

VOTE NO! **Don't Elect a VP External**

CASE IN POINT:

If there was no VP External this year, we might not be in the CFS today. The present VP External voted against holding another referendum. The CFS is a waste of money and effort. The unity we gain is greatly offset by the misdirection and fanaticism of the group itself. Their best interests are not necessarily ours. Past VP Externals have supported other such positions.

**If nothing good is
going to come from the position,
then cancel the position.**

**Things can't get any worse than they already are.
The odds are that they won't improve either.**
