters, Miss Frances Casswell, Miss Molly Oddy, Mrs. Geraldine Corey, Miss Given Hubbard, Miss Gladys Vail.

The monthly meeting of the Women's Institute which was held on Thursday evening at the home of Mrs. G. P. Rigby, was a most enjoyable one. Mrs. H. B. Bridges presided, and after the business of the evening had been disposed of, called on the evening's committee for their program, the theme of which was Christmas.

Mrs. Donald A. Adamson read a very fine and thoughtful paper on "The

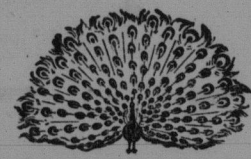

When the Tongue is Pleased the Mind is Satisfied

THE most difficult thing to set down in words is the description of a taste, because there is no word to describe taste but taste. So, when talking about the taste of Chocolates, the only way to stimulate the sensation you enjoy from eating them, is to tell you that they are luscious, or satisfying, or delicious, or that they flatter the palate, or that they have such and such a flavour.

But you cannot get real conviction about the "quality of taste" in Neilson's Chocolates except by tasting the Chocolates themselves. So we want you to go to your Druggist or Confectioner and buy a box.

Don't eat them hurriedly. Consider each piece carefully. Open a few pieces. Let your palate linger over the flavour of the coatings, the fruit, cream and nut fillings, and the blended flavour of the fillings and coatings together.

If you will do this and eat, as confectioners say, "with appreciation," you will get a remarkable quality of enjoyment from your purchase of

The weather has had some remarkable changes during the past few days. On Thursday last, early in the morning the thermometer stood at ten below zero, while the following day was comparatively mild. On Wednesday of this week rain fell heavily during the greater part of the day, until late afternoon when the weather abruptly changed to a biting north wind, which blew so heavily during the night and the following day, that many believed the "seventeenth" had arrived a little ahead of schedule. Today double teams crossed the river from Jemseg for the first time, though crossing on foot has been good for over a week.

Every Dollar Goes For Service

The people of this Province demand of the New Brunswick Telephone Company the best possible telephone service. The one endeavor of the Company—is only reason for existing—is to give the best possible service.

Every dollar the New Brunswick Telephone Company receives goes to provide telephone service.

Its entire receipts are expended on operation, up-keep and development. More than half goes directly to labor.

The remainder is expended for material, for the maintenance of plant and equipment, for the interest on money borrowed, for dividends on the investments of hundreds of shareholders, and for the payment of taxes assessed by public authorities.

In its last analysis the telephone money goes for wages—wages for labor and wages for the necessary capital which investors have put to work in the telephone system.

The telephone management is the agent of the public. It is entrusted with the task of providing the quality of service the intelligent public demands.

The wages of loyal, well-trained employees, and the wages of the capital that provide the finest mechanical equipment and most efficient operation must be paid. As the public servant, one duty of the telephone management is to obtain rates sufficient to pay these necessities of service.
