

3) With inflation and the current financial crisis, I would see myself as a watchdog of student services, making sure no valuable services were dropped and by contributing to the efficiency of others. New programmes I have proposed are inexpensive and yet serve the entire student body. If financial problems were to be solved next year, I would push for some badly needed new services, such as another Day Care Centre.

4) As Vice-President I will establish a Housing Registry and encourage student groups on campus to set up a book co-op. I will diversify entertainment on campus by supplementing CAB socials with cabarets. By combining the RATT entertainment budget, the Services and Forums budgets, I will be able to provide a better programme of intellectual entertainment.

I believe the Students' Union must maintain a wide range of worthwhile services which cater to the needs and desires of all students. The elected executive must communicate with students to find out where those needs and desires lie, and to be flexible to make changes accordingly.

5) The McGhie Slate believes continued negotiation with the provincial government is essential of the Students' Union hopes to pull itself up and remain financially independent. We believe a strong and respected voice on GFC and the Students' Finance Board are necessary to bring about the changes in university grading and financial assistance to students.

Ruby REMENDA
Fritze Slate

1) The qualifications that make me the most suited candidate for the vice-presidency services include my involvement as a member of the Services Advisory Committee, and my office experience as manager of the Summer School of the Arts.

2) My elected duties would be the maintenance of existing services and the establishment of new services (ie. CKSR radio and Student Housing Registry). There will be no cutback of existing services that would further minimize the returns that students are entitled to.

3) The SU financial position is critical. We must reestablish

negotiations with the government and university in order for the SU to remain a viable member of the business community. We are against the cutback of any existing services. Through proper management of student funds we can incorporate the new services for less money than was spent by putting the pictures in this year's telephone directory.

The Fritze Slate Policies are service oriented policies. When elected my primary purpose will be to maximize services for you, the student.

1975 is International Women's year. Elect a qualified woman to the executive on Feb. 14.

Terry SHARON
Leadbeater Slate

1) My experience includes activity in previous SU elections, running for Education representative, participation in academic affairs and research into Student Union problems. I do not seek the position of Vp Services as a stepping stone in a political career but rather as an opportunity to serve the student body.

2) I feel the Vp of Services must oversee, expand and initiate services which the SU provides to the student body. Much of the problems that have occurred in organizing CAB socials, forums and FIW have occurred because the Vp of Services has not taken a more active part in them.

3) The Leadbeater Slate believes that the SU's negotiations with the provincial government must be more aggressive. The service that HUB provides for the students must be stressed to the government and not that HUB is competitive housing. Reduced rents in HUB during summer months and a more active part by the SU in advertising and promotion of HUB are ways in which the HUB deficit can be reduced.

4) The Leadbeater Slate has developed a plan where assistance will be given to smaller clubs who wish to provide CAB socials. The course-guide needs to be re-evaluated but must be revitalized. Increase use of forums and improvement of the Photo Directory are needed along with more entertainment on campus.

5) The financial crisis of the SU and the present executive's inability to cope with it has led to the direct erosion of student services. The Leadbeater Slate believes the SU is a service organization. Services such as an exam registry and file for student and faculty use would be a great asset for students in course selection. The Leadbeater Slate provides the only real solutions to the SU financial crisis. These solutions will in turn rejuvenate much needed student services which the SU must provide to the student body.

PRESIDENT MEN'S ATHLETICS

Morris FISHER
Elected

As the incoming men's athletic president I would like to offer some points for you to consider. As you probably remember, we had a referendum in the 73-74 academic year as to the increase of fees for the UAB. In that referendum it was pointed out that more money was needed to offset cost, to expand facility use and to increase chances of participation.

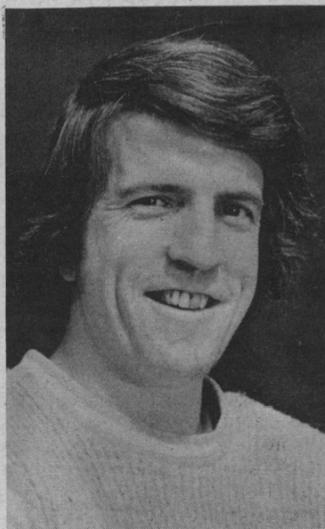

This to my mind has not been done to the level it should have been.

We must look at the total picture of funding for intercollegiate, intramurals, clubs and co-rec activities. Remember you supply the major portion of the budget.

It is my philosophy that this is an educational organization so your funds should go toward these activities which will enhance your experience here at the U of A.

