

RULES FOR THE TREATMENT OF THEIR VISITORS

Japanese Society Gives Advice on Social Intercourse.

WANTS TO ABOLISH GEISHA DANCING

Suggestions Might be Adopted With Profit in Other Countries as Well.

(Copyright, 1920, By Public Ledger.)
Tokio, Dec. 6.—With the object of creating a good impression on foreign visitors, as well as the hope that it may prove an aid in furthering friendship with other nations, the Japanese Geisha Society has recently issued a set of rules, governing social intercourse with the stranger within their gates.

The "do's" and "don'ts" enumerated in this formula are interesting, some of which—certainly the first—might be adopted, not without profit, in countries of western civilization.

To cause foreigners to cherish good feelings towards our country is a very valuable thing for the friendship between Japan and other nations, says the foreword to the rules of conduct.

"Here we point out a few points in regard to conduct toward foreigners which every Japanese should know:

(a) In the first place, we should pay due respect to them as visitors to our country and should treat them courteously and with kindly sympathy and make them feel safe and happy while they are here. We should remember that they are in a strange country and that most of them are unable to speak our language.

(b) We should be very careful not to follow after strangers when any of them happen to pass and not to form a big crowd around them in the street or when they are making a purchase at a shop.

Give Your Seat on Train.

(c) Always give your seat if you meet them on the train or tram, and take special care of your action toward them. If you find any of them inquiring after a street or a house, kindly offer your assistance.

(d) Exhibiting the naked body in public is extremely rude, but the people seem not to realize it and often thus offend foreigners, who conclude that we Japanese are barbarians. In the past many misunderstandings have arisen from such little things. We cannot avoid all such details until the reformation of the Japanese kimono takes place, but we should give strict attention to the subject.

(e) Not a few people take advantage of foreigners and make them pay an unreasonable price for goods and services. This is a disgrace to the nation. The practice should be abolished of making different charges for foreigners and Japanese for automobiles, hotel accommodations or other things.

(f) Foreign visitors, unable to speak Japanese, add to the difficulties of our country. Their manners and customs are much different from what they are here, often go home with superficial knowledge and great misconceptions. We should do our best to give them an opportunity to meet intelligent classes and to visit homes of better class Japanese. We should be especially careful to show kindness to Chinese students, for many of them go home with bitter experiences of cheap boarding house living and the clothing of low class people.

(g) It is common to provide go-bai-da and geta-da to entertain and serve food at reception, given for foreign visitors, but this kind of thing cannot be seen in any other country of the world, and it brings no result but only misunderstanding and it is a waste of money. We should be completely given up at future receptions.

Learn to Know English.

(h) A poor knowledge of English leads to backwardness which is interpreted as indifference, it is necessary for the Japanese to make a firm advance in knowledge of English and, more important, to cultivate the spirit of sociability and learn the art of being pleasant company.

(i) Hereafter many prominent things have been overlooked through carelessness or ignorance, which has brought many misunderstandings to our country. Strict watch should be given and no opportunity should be lost of giving a cordial welcome to prominent visitors, whether they are on missions for their governments or on private tours."

HONOR MEMORY OF "SAVIOUR OF WARSAW"

Poles to Erect Monument to Father Skarupa, Heroic Army Chaplain.

Warsaw, Dec. 6.—The Poles are erecting a monument to the hero of the battle of Warsaw, who saved the city from the hands of the Germans. The monument is to be erected in the city of Warsaw, where the hero was killed. The hero was a Polish army chaplain named "The Saviour of Warsaw."

It was Father Skarupa who led the first successful charge which turned the tide when the Red Army was at the gates of Warsaw on August 15. He fell before the bullets of the German machine guns. From that moment the Red retreat began.

Father Skarupa, who was only 27 years of age, was a former Boy Scout and Scoutmaster, and was an active Red Cross worker before going to the front. He took particular interest in the organization of the Junior Red Cross in Poland, and was introduced here by the American Red Cross. Among the men of his regiment, many of whom were either his schoolmates or friends of the school in which he was a teacher, he was well known. Today his name is revered by all Poles. A competition among the leading centers of the country will be held to choose the design of the monument.

CONSCRIPTION OF LABOR AROUSES MUCH HOSTILITY

All Germany Aroused Over the Proposition—One Million Unemployed There.

Berlin, Dec. 6.—Conscription of labor to increase production in Germany, a law for which the government would apply to girls and women as well as men and boys, all of whom would be compelled to render a year of service in mines, factories, on farms, in hospitals, or wherever the state directed.

The proposal, credited to Matthias Erzberger, former Minister of Finance, has become the storm center of a discussion which has run the scale from invective and threat to ridicule, and now with the law nearing completion, its proponents have made it apparent they will seek with deadly earnestness to force its passage through the Reichstag.

On the other hand the opponents of the measure, including the powerful socialist faction, have declared they will oppose the passage with every means at hand and should the bill will later seek to violate the legislation.

