Former Kaiser Will Be Brought to Trial

PROBABLY BELGIUM TO INSTITUTE PROCEEDINGS AGAINST THE FORMER WAR LORD AND HE WILL BE TRIED BY THE COURTS OF THAT COUNTRY.

Paris April 9.—The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments probably Belgium have been definitely determined upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an international commission assess the remaining damages for a period of 30 years, beginning May 1, 1921. Thus two of the great obstacles, which stood in the path of the rapid attainment of peace have been removed within the last 24 hours, and the period of extreme tension over the nation and the failure to secure tangible result is succeeded by revised confidence over the great advance towards a permanent settlement.

More Knotty problems.
While the tension has been greatly reduced it is not entirely removed, as much depends on the continuation of progress with respect to the remaining obstacle notably the Saar Valley, the Rhine frontier, the Adriatic issue and a number of lesser issues, which are still short of final agreement. The agreement on responsibilities for the war is understood to have been a compromise between divided reports

submitted by the commission of which Secretary Lansing is chairman. There was practical agreement on the general responsibility of the former German emperor bringing on the war, but division occurred on whether it was feasible to bring him to justice before an international tribunal.

The British and French view favored a tribunal but the American view it is understood, favored moral indictment without recourse to prosecution, owing to the lack of an international law as a basis for trial before an international court.

Belgium on which the war fell first and heaviest is reported to have taken a view much similar to that of the United States while Japan and Italy were partially in accord with the American view.

It was owing to these divergent views that the council devised a new plan whereby one of the allied nations probably Belgium would initiate prosecution against the ex-emperor and others responsible for the breach of treaties, the invasion of territory and the destruction directed against this country and leading to a more general spread of the war. The exact nature of the agreement is not disclosed, but the foregoing is believed to cover the main lines.

Germany is to pay the entire cost of the commission and staff during the 30 years of operation. The first payment is to be credited against Germany's obligation to pay for the maintenance of the allied troops in the occupied regions and the second priority is for the payment of food relief furnished to Germany.

Steamer Amherst, bearing the first group of explorers that will penetrate the wilds of the Ungava for development work, left Quebec.

Ten Entries In The Elocution Contest

The Literary Executive decided to hold the annual Elocution Contest on the evening of Friday, April 11, in order that the event might be thrown open to all friends of the contestants, as well as to all friends of the school. Another reason for making an evening affair of it is the fact that there is an unusually large number of entries—ten in all. The society presents each year a handsome gold medal to the winner, and a silver medal to the second, a very interesting contest is looked for.

The programme for the evening will be as follows—
(1) Helen Benson—Pro Patria—Wm. Henry Drummond; (2) Laura E. Turrel—John W. Jones—Holman F. Day; (3) Katharine Ross—The Road to Heaven—Geo. R. Simms; (4) Wilhelmine McKellar—As the Moon Rose—Pauline Phelps; (5) Robert Scharr—The Tar Baby—Joel Chandler Harris; (6) Winnie Sherk—The Cattle Thief—Pauline Johnson; (7) McKimley Perrin—The Ballad of the Clamphedown—Rudyard Kipling; (8) Leslie Harding—The Cremation of Sam McGee—Robert Service; (9) Arthur Dreger—De Stove-Pipe Hole—Wm. Henry Drummond; (10) Ruth Bechtel—Sowing Seeds in Dancie—Nellie McClung.
Judges—Mr. B. N. W. Grigg, of Waterloo; Miss M. Dunham, of the Public Library, Kitchener; Mr. J. A. Haysler, Waterloo.

Ontario Objects to Dominion Proposal To Place Provincial Railways Under Federal Charter.

CLAUSE IN BILL OBJECTED TO BY ATTORNEY-GENERAL BEFORE COMMONS' COMMITTEE.

OTTAWA, April 9.—When consideration of the consolidated railway bill was resumed by the special committee of the Commons to-day, Hon. J.D. Reid, minister of railways, urged that the clause, providing that railways holding provincial charters operated by companies holding Dominion charters should come under the control of the Dominion Government and the railway board, which was struck out by the Senate, should not be reinserted in the bill. He was afraid that if it were it might mean that the bill would again fail to pass this year. Dr. Reid suggested that the matter be allowed to stand.

Workers Want It.
The reinsertion of the clause is strongly favored by the Brotherhood of Railway Employees, who claim that control by the railway board would be much better for them, more particularly because of the board's authority over railway equipment and appliances.