The problems facing the UAB can be met by imaginative thinking. This I will provide on your behalf.

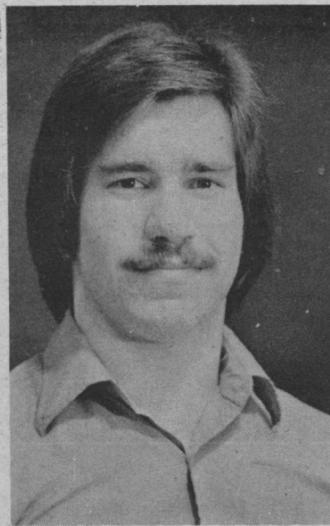

In closing I again would like to remind the student body that you supplied \$291,000 of total budget. I as your rep need your support concerning athletics here at the U of A. My effectiveness depends upon you. So bring your ideas, bitches, praises and lets work together for a better athletic program in 75-76.

VP MEN'S ATHLETICS

Paul BELANGER

I feel that being a 1st year student is a definite qualifica-

tion for the position of Vice-President of Men's Athletics in that continuation of my services on the U.A.B. in the future is imminent. The experience gained in position of more footwork and lesser prestige will certainly contribute to wisely applying myself to jobs of higher authority and increased responsibility.

This year the vice-president is going to be elected by the students and this is where his main responsibilities lie. In order to properly serve the students this position requires that the person in office be totally committed and involved with the different committees of the U.A.B. This means attending meetings and participating in the different constituents so that he is aware of the factions that contribute and utilize the U.A.B.

He is elected by the students, so the vice-president should be willing to voice any legitimate ideas presented to him by the students. To facilitate this he must make himself available to the students. If results are expected cooperation between the different factions of students, the council, the U.A.B. and the vice-president is mandatory.

This position fascinates me and I feel that I can do a complete job. If elected as Vice-President of Men's Athletics I will give this position my first priority.

Keith WALKER

Election time is usually an occasion for electioneers to tell students what they want, what they will need in the future and finally, who they would suggest could satisfy the first two items. I choose, instead, to suggest to students what they have and how they can get it. (this isn't mean to mean there's no room for expansion and/or improvement because there is.)

As the position for which I seek your support, for the second time, is Vice President Men's Athletics my focus is on athletics. It should be explained what the VP position consists of (as there seems to be some question). The VP Men's Athletics is 1) one of nine student representatives on the 17 member University Athletic Board (UAB). The UAB attempts to encourage participation in recreational activities, intramurals, and intercollegiate athletics. It has the power to deal with and expend all athletics money (your \$15 included), and it advises and works in co-operation with the Division of Intramural and Intercollegiate Athletics to provide athletic programs.

2) A member of the Inter-

collegiate Committee which makes policy recommendations to the UAB with regard to intercollegiate activities. There is also a joint committee which consists of the above along with their female counterparts. This groups acts to coordinate activities and discuss mutual issues.

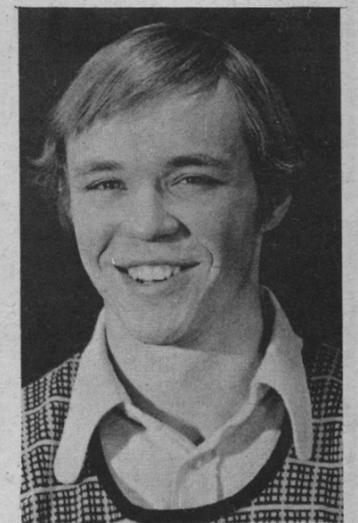

3) The VP Men's Athletics is also a member of the Men's Awards Committee and the Awards Night Committee, both deal with athletic award policy recommendations (to UAB), a social function (color night) for participants in program, and looks after recommendations for award recipients.

Now that's the position - abbreviated. Where do the students fit in? It's your program, your money, and the VP Men's Athletics is one of several of your representatives. If there is something you don't like or something you would like, let one of your reps know. The UAB's student office if located right across from the women's intramural office (lower west Phys. Ed. building). By the way the 75-76 budget is coming up pretty soon - any ideas or suggestions?

Now for a repeat (I didn't know I'd get two chances - see *Gateway* Feb. 6, 1975). I have two basic objectives for the VP men's Athletics position:

1) Students buck up \$15 in the form of athletic fees each year. The VP Men's Athletics is in a position to help expend that money in a manner most beneficial to the student.

2) We have a top notch program now, we have to work to maintain it, to develop and improve it so as it reaches more students and satisfies more needs.

VP WOMEN'S ATHLETICS
