The Rev. A. Campbell, of Crathie, received the degree of D.D., at the Glasgow University graduation ceremony. He was presented by Professor Dickson, who referred to him as "Rev. Archibald Alexander Campbell, minister of the parish of Crathie, and domestic chaplain in Scotland to the Queen. He was ordained to the parish of Lomnay, and translated in 1874 to the parish of Crathie, where the Queen was a frequent worshipper in the parish church, and had in various forms shown her esteem for and confidence in its minister. He had been honored by her Majesty's command to publish a selection of his sermons. The Senate, having learned that Mr. Campbell was about to open a new church, deemed this a fitting opportunity to mark their sense of services so exceptional, honourable, and highly valued by the Queen."

WOMAN'S SALVATION.

HOW SHE MAY SAVE HERSELF FROM UNTOLD MISERY.

One Who Has Passed Through the Ordeal Speaks for the Benefit of Her Suffering Sisters.

Not the least among the many valuable services Dr. Williams' Pink Pills have rendered to suffering women, is that of tiding them over the critical period commencing at middle age, commonly known as the change of life. It so often happens that at this climacteric women relapse into a stage of chronic invalidism, and the actual danger to life which attends the change is so great that a medicine which can be relied upon to carry the system over this dangerous time, is nothing less than a life saving invention. What Dr. Williams' Pink Pills will do for women at this change of life is shown in a case reported in the *Dewsbury (Eng.) Chronicle*. It is that of Mrs. Benjamin Smith, who lives at Hanover street Dewsbury. The change of life had left her weak and miserable; with constant pains, dizziness and shortness of breath on the slightest exertion, together with chronic rheumatism in the head and eyes. The pain in her head was too acute for words. She got no sleep either by day or night, and her agony was at times so great that it took two people to hold her in bed. A skillful doctor was called in but did no good. "My cheeks would swell up as big as saucers," said Mrs. Smith. "My eyes were as red as fire and there was no getting rid of the pains in the head. I suffered also from a sluggish liver and weak heart, and at times my eyesight was so bad that objects before me seemed but dim shadows, and there was none of my friends who looked for my restoration to health. I saw an account in a newspaper of a cure similar to mine through the use of Dr. Williams' Pink Pills, and my husband urged me to try them. Before two boxes were used the pains had disappeared as if by magic and the continued use of the pills for a little more than a month, has left me enjoying as good health as ever I had in my life. I consider Dr. Williams' Pink Pills a blessing, and as I know there are thousands of women who suffer in silence from troubles having the same origin as mine, I am grateful enough for what they have done for me to tell my story in the hope that some suffering sister may be similarly helped, and you have full permission to publish what I have told you, which statements can be verified by any of my neighbors." The statements made by Mrs. Smith prove the unequalled merit of Dr. Williams' Pink Pills, and as there are thousands of women throughout the country similarly troubled, her story of renewed health will point to them the remedy which will prove equally efficacious in their cases. Dr. Williams' Pink Pills are especially valuable to women. They build up the blood, restore the nerves, and eradicate those troubles which make the lives of so many women, old and young, a burden. Dizziness, palpitation of the heart, nervous headache and nervous prostration speedily yield to this wonderful medicine. They are sold only in boxes, the trade mark and wrapper printed in red ink, at 50 cents a box or six boxes for \$2.50, and may be had of druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont.