Mr. Kilmer, on behalf of the attorney-general of Ontario, opposed the reinsertion of the clause in the bill of the ground that it would constitute an encroachment on provincial rights. The provision, he said, would affect a number

electric railways in Ontario, which for many reasons, should remain under the jurisdiction of the province.

Mr. Kilmer pointed out that the G.T.R. has running right over Temiskaming and Northern Ontario. Mr. Ross observed that although the Quebec Central Railway has been leased by the C.P.R. for 99 years, the railway boards has no jurisdiction over the road. He thought that such cases should be dealt with by special legislation, but not by a general clause covering all such railways.

The clause was allowed to stand over until next week.

Canada Exports Butter and Also Imports it

REASON FOR THIS ONE OF POINTS TO BE PROBED IN CONNECTION WITH HIGH PRICE.

Toronto April 9.—With butter round 70 cents a pound, Torontonians are naturally on the qui vive over the arrival of a Government official to investigate the cause of this abnormal price.

There are two things which are puzzling consumers in connection with the butter situation. The first is of course the high price obtaining. The second is why Ontario which produced 26,300,000 pounds of creamery butter a year, plus the large quantity made upon the farms of the province should find it necessary to bring butter from New Zealand 8,000 miles away, in order to supply the demand.

"There's a rigger in the fence somewhere," remarked a consumer to The Press.

Much imported.
There are no figures available to show the quantity of New Zealand butter being imported into Ontario but during the ten months ending January, no less than 902,532 pounds were brought into the Dominion from that colony while the total from all countries was 1,096,045 pounds.

Just exactly the quantity of butter of all kinds that is at present being made in Canada is not possible to say. The latest available figures for the creamery description show the quantity in 1917 to have been 75,122,730 pounds. The home-made in 1910 when the last census was taken, was 137,110,200 pounds. Granting for sake of argument that the quantity being produced on the farms is no larger than it was nine years ago although there was an increase of over 30 per cent between 1900 and 1910 it would mean that of creamery and dairy butter combined the Dominion is producing something like 212,232,000

pounds a year or approximately 24 pounds per capita. Add to this the quantity imported 1,215,000 pounds and we have 213,447,000.

To get at the quantity available for home consumption we must of course deduct that exported. During the ten months ending January it was 11,262,730 pounds or at the rate of 13.515,276 for the 12 months. But this is only about 6 per cent of the total produced and imported thus leaving approximately 94 per cent available for home consumption for their share of which consumers in Toronto are at present paying 70 per cents a pound and in some instances even more.

A Mother's Tribute

THIS letter from Mrs. Roberts gives such a fine idea of the value of Dr. Chase's medicines for use in the home that we shall publish it without further comment.

Mrs. Everett Roberts, 44 Endicott Ave., Halifax, N.S., writes:

"I feel it a pleasure as well as my duty to recommend Dr. Chase's Nerve Food and Ointment. After the shock of the Halifax explosion my system was all run down, and I was so weak that I could not walk. Night after night I lay awake unable to sleep. Nothing did me any good until one of my neighbors recommended Dr. Chase's Nerve Food. After a treatment of this medicine I can positively say that my health and strength have been restored, and I can now sleep well and do my work as well as ever.

"I used Dr. Chase's Ointment for my baby, who had ringworms all over his face. I tried almost everything I knew of without success until I used Dr. Chase's Ointment. This cured him in a short time. I would not be without either of these medicines in the house, and trust this may induce others to give them a trial and be convinced of their merits."

You can scarcely ask for a stronger guarantee of the value of a medicine than the trait and signature of A. W. Chase, M.D., on the box. This is for your protection against imitations and substitutes. Edmansons, Bates & Co. Ltd., Toronto.

THAT'S the result of the shave you get with an AutoStrop Razor. Its clean, sure stroke, adjustable for light or close shaving, removes the beard quickly and thoroughly, leaving the face soft and smooth.

Such comfort is possible only with an AutoStrop Razor. Why the AutoStrop Razor in particular? Because with its stropping feature there's always a sharp blade ready for use. A few turns on the strop re-aligns the saw-like edge that results from shaving; it keeps the blade free from rust; and gives you for each day's shave a keen-edged blade. You do not need to take the blade out to sharpen it, nor do you have to take the AutoStrop Razor apart to clean it.

Self-stropping, shaving and cleaning are all done without removing the blade from the razor.

Everywhere—razor, strop and 12 blades, complete for \$5.00.
