POOR DOCUMENT

APID SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, FEBRUARY 10, 1901.

ROUND THE TOWN.

Bright little bits which illustrate the many sides of human life

Modest virtue had been trampled be Modest virtue had been trampled beneath his ruthles feet. It was uncomfortably observable that his serpentine wile was surely triumphing over the pitiful efforts of the dove-like heroine. She, poor praceuted maiden, was in sore perplexity. With head bowed in anguish she bemoaned the accursed fate that had consigned her into the horrid power of so vile a being as the man who had foiled her again and again, and who, in his petty victories, had jeered and taunted.

"Oh that I might die and be at peace," she softly wailed, wringing her milk-white hands, and looking appealingly across the footlights.

villian glided up, and with a ghoul-ugh, stood over her. cowered, and besought him to slay

her:

"Nay, nay," he blithely replied," "'tis meet that ye should live," and he gave her a stinging slap on the shoulder.

For a moment there was tense silence—then it was disturbed by a voice from the shadowy audience. It was a woman's voice, and her words were measured, and almost tearfully indignant.

She said:

In view of the approaching election it may not be out of place to repeat what was told me by a hardened campaigner, respecting rival candidates.

One was slim, amart and sour. The other was ponderous in mind and stature, but an able opponent, withal.

It was in the days when political controversy frequently waxed embarrassing. Criticism was painfully pointed, and aspirants for position of public trust were not above descending to expressions more notable for force than eloquence.

date, as he glowered upon his diminutive rival, "I could eat you."
"Perhaps so," briskly came the rejoinder, "but if you did, Colonel, you'd have a sight more brains in your stomach than you've got in your head."

ation (otherwise known as as a gentle-man connected with the press), was des-patched to vi it and report upon the fire escape facilities in the public school.

The assignment was believed to be timely, for the shadow of the Iroquois theatre horror had not lifted, and there existed in the public mind the haunting con-

The play at the Opera House had proressed to the third act, and the hellish
ranks of the villian were becoming more
and more unbegrable.

He had sneered and mocked, and gloried
to his masterly violation of the bulk of

the marble heater, and gazed after the retiring stranger, mysteriously.

It was an odd circumstance, truly.

For ten minutes the man had been walking nervously about the depot. Something appeared to be seriously troubling him. He was a tall and refined appearing person. He was dressed in good taste, and had the unmistakable bearing of a

At a recent session of the county municipality in the northern part of the province, a speaker, in an impassioned burst of oratory, aired his views in respect to county finances, thus:

"Let me tell you, gentlemen,—and I know what 'Im talking about—let me tell you that at the end of the physical year, this county was in debt. The treasury was empty."

He meant fiscal, I suppose.

CHATTERER.

PERSONAL INTELLIGENCE.

Mrs. H. H. McLean gave a very pretty and deinty luncheon on Tuesday afternoon in honor of Miss Mollie Girvan. Covern were laid for twenty young people. The fibral decorations were green and white white carnations, hyacinths, asparagus, ferns and smilax.

are the ladies who assisted: Mrs. James Harding, Mrs. Skinner, Miss Tuck, Miss Lou McMillan, Miss Holden, Miss McLaren.

Mrs. G. West Jones entertained the Bridge Whist Club on Wednesday evening.

The of the society events of next week will be a fancy dress skating party at the Queens' rink, to be given by the Neptune Rowing Club on Friday evening. The chaperones and judges are Mrs. F. E. Hanington, Mrs. G. West Jones, Mrs. John II. Thomson and Mrs. R. Keltie Jones.

One of the functions of this week was a luncheon given by Mrs. James Manheon given by Mrs. James Man At the golf links on Saturday night a arewell dinner was given to Lieut. C. W. Weldon McLean. It was a very pleasant

A very pleasant sleighing party was held on last Friday evening, given by W. E. Stavert, G. West Jones, James Jack and Dr. T. D. Walker, to about thirty of their friends, including several strangers visiting the city. The party left the city at 6 ing the city and drove out to Newcombe's, o'clock and drove out to Newcombe's Torryburn, where dinner was served. The remainder of the evening was spent in

first tea on Tuesday afternoon to her many friends. The rooms were very prettily prospering in spite of dull trade in other industries.

OBITUARY.

Springfield, Kings county, Feb. 4.—On February 2nd James Kellier, a respected citizen of Springfield, Kings county, (N. B.), died, aged 85 years.

The funeral service was held in Trinity church on 4th inst. and owing to the illness of the parish rector was attended by the Rev. Mr. Neales, of Sussex.

Mr. Kellier was born in the county of
Kerry, Ireland, and came with his parents
and other members of the family to this

sciousness that a repetition of the western holacaust might occur wherever him manity congregated under one roof.

