

	PAGE.
Four track elevated railroad structure, description of.	620, 621, 625, 627
Fraser River Bridge.	7
Freehand drawing, the value of.	850
French in technical courses.	168
"Fudging" notes	36

## G

Gates in streets, at movable bridges.	538
General design for elevated railroads	600
Geodesy, the study of.	946
Geological survey maps, exploratory value	56
Geology, course in.	103
Geology, instruction in.	947
Geology, relations to civil engineering	961, 964
German in technical courses.	186
Girders, depths of, in braced towers	760
Girders for elevated railroads, planning of.	759
Girders, superelevation of track on.	610
Glasgow bridge, Dr. Waddell's work on	2
Government positions for young engineers	822
Grade plugs, location of.	43
Graduate course, foundation for.	950
Graduate course in civil engineering.	931
Graduate course, the character of.	950
Graduate courses now offered.	949
Graduate engineer, first work of.	821
Graduate engineer should receive experience instead of salary.	821
Graduate engineer, value of school training	511
Graduate engineers, compensation of	786
Graduate school, course for.	944
Graduate school, the founding of.	942
Graduate school, the organizing of.	942
Graduate schools, importance of.	952
Graduate schools, in universities.	167
Graduate work.	520
Graduate work, advantages of.	845
Graduate work, preparation for.	951
Graduate's study	832
Granitoid pedestal caps, position of.	758
Graphics, importance of.	162, 177
Gravity centers, intersection of.	145, 290, 662, 733, 739
Grubbing	44
Guard rails, for elevated railroads,	438, 669, 607
Guides for lift-bridge span.	534

## H

Habits, clerical.	175
Habits, loose, the rule with students	176
Habits of students, the controlling of	863

	PAGE.
Halsted Street Lift-Bridge.	6, 545
Halsted Street Lift-Bridge, additional specifications for.	544
Halsted Street Lift-Bridge, capacity of	534
Halsted Street Lift-Bridge, causes of excessive cost.	528
Halsted Street Lift-Bridge, collision of vessel with.	576
Halsted Street Lift-Bridge, cost of.	528, 558
Halsted Street Lift-Bridge, cost of operation	563
Halsted Street Lift-Bridge, description of.	530
Halsted Street Lift-Bridge, details of	585
Halsted Street Lift-Bridge, electrical operation of.	584
Halsted Street Lift-Bridge engines.	567
Halsted Street Lift-Bridge, erection of	558, 572
Halsted Street Lift-Bridge, foundations for.	569
Halsted Street Lift-Bridge, impediments to its construction.	530, 581
Halsted Street Lift-Bridge, location of	571
Halsted Street Lift-Bridge, machinery for.	566
Halsted Street Lift Bridge, satisfactory character of.	528
Halsted Street Lift-Bridge, skepticism regarding.	572-574
Halsted Street Lift-Bridge, speed of operation	584
Halsted Street Lift-Bridge, suspension of.	534
Hand power apparatus for Halsted Street Lift-Bridge.	541, 568, 581
Hand rail for lift-bridge.	534
Hangers, floor beams.	292
Harbor work, instruction in.	947
Heating of elevated railroad stations	614
Higher education for civil engineers,	929, 933, 960
Higher education, necessity for.	933
Higher engineering.	944
Higher engineering education, extent of the desire for.	941
Higher engineering education, necessity for.	88
Highway bridges, Japanese.	71, 72
Highway engineering, instructions in	947
Hilly country, surveys in.	34
History of engineering.	185
History of engineering, cause of ignorance of.	189
History of engineering, character of.	191, 193
History of engineering, discussion on	193
History of engineering, editing committee's duties.	191
