

We beg to request that you will please endeavour to inform the Indians of the Desert of our reply to their Council and that we will look forward for a reply as soon as possible.

I feel confident that the Department will look favourably into our Case and that if we can't get a portion of the Rente at the Desert given to us that we will get a Gratuity. if so, we would demand seeds to plant the Coming Spring. 1895—

I am

yours faithfully,
Louis Hawastush
