

Proved by 10 Years Farm Work

Breaking virgin sod, sun-baked for years, on the prairies of the West—deep-plowing the much tilled land of the smaller farms of the East—year after year of the hardest kind of farm work has proved the supreme fitness of OilPull Tractors.

This dependability and service has been remarkably demonstrated by the first OilPull built, that is still working in South Dakota, and by old OilPull No. 11 still on the job in Michigan—year in and year out continuous performance that gives the only real basis upon which a tractor can be judged. In these ten years the OilPull Tractor has built up a record of continuous, reliable, economical operation, unequalled in the tractor industry.

Backed by a Written Guarantee

And as if it were not enough that throughout all these years the OilPull has proved its ability to operate successfully on all grades of kerosene, the makers give you an absolute guarantee that it will do so. The fact that this is the only tractor company that gives such a fair and square, iron clad written guarantee tells a big story in itself.

Moreover, wherever you find this guaranteed tractor of proved performance, you will find near at hand Advance-Rumely service—established and maintained through 24 branch offices and warehouses, where complete stocks of machines and repair parts are always on hand.

The Rumely OilPull Tractor may be had in sizes from three to ten plow, standard as to design and construction—a size to fit every farm.

A post card will bring you the OilPull catalog.
