

CHAPTER		PAGE
XV.—HÆMORRHAGE BEFORE, DURING, AND AFTER LABOR		333
Hæmorrhage before labor	.	333
Accidental hæmorrhage	.	333
Treatment for external accidental hæmorrhage	.	338
Treatment for concealed accidental hæmorrhage	.	340
Placenta praevia	.	341
Treatment of placenta praevia	.	343
Hæmorrhage from cancer of the cervix	.	348
Hæmorrhage from a ruptured varix of the vagina or vulva	.	349
Post-partum hæmorrhage	.	349
Primary post-partum hæmorrhage	.	349
Treatment	.	351
Secondary post-partum hæmorrhage	.	355
XVI.—ABORTION OR MISCARRIAGE	.	359
General considerations	.	359
Threatened abortion	.	362
Inevitable abortion	.	362
Treatment	.	362
Other varieties of abortion	.	372
Deciduoma malignum or chorio-epithelioma	.	372
XVII.—PROLONGED AND PRECIPITATE LABOR	.	374
Prolonged labor	.	374
Causes of prolonged labor	.	376
Dry labor	.	377
Treatment of dry labor	.	382
Difficult occipito-posterior positions	.	385
Treatment	.	387
Labor obstructed by faulty conditions of the soft parts	.	392
Precipitate labor	.	397
XVIII.—MALPRESENTATIONS AND ABNORMAL CONDITIONS OF THE FETUS	.	399
Shoulder, arm, and transverse presentations	.	399
Abnormalities	.	403
XIX.—ABNORMAL CONDITIONS OF THE UTERUS, ITS CONTENTS, AND THE MAMMARY GLANDS	.	410
Rupture of the uterus	.	410
Inversion of the uterus	.	416
Retention of the placenta and adhesions of placenta	.	418
Mastitis	.	420
XX.—THE EMOTIONAL ELEMENT IN THE PUEPERAL PERIOD AND PUEPERAL INSANITY	.	427
Effects of emotional disturbances	.	427
Puerperal insanity	.	430
XXI.—LISTERISM AND OBSTETRICS	.	433
Puerperal fever or puerperal septic infection	.	435
Nature of puerperal infection	.	436
How does the infection take place	.	437