The first school insepected was in the North End—and here's what transpired. It was about a half hour before dismissal. Along the empty corridors there rested that odor peculiar to schools, and to the sudden intruder, there came the sense of unseen, but near industry.

The scribe ascended to the top floor—the wished to interview the principal—and on gaining the summit beheld the door of a room which he rightly judged was that of the chief's.

From within came the drone of diligent application. He rapped, but there was no response—knocked again, but was unable to make himself heard. Fixed in the wall close to the door knob was a neat ivory bub—an electric bell to be sure. How dense, not to have observed it before!

The reporter pressed it, and lo from the second story, rang a mighty clang.

From all portions of the building came the sound of vague but hurried preparation. There were faint commands and the measured tread of feet. The door effew open, and the principal emerged at the double. An explanation was in order, for the scribe in his innocence had sent in the fire alarm, and thus unconsecuted by the principal emerged at the double. An explanation was in order, for the scribe in his innocence had sent in the fire alarm, and thus unconsecuted by the principal emerged at the double. Samuel H. Gösline.

James H. Gosline, of the west side, ye ing person. He was dressed in good taste, and had the anmistakable bearing of a gentleman.

Twice, he entered the waiting room, but promptly reappeared to resume his uncertain patrol of the station interior. At last, he approached the officer with a certain timidity of manner.

"Do you," he asked, and his language was in perfect keeping with his appearance, "Do you permit people to remain all night in the waiting room?"

"No, it's against the rules."

The unknown turned away, and walkde slowly to the street.

Former Police Sergeant John B. Owens

Elliott Row after an liness of long dura-tion. A few years ago Sergt. Owens was compelled by ill health to resign from his position on the police force, with which he had been connected for some thirty years. For some time since his resignation he has not been active and during the last three months was a great sufferer, but bearing all with fortitude. In his career as a patrolman, and afterwards as a ser-geant, he served with distinction and left geant, he served with distinction and letter an honorable and enviable record. More than six feet in height and solid as a rock, Sergt Owens in his younger days was a man well able to hold his own in the circumstances which often attend the occupation to which his time was devoted. But pation to which his time was devoted. But his official acts were tempered by a charac-ter which had much of mildness and good nature in it and, while he always did his duty, he did it in such a way that he made no enemies and lost no friends. When told of his death, Chief Clark expressed his regret and spoke of the deceased as one who had been an excellent police of-ficer.

Sergt. Owens is survived by his wife and ten children. The sons are E. G., with Macaulay Bros. & Co.; James P., Charles F., in Boston; also five daughters, all in the city. The family will have the sym-pathy of very many in their bereavement.

Mrs. Aiken McFarlain,

Sussex, Feb. 5.—Mary E., wife of Aiken McFarlain, died yesterday evening at her home at Ward's Creek. She has been in poor health for some time and was prostrated with pneumonia two weeks ago She leaves husband and three children. The funeral will take place Saturday at 10 o'clock a. m. Interment at Mark-

what is known as nervous prostration from which he suffered frequently since and which left him in a very weakened state, and finally brought his life to close. Mr. Coffin was 64 years of age, was a well known and greatly respected citizen. He was a native of this province having been engaged in shipping and the retail grocery business for about thirty years. Besides a widow, five children are left to mourn, viz., Mrs. (Rev.) J. M. McInnis in California, Florence at home, Dr. J. D. Coffin, in New Brunswick, Robert, attending college, in California Robert, attending college in California and Ernest at home.—Charlottetown Pa-

Thomas M. Mulherrin.

A youth well-known to local anglers and one who was at all times obliging and courteous, died at his home, New River, Charlotte county, last week, in the person of Thomas M. Mulherrin. Burial took place Sunday at St. George, and among those who attended the obsequies was G. T. Black, of North End, who, with many other enthusiastic fishermen, had frequently enjoyed the company of the deceased. Young Mr. Mulherrin was attacked with brain fever some time ago and this was the direct cause of his death. He was an only child of the genial "fisherman's friend," at New Pirer, and an honestly friend" at New River, and an honestly good lad. When the angling season comes round again the obliging youth's absence will be very noticeable to visitors. His father, mother, two sisters and two brothupon the coffin, as it lay in the bereaved home, was a large cross of roses and car-nations from North End frequenters of the New River fishing haunts.

Thomas S. Whitman.