Herr Erzberger's plan is to supplement the tax laws he has already succeeded in passing with a measure that would compel increased production, result in a consequent increase in collectable taxes and so tend toward helping Germany pay her debts.

Capitalistic Scheme.

The socialists say the measure is a "capitalistic scheme" aimed at the working classes, who could derive no benefit at all from compulsory labor. They further point out that it probably could not be generally enforced and back up this statement with the argument that many of Erzberger's present laws have never been enforced, and no attempt has been made to enforce them.

While the law was intended primarily to affect the wage-earners, it has, it is understood, during the drafting process been extended until it would apply to virtually every person in Germany, in one form or another, as an effort to bring industrial as well as agricultural production to its highest efficiency. However, the form in which it eventually may be submitted may be radically modified owing to the intense opposition.

In proposing and supporting the law, Erzberger is said to have had principally in view the effect of conscripted labor in the coal and timber lands.

One Million Unemployed.

The fact that there is now nearly 1,000,000 unemployed persons in Germany and that many factories have been closed is pointed to by labor leaders and some legislators as proof that such a law is a "chimerical proposition" and could have no appreciable effect. They also assert it would be expensive and would mean the establishment of a colossal government machinery to direct its enforcement.

Among prominent parliamentary leaders who have come out in opposition to the law are Philipp Scheidemann, leader of the Majority Socialists; Georg Gotha, economic expert and leader of the Democratic party; and Bernhard Dernburg, former Finance Minister.

GERMANY TO RETURN RAILWAYS TO OWNERS

State Control Proves Big Financial Failure—Deficit of \$300,000,000 for Year.

(Copyright, 1920, by Cross-Atlantic.)
Berlin, Dec. 6.—The German government has decided to denationalize the railways as a result of the tremendous losses from state operation. While most of the state activities are being run at a loss the railways are now expected to create a deficit of three hundred million dollars in the current year.

All political parties agree that state management is a failure and a commission has been appointed to consider the best method of future control. It seems probable that a council composed of representatives of State, Chambers of Commerce, and Trades Union, will be created to determine the general policy, but the little doubt the management will be in the hands of business men strong enough to end the calculated waste of labor leaders and repeated stoppages on frivolous pretenses.

TORPID LIVER FOR OVER 4 MONTHS

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

When the liver becomes lazy, slow or torpid it is not working properly, and does not supply sufficient bile to thoroughly cleanse the blood and carry off the waste products of the system, hence the bowels become clogged, the bile gets into the blood, congestion sets in and liver troubles follow.

Millburn's Lax-Liver Pills quickly remove the obstructions, clear away the waste and enable the liver to carry off the waste products of the system, hence the bowels become clogged, the bile gets into the blood, congestion sets in and liver troubles follow.

Mrs. Alice Moffat, Napawa, Ont. writes:—"I was very badly run down and had a torpid liver for four months. I tried several remedies, but got no relief. One day my husband brought me home a box of Millburn's Lax-Liver Pills, and before I had used half of it I was much better. I only used two pills, and I am a different person today. I can easily recommend Millburn's Lax-Liver Pills to any one troubled with liver troubles."

Millburn's Lax-Liver Pills are 25c. and all druggists or mail order stores will send you a sample of pills for free. Write to Dr. J. B. Millburn, Ltd., Limited, Toronto, Ont.

There are several ways

of using "commonplace tea", but the cheapest and best way is to "Junk It", then you will readily realize what it has cost you and determine to never again use any but

"SALADA"

The one Tea with a continent-wide reputation

BUY YOUR BOTTLE OF COAL ON WAY HOME

Englishman Invents New Fuel Which He Claims is Cheaper Than Coal.

(Copyright, 1920, by Cross-Atlantic.)
London, Dec. 6.—Coal may in future be bought by the bottle. A liquid form of the fuel has been invented by G. C. Calvert, of Twickenham, who calls it "Colloid." It is made from a mixture of about sixty per cent coal dust and forty per cent crude fuel oil residue.

The experiments I have now completed," said Mr. Calvert, "were undertaken primarily with the object of finding commercial uses for the enormous quantities of dust which are too small to use for briquettes or stoking."

"It is officially estimated that there are over a million tons of these surplus fuels lying idle in this country alone, and in normal times the production is as much as 30,000 or 40,000 tons a week.

"Colloid" is made by mixing oil and coal dust in a small machine, just as one might mix flour and water.

"I am satisfied that by using 'Colloid' is any plant at present burning residual oil economies to the extent of thirty per cent can be achieved."

TOBACCO MERCHANTS OF ENGLAND COMBINE

Will Fight Attempt of Americans to Control English Market.

By SYDNEY B. CAVE.
(Copyright, 1920, by Cross-Atlantic.)
London, Dec. 6.—A new British tobacco combination is forming to fight the attempt of the American Tobacco Company to dominate the British market. It is known as "The Tobacco-Liver Pills, One pill a dose."

It is a plan at present burning residual oil economies to the extent of thirty per cent can be achieved."

TOYS! GAMES! DOLLS!
