Vaccinum Crassifolium.
Vervain, White.
Wild Bergamot.
Yerba Buena.
Yerba Del Manza.
Yerba Del Polo.
Yerba Keuma.
Yerba Santa.
Zoapatle.

SUGAR COATED PILLS.

Our list of Sugar Coated Pills of the United States and British Pharmacopœias, comprises most of the official and popular formulæ known to the profession, to which we have added several new and valuable combinations. Our pills are made entirely by hand, from the purest materials, and are sugar and gelatine coated by the latest and most approved processes. For solubility, regularity of shape, and beauty of finish, they are excelled by none.

IMPORTANT.—Our pills being coated while the mass is yet soft, will remain so for years. To be convinced of their extraordinary solubility, it is only necessary to open a few of them—for instance, quinine, chinchonidia, or blue pills, all of which are usually found in the market hard and insoluble. Note also the rapidity with which the coating is dissolved in the saliva.

GELATINE PHARMACEUTICALS.

One of the greatest improvements of modern pharmacy is the use of Gelatine in various forms to render medicines more slightly, and to disguise their nauseous taste. This has given origin to the Gelatine Coated Pill—a full line of which, of similar formulæ to our sugar-coated pills, will be found on our list—and also to the Hard, and the Soft Gelatine Capsules. We are dispensing Hard Capsules, empty and filled. The Soft Elastic Capsules, however, are, from the nature of their formation, always filled before leaving our laboratory. These Capsules are so soft and elastic that their walls may be brought into juxtaposition, and yet they will regain their original shape and size when the pressure is removed. This property renders them very easy of deglutition, and they will slip down like an oyster or the yolk of an egg, though the largest of them have a capacity of half a fluid ounce.

SPECIALTIES.

Warburg's Tincture.
Solution of Sclerotic Acid.
Nitrite of Amyl Pearls.
Sanguis Bovinus Exsiccatus.
Liquor Acidi Phosphoric.
Liquor Acidi Phosphoric Comp.