Annapolis, N. S., Feb. 8—This community was shocked on Saturday morning when they learned of the sudden death during the night of Thomas S. Whitman, one of our most prominent and enterpris-ing citizens. He had complained on the previous evening of a feeling of distress caused by indigestion, but no serious con-sequences were apprehended, and the tid-ings of his demise have caused profound

Digby, Feb. 8—The funeral took place yesterday of the late George Roop, who died Friday, aged seventy-one years. The funeral services were conducted by Rev. J. W. Bancroft, interment taking place in the Hill Grove cemetery. The deceased is survived by a widow and an adopted daughter. Mr. Roop's life had been an interesting one. He was born within a mile of his farm, on which he died. In the year 1849 when only sixteen years of age, he was attracted to California by the gold excitement which prevailed. He traveled across the continent before the days of railroading, and rode the entire distance in the old stage coach behind horses. In the west he made and lost several for-fail to see that it is a greater evil to die fair one of the coarse part of the uninformed, but we fail to see that it is a greater evil to die fair one of the character of the west he made and lost several for-fail to see that it is a greater evil to die fair one of the character of the west he made and lost several for-fail to see that it is a greater evil to die fair one of the character of the character of the continent before the days of railroading, and rode the entire distance in the old stage coach behind horses.

In the west he made and lost several for-fail to see that it is a greater evil to die fair one of the uninformed, but we fail to see that it is a greater evil to die fair one of the uninformed of the most generally used, to the relief of a large fair of the uninformed of the commendation."

Diarrhcea, Dysentery, C. Asthur D. Bevan, the medical profession of the Chicago, recently made the following statement at a meeting of the Chicago of the Ch In the west he made and lost several for-tunes while mining, ranching and specu-lating. He returned home twenty years later, broken down, caused by exposure, traveling, etc. He had enough means, however, to support himself comfortably the remainder of his days. He owned at the time of his death one of the best farms in Acaciaville. He had many friends, who will regret to hear of his death.

Mrs. Peter Timmies. Fredericton, Feb. 8-Mrs. Timmins, relict of Peter Timmins, of Springfield, died yesterday at the home of her son Councillor J. T. Timmins, at that place Councillor J. T. aged eighty-six,

LETTERS TO THE EDITOR.

The Shad Industry.

To the Editor of The Telegraph:-

dine herring, it being claimed that by so doing the regular herring fisheries are being ruined.

What about the shad industry? Would it not be well to take up the spring catching of the "roe" shad.

It is simply scandalous that our government allows these "roe" shad to be taken before they have had a chance to deposit their spawn. As a result of this catching of these breeders of their species on the shad industry in the upper waters of the Bay of Fundy, where tens of thousands of barrels were taken annually in former times, now only a few hundred are caught. While every effort is made to protect the "lobster" and "herring," the shad is left uncared for and unprotected. If this state of things is allowed to go on, in a very short time they will be a fish of the past.

I would suggest, Mr. Editor, that you editorially, through your most influential paper, call the attention of the commission and government to this vital matter, that they may speedily, before it is too late, save our shad industry.

Not only should the catching of spawn shad be prevented, I believe the government should establish breeding stations, the same as for salmon—as is done in other countries. If this were done the shad industry would slike to see this matter taken up by the shad fishermen, through your valuable journal, and the question thrashed out. I am sure you will give them the opportunity.

I feel our government is willing to meet our fisheriem in any honest and practical effort that will help our people and enhance the value of our fisheries. All that is really needed is to bring the real facts to their notice.

Pre-da-Hout, Westmorland county, Feb. 2, SUPREME COURT JUDGMENTS.

Christian Science. To the Editor of The Daily Telegraph, John, N. B.:-

the full situation, will you kindly publish the following:—
Previous to Monday, both Mrs. Mc Loskey and Miss Mc Loskey were up and about and, in the main, were taking care of themselves, though they had been troubled with colds which for three days had been treated by a local Scientist, whose work was so effectual that word was sent to her on Sunday that she need not call that day.

On Monday Mrs. Mc Loskey was seriously attacked with pneumonia, and a Boston Scientist was summoned but, before he could reach her, a physician was called. When the Boston Scientist reached Lakeport Wednesday evening, the mother had passed away and the daughter was very iil. It appears that Miss Mc Loskey responded readily this treatment and was doing well prior the riourney to Boston. In her weak condition (partly due to caring for her mother she was unable to survive this unwise move It is not true that the doors of the Mc Loskey home were kept locked. On the contarry, the neighbors and relatives had fre access, and it is thought by some that there is the summer of the welfare or welfare or much commun for the welfare or much commun for the welfare or welfare or much commun for the welfare or much commun for the welfare or welfare or welfare or the welfare or the welfare or welfare or welfare or the welfare or the welfare or welfare or the missed by all in the community. His without and sister (Mrs. Twining) and six widow and sister (Mrs. Twining) and six sonsh survive him. These are Frank C. president of the Annapolis board of trade; John, the newly elected town councillor: Louis, civil engineer of Bridgetown; T. D. Wright, of Tacoma: Victor, of San Francisco, and Handfield, of Halifax.

