## Peace With Freedom

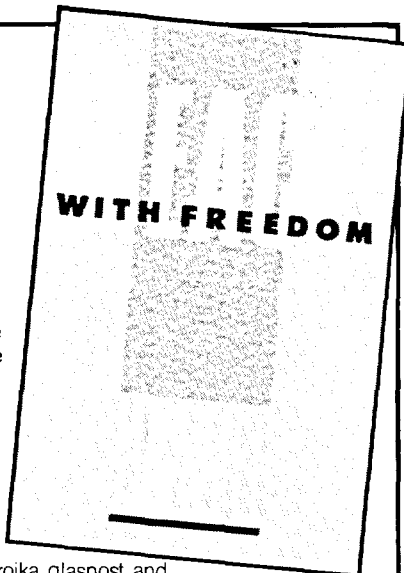

MAURICE TUGWELL

PEACE WITH FREEDOM, the challenging and provocative study of peace in Canada examines the role of the mainstream peace movement in Canada, and the pivotal role of deterrence in maintaining peace with freedom. Tugwell also considers the real meaning of perestroika, glasnost, and "new thinking" in terms of the Soviet propaganda machine. Tugwell's message is that peace with freedom implies support for the western democratic tradition and a determination to defend it from external and internal threats.

### ONCE A PATRICIA

C. Sydney Frost

In a riveting autobiographical account of his World War II service, Colonel Frost makes his reader an eye witness to the shocking reality of a fighting soldier's life during the battles of the almost forgotten Italian campaign. ### TRAFALGAR AND THE SPANISH NAVY

John D. Harbron

Little known facts about the once prevalent Spanish naval presence on Canada's west coast during the eighteenth century are presented in the first untold story in English of the many roles of Spain at sea. A dramatic re-evaluation of the Spanish Navy and its defeat by the British at Trafalgar in 1805, the book disproves many long-held beliefs about the incompetence of the Spanish fleet and reassesses its principal maritime accomplishments.

### FRIGATES OF THE ROYAL CANADIAN NAVY, 1943-1974

Ken Macpherson

It is extraordinary that one seldom hears of the finest anti-submarine vessels built in Canada during the entire Second World War. Frigates proved their worth as ocean escorts and were important contributors to victory over the U-boats. Used as training ships in postwar years, the remaining ships underwent extensive renovations between 1953 and 1958 and emerged as members of the Prestonian class. Each frigate is represented before and after the Prestonian class configuration.