William M. Coffin.

The death of William M. Coffin, of this city, occurred at his residence, corner of Hillsboro and Gratton streets, at noon today. Mr. Coffin had not been increasely of last week was attacked with Thursday of last week was attacked with the content of the provincial legislature and the provincial legislature and there was no irregularity in the proceedings.

Losis civil engineer of Bridgetown; T. D. Wright, of Tacoma: Victor, of San Francisco, and Handfield, of Halifax.

William M. Coffin.

The death of William M. Coffin of this insidious disease, when the best medical still has been employed, there is nothing to justify unusual comment upon this case, nor the assumption that the result would have been different had a doctor been summoned earlier. I am told that during the same week ofter smalls deaths coursed in the little of others. "Chicago Post."

Seely vs. Dalton-Judgment of Police

Scenes something similar to the above may also be seen on many of the lakes and rivers of the Canadian Northwest, especially on the great lakes of the province of Manitoba. The fish caught are, however, very different in character, and the fishery is pursued not merely for pleasure, but as a commercial enterprise. I refer to the "white fish (coregonus albus) fishery. This fish belongs to the salmon family, is of splendid flavor, and great value as a food fish. In maturity it is about thirty inches in length and weighs about ten pounds; it may be taken either in nets or by the hook and may be caught either in winter Magistrate Ritchie sustained. Connolly vs. City of St. John-Court unanimously ordered a new trial on appli-cation of the defendant. This action was brought to recover a balance alleged to be due by the city on account of dredging operations carried on by plaintiff at St. John. It was tried at St. John circuit may be taken either in nets or by the hook and may be caught either in winter or summer. This fishery in Manitoba represents a coneiderable investment of money and employs many men. The product of the fisheries being shipped as far as Minneapolis and Chicago.

My purpose in writing this letter is to suggest to the proper authorities and, indeed, anyone who might be interested, the advisability of stocking the St. John River and its tributary waters with this valu-John. It was tried at St. John circuit court and a verdict returned for plaintiff of \$6,600. The chief ground for appeal from the verdict was that the plaintiff had charged the city for dredge work when it was not in operation because of high tides. The court took the ground that under the terms of contract the city was not bound

terms of contract the city was not bound to pay for delays caused by tides. Lewin vs. Lewin—This was a special case involving the right to property to the value of about \$10,000 left by the late Mary Louise Clarke Lewin, who died intestate. Plaintiff Richard S. C. Lewin contended that the whole of the property should go to him as next of kin, while on behalf of the defendant, Margaret Lewin, it was contended that the property should advisability of stocking the St. John River and its tributary waters with this valuable fish. The fish is a prolific breeder, grows rapidly, does not prey on other species of value and would seem to be splendidly adapted to this province. With a few years protection it is only reasonable to suppose that this fish would become very plentiful in all the lakes and bays of our noble river. This being so the scenes which may be witnessed on the Kennebeccasis as sport, would be reproduced from Grand Bay to the head of Grand Lake as a great commercial enterprise. behalf of the defendant, Margaret Lewin, it was contended that the property should be divided equally between the father and mother. Judgment of court was delivered by Judge Barker in favor of the plaintiff, the chief justice dissenting and Judge McLeod took no part. Costs were ordered to be paid out of the fund in dispute.

Johnson vs. Flewelling—The chief justice delivered judgment, refusing an applitice delivered judgment. Thanking you in advance for your valuable space, I am,
Yours truly,
PESCICULITURE.

tice delivered judgment refusing an application to set aside the verdict for defen dant and a judgment for the plaintiff.

James Kay vs. City of Moncton—Judge Barker delivered judgment of court in avor of the defendant. VanBuskirk vs. Vanwart—Appeal al-

wed and non-suit entered in the court pelow with costs.

Court adjourned sine die. The following common motions were nade this morning:—
Ex parte J. Layton Ralston and Jas. S. Harquail—G. W. Allen, K. C., moves for a rule nisi calling upon Mr. Harquail, at-

torney of the supreme court, to show cause why he should not return to Messrs.

Logan, Jenks and Ralston, of Amherst, an acceptance for \$50 sent him for collection of acceptance for the proceeds: rule ion, or account for the proceeds; rule granted returnable Easter term. Ex parte Claude H. J. Knapp vs. Albert Brymer—The court being informed that the matter has been settled by the resignation of Brymer as a councillor for the parish of Perth, Victoria, the rule granted returnable today drops.
